

Decision 99-12-057**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

In the Matter of the Application of IDT America Corp., a New Jersey Corporation, to Extend Its Certificate of Public Convenience and Necessity to Provide InterLATA Telecommunications Service in California to Include IntraLATA Authority; and to Upgrade From Switchless Reseller to Facilities-based Carrier.

Application 99-11-038
(Filed November 12, 1999)

O P I N I O N

IDT America Corp., a New Jersey corporation, was granted authority to provide intrastate inter- local access and transport area (LATA) telecommunications services in California as a non-dominant interexchange carrier in D.94-11-008. The company filed on November 12, 1999, to extend its certificate of public convenience and necessity to include intraLATA toll services and to upgrade from a switchless reseller to a facilities-based carrier; however, it was incorrectly docketed as I.95-04-044 Petition 172. This petition was converted to a registration, pursuant to the registration process adopted in Decision (D.) 97-06-107 and related decisions, and the correction appeared on the Commission Calendar on December 10, 1999.

The applicant was qualified to use the registration process and complied with the filing requirements for a registration application; there were no protests to the application; and the draft tariffs submitted were not rejected by the Commission's Telecommunications Division. Therefore, pursuant to the authority granted to the Executive Director by D.97-08-050, the applicant should be granted a certificate of public convenience and necessity to provide this service.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Public Utilities Code section 311(g)(2), the otherwise applicable 30 day period for public review and comment is being waived.

Findings of Fact

1. The application was filed on November 12, 1999, and appeared in the Commission's Daily Calendar on November 17, 1999. A correction to the original filing appeared on the Calendar on December 10, 1999.

2. There were no timely protests to the application.

3. The draft tariffs were not rejected by the Commission's Telecommunications Division.

Conclusion of Law

Applicant should be granted the requested extension of its authority and upgrade of its status from switchless reseller to facilities-based carrier subject to the conditions in the attached appendix.

O R D E R**IT IS ORDERED that:**

Applicant is also authorized to upgrade its services from switchless reseller to facilities-based carrier status. Applicant shall retain its assigned corporate identification number U-5427-C, which shall be included in the caption of all filings made with this Commission.
