In conformity with the findings and order made by the Commission in a resolution entered this day, Special Contract T-140,218-3563 is ordered canceled and will not go into effect April 19, 1991.

Special contracts must include evidence of substantial shipper obligation in the contract. To meet this requirement the contract must either provide for the carrier to earn a minimum of \$1,000 per month for delivered transportation services, or the contract must call for substantial shipper obligations not normally provided under common carrier tariff rates by any carrier. Many carriers have accomplished this by writing the contract in a way that makes the \$1,000 a month minimum easily calculable by multiplying the rate by the projected tonnage. Con-Way Western Express filed Special Contract T-140,218-3563 with Polypure, Inc., which appeared on the Commission's Transportation Calendar March 11, 1991. The contract was suspended on March 20, 1991 for 30 days because it did not include evidence of the substantial shipper obligation required by Rule 6.14 of General Order 147-B.
