BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Rulemaking regarding)
passenger transportation performed by)
nonprofit organizations which is)
incidental to the operation of day)
camps and residence camps for children.)

ORIGINAL

R.90-07-036
(Filed July 18, 1990)

ORDER INSTITUTING RULEMAKING

Section 5360 of the Public Utilities (PU) Code defines "charter-party carrier of passengers" as "every person engaged in the transportation of persons by motor vehicle for compensation, whether in common or contract carriage, over any public highway in this state [subject to the exclusions of Section 5353]." Section 5353(f) excludes: "Passenger vehicles carrying passengers on a noncommercial enterprise basis."

Several requests for informal opinions have recently been presented to the Commission's staff concerning whether nonprofit organizations which conduct day camps and residence camps for children (youth camps), including private, public, and church groups, need to obtain charter-party authority from the Commission when they perform transportation in connection with their camp operations. The staff has generally responded that if the camp assesses a charge for the transportation, whether direct or indirect, operating authority appears to be required unless the camp organization is a "noncommercial enterprise." We believe it is appropriate for the Commission to promulgate more specific guidelines.

Therefore, we will institute a proceeding to determine under what circumstances, if any, nonprofit organizations providing transportation incidental to the operation of youth camps qualify for the "noncommercial enterprise" exclusion of Section 5353(f).

IT IS ORDERED that:

A rulemaking proceeding is instituted on the

Commission's own motion to determine under what circumstances, if any, nonprofit organizations providing transportation incidental to the operation of youth camps qualify for the "noncommercial enterprise" exclusion of Section 5353(f).

As part of this investigation the Commission will examine the following questions, among others:

1. For the noncommercial enterprise exclusion to apply, is it sufficient for the organization to be nonprofit, or should there be any additional qualifications, such as that the youth camp not generate a profit for the organization (i.e., camp fees recover no more than actual costs of operation); or that the organization be a charitable organization?
2. In determining whether transportation services provided incidental to the operation of youth camps by nonprofit organizations involves the carrying of passengers on a "noncommercial enterprise basis," is the youth camp the enterprise referred to or should the Commission consider the nature of all of the activities of the organization operating the camp?
3. What does "noncommercial" mean?

This rulemaking proceeding is expected to result in a Commission decision determining under what circumstances, if ever, nonprofit organizations performing transportation incidental to the operation of youth camps are required to obtain a charter-party permit or certificate from the Commission. (Among the requirements for obtaining charter-party authority are filing an application with a \$500 filing fee, filing evidence of liability insurance protection in an amount specified by the Commission (\$750,000, \$1.5 million, or \$5 million, depending on the seating capacity of the vehicle), passing a CHP safety inspection, and participating in DMV's pull notice program.)

Examples of a rule which could result from this

proceeding are:

1. Nonprofit organizations which perform transportation incidental to the operation of youth camps, whether compensation for the transportation is direct or indirect, must obtain charter-party authority from the Commission.
2. Nonprofit organizations which recover more than the actual cost of operating their camps do not qualify for the "noncommercial enterprise" exclusion of PU Code Section 5353(f).
3. Only those nonprofit organizations which are charitable organizations (i.e., donations to the organization are tax-deductible) qualify for the "noncommercial enterprise" exclusion of PU Code Section 5353(f).
4. Transportation performed by nonprofit organizations which is incidental to the operation of youth camps is not subject to the Commission's jurisdiction.

By listing the above possible rules the Commission does not intend to endorse any particular proposal, but only to more fully apprise interested persons of the scope of the proceeding.

In order to participate in the Commission's decision making process you must file written comments in accordance with Rules 14.1 - 14.6 of the Commission's Rules of Practice and Procedure. The filings shall be made no later than October 1, 1990.

Comments should address the above questions, the possible rules outlined above, and/or the general subject of the OIR. Parties are invited to include in their comments their own proposed rules for applying the exclusion of Section 5353(f) to youth camps. Comments on proposed rules should include a discussion of how the rules do or do not carry out the intent of Section 5353(f). The Commission is also concerned about whether proposed rules treat the various kinds of

operators of youth camps equitably.

Parties also may comment on insurance and safety concerns which may arise if the Commission determines that youth camp transportation by nonprofit organizations is not subject to Commission jurisdiction. Parties may include proposed statutory changes which would alleviate any safety or insurance concerns.

While not mandatory, it would be helpful if those parties who perform transportation in connection with the operation of youth camps would describe the nature of the transportation they perform (for example, whether transportation is provided only to and from the camp, if camp vehicles are used to conduct field trips, the types of vehicles used, the distances traveled, and whether there is a separate charge for transportation) and state the level of liability insurance they maintain on their vehicles.

To file comments, an original and 12 copies of the comments must be submitted to the Commission's Docket Office, 505 Van Ness Ave., San Francisco, CA 94102, but need not be served on other parties, unless specifically requested. A list of those parties filing comments, including the Commission staff, will be compiled by the Administrative Law Judge and furnished to all persons who have filed. Such persons shall mail copies of their filings only to those who request a copy.

Only persons who have filed comments can be assured of being informed of further Commission proposals concerning youth camp transportation and an opportunity to participate in the Commission's decision making process. The Commission anticipates that, based on the comments and any proposed rules received, we will formulate a proposed rule and submit it for further comment to those parties who previously submitted comments.

R.90-07-036

T/PW:pw

The Executive Director shall mail a copy of this OIR to the persons and organizations on the attached service list.

This order is effective today.

Dated July 18, 1990, at San Francisco, California.
