In conformity with the findings and order made by the Commission in a resolution entered this day, Contract T-154,407-185 is ordered cancelled and will not go into effect June 25, 1990.

Special contracts must include evidence of substantial shipper obligation in the contract. To meet this requirement the contract must either provide for the carrier to earn a minimum of \$1,000 per month for delivered transportation services, or the contract must call for substantial shipper obligations not normally provided under common carrier tariff rates by any carrier. Many carriers have accomplished this by writing the contract in a way that makes the \$1,000 a month minimum easily calculable by multiplying the rate by the projected tonnage. Crescent Truck Lines, Inc. filed special contract number T-154,407-185 with CB Tool And Supply, Inc., which appeared on the Commission's Transportation Calendar June 4, 1990. The contract was suspended on June 15, 1990 for 30 days because it did not include evidence of the substantial shipper obligation, required by Rule 6.14 of General Order 147-B.

In conformity with the findings and order made by the Commission in a resolution entered this day, Contract T-154,407-206 is ordered cancelled and will not go into effect June 25, 1990.

Special contracts must include evidence of substantial shipper obligation in the contract. To meet this requirement the contract must either provide for the carrier to earn a minimum of \$1,000 per month for delivered transportation services, or the contract must call for substantial shipper obligations not normally provided under common carrier tariff rates by any carrier. Many carriers have accomplished this by writing the contract in a way that makes the \$1,000 a month minimum easily calculable by multiplying the rate by the projected tonnage. Crescent Truck Lines, Inc. filed special contract number T-154,407-206 with Reco Plastics, which appeared on the Commission's Transportation Calendar June 4, 1990. In conformity with the findings and order made by the Commission in a resolution entered this day, Contract T-154,407-236 is ordered cancelled and will not go into effect June 25, 1990.

Special contracts must include evidence of substantial shipper obligation in the contract. To meet this requirement the contract must either provide for the carrier to earn a minimum of \$1,000 per month for delivered transportation services, or the contract must call for substantial shipper obligations not normally provided under common carrier tariff rates by any carrier. Many carriers have accomplished this by writing the contract in a way that makes the \$1,000 a month minimum easily calculable by multiplying the rate by the projected tonnage. Crescent Truck Lines, Inc. filed special contract number T-154,407-236 with Bingo King, which appeared on the Commission's Transportation Calendar June 4, 1990. The contract was suspended on June 8, 1990 for 30 days because it did not include evidence of the substantial shipper obligation, required by Rule 6.14 of General Order 147-B.

In conformity with the findings and order made by the Commission in a resolution entered this day, Contract T-61,078-614 is ordered cancelled and will not go into effect July 13, 1990.

Special contracts must include evidence of substantial shipper obligation on the contract. To meet this requirement the contract must either provide for the carrier to earn a minimum of \$1,000 per month for delivered transportation services, or the contract must call for substantial shipper obligations not normally provided under common carrier tariff rates by any carrier. Many carriers have accomplished this by writing the contract in a way that makes the \$1,000 a month minimum easily calculable by multiplying the rate by the projected tonnage. Di Salvo Trucking Company filed special contract number T-61,078-614 with Manhattan Electric Cable, which appeared on the Commission's Transportation Calendar June 6, 1990. The contract was suspended on June 13, 1990 for 30 days because it did not include evidence of the substantial shipper obligation, required by Rule 6.23 of General Order 147-B.

This order issued JUL 6 1990, by the Public Utilities Commission of the State of California by the adoption of the Resolution No. OCR-1002 of which this order is a part.

In conformity with the findings and order made by the Commission in a resolution entered this day, Item 3657, TNT Bestway Transportation Tariff TNBW 700, CA PUC 6 (Original Page 350) is ordered cancelled and will not go into effect August 30, 1990.

The only distinction between shippers of the same commodity who receive the lower rate in Item 3657 and those who will be assessed a higher class rate in section 2 of the tariff is that the lower rate must be requested by annotation on the bill of lading, or by letter. The distinction is trivial and redundant since General Order 80-C already requires a rule in the tariff stating that when two or more rates are named in the tariff for the same transportation the lowest shall apply. A mere request for a rate, therefore, cannot be made a controlling factor in a tariff rate application. This tariff page filing appeared on the Commission's Transportation Calendar July 30, 1990 and was suspended for 30 days commencing July 31, 1990.

This order issued AUG 8 1990, by the Public Utilities Commission of the State of California by the adoption of the Resolution No. OCR-1004 of which this order is a part.
