

## PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Resolution SR-13  
Safety Division

## R E S O L U T I O N

AUTHORIZING THE RAILROADS IN CALIFORNIA TO UPDATE COSTS  
OF MAINTAINING AUTOMATIC GRADE-CROSSING WARNING DEVICES  
FOR CALENDAR YEAR 1989.

Public Utilities Code Section 1231.1 requires the Department of Transportation (Caltrans) to set aside in its annual budget a minimum of \$1,000,000 into the Automatic Grade-Crossing Protection Maintenance Fund for allocation to the Public Utilities Commission for the purpose of paying to railroads the cities' and counties' share of maintaining automatic grade-crossing warning devices. The maximum allocation to this fund is determined by the California Transportation Commission.

One of the steps in distributing funds from the Automatic Grade-Crossing Protection Maintenance Fund requires establishing the cost of maintaining automatic grade-crossing warning devices. The Commission's Decision (D.) 88-01-018, dated January 13, 1988, contains the procedure for determining the costs of maintaining grade-crossing warning devices. In accordance with D.88-01-018 the railroads filed on December 12, 1989, the required computations which indicated the updated costs for maintenance of automatic warning devices for each crossing category for calendar year 1989.

The staffs of the Commission and Caltrans have reviewed the railroads' verified information and agree on the following updated maintenance costs:

<u>Crossing Type</u>	<u>1989 Annual Maintenance Cost Per Crossing Type</u>
Main line	\$2717
Branch line with gates	1973
Branch line without gates	765
Other line with gates	1406
Other line without gates	763
