

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Resolution RTS-13
Transportation Division

R E S O L U T I O N

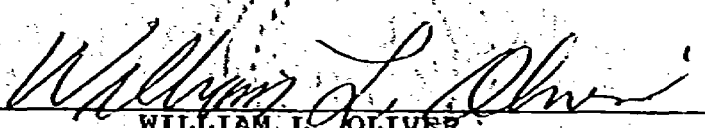

GRANTING EXTENSION OF TIME TO COMPLETE A NEAR-SIDE STATION
GRADE CROSSING DEMONSTRATION PROJECT

By letter dated December 16, 1988 the San Diego Metropolitan Transit Development Board (MTDB) has requested an extension of time to comply with Resolution RTS-10 which authorized the construction of a temporary installation at the H Street railroad-highway crossing in Chula Vista to demonstrate the effectiveness of certain experimental grade crossing protection devices.

The staff finds that other than an extension in time there are no changes in circumstances since the original authority was granted by the Commission, and there are no objections by the staff to the requested time extension.

IT IS RESOLVED that MTDB is granted an extension of time until May 1, 1989 to exercise the authority granted by Resolution RTS-10, dated July 20, 1988. In all other respects RTS-10 shall remain in full force and effect.

This resolution is issued pursuant to Resolution ET-1367 and memorandum by the Executive Director dated April 6, 1988, and is effective today, January 4, 1989.

WILLIAM L. OLIVER
Assistant Director, Transportation Division
