Resolution No. STD- 1116

TRANSPORTATION DIVISION
TARIFF & LICENSE BRANCH
Tariff Section

**Before the Public Utilities Commission
of the State of California**

**RESOLUTION ORDERING DISPOSITION OF
SPECIAL TARIFF DOCKET REQUESTS**

Requests as identified hereinafter have been filed on the Special Tariff Docket for authority to make tariff changes for which permission of the Commission is requisite under provisions of the Public Utilities Code or orders of the Commission. Due consideration has been given to the representations contained in the verified requests, and good cause appearing, the following findings and order are made:

The Commission finds that the following requests are justified and should be granted subject to conditions specified in the orders which are attached hereto and by this reference made a part hereof:

Request and
Order No.

STD-9953

Request Filed By:

California Trucking Association and
American Trucking Association, Inc.

Resolution No. STD- 1116
(Concluded)

The Commission finds that the following requests do not contain sufficient justification for the authority sought, and therefore should be denied without prejudice:

Request and
Order No.

NONE

Request Filed By:

The Commission finds that the following requests are of a nature not suitable for processing on the Special Tariff Docket, and therefore should be dismissed without prejudice:

Request and
Order No.

NONE

Request Filed By:

IT IS ORDERED that the aforesaid requests are granted, denied or dismissed, as the case may be, in accordance with the findings hereinbefore set forth, and as specified in the orders which are attached hereto and by this reference made a part hereof.

I certify that the foregoing resolution was duly introduced, passed and adopted at a conference of the Public Utilities Commission of the State of California, held on the 17TH day of DECEMBER, 19 87, the following Commissioners voting favorably thereon.

STANLEY W. HULETT
President
DONALD VIAL
FREDERICK R. DUDA
G. MITCHELL WILK
JOHN B. OHANIAN
Commissioners

Executive Director of the
Public Utilities Commission of the State of California

Order No. STD- 9953

Before the Public Utilities Commission of the State of California

Request filed by:

California Trucking Association and
American Trucking Association, Inc.

} Special Tariff Docket
Request Numbered Same as
Order Number Above.

In conformity with the findings and order made by the Commission in a resolution entered this day, the request, copy of which is attached hereto and by this reference made a part hereof, is granted, subject to the following conditions:

Supplement 2 to the American Trucking Association Hazardous Materials Tariff ATA 111-H shall be adopted not earlier than December 26, 1987, on not less than one day's notice and its provisions may be made applicable to the tariffs of highway common carriers and express corporations which participate in and are listed in the classification.

The authority herein granted is limited strictly to its terms, and shall expire unless the tariff provisions authorized herein are published and filed in the San Francisco office of this Commission within ninety days after the date hereof. The item of tariff or supplement issued pursuant to this order shall bear reference to this order in substantially the following form:

"Authorized by Cal. P.U.C. Order No. STD- 9953."

This order issued DECEMBER 17, 1987, by the Public Utilities Commission of the State of California by the adoption of the resolution of which this order is a part.

Executive Director of the
Public Utilities Commission of the State of California

CALIFORNIA TRUCKING ASSOCIATION

December 7, 1987

Norman Kelley
California Public Utilities Commission
State Building, Civic Center
San Francisco, California 94102

Dear Norm:

Normally we try to give you a minimum of 30 days notice on our filings for ATA. In this particular instance, however, the issue date was November 20, Friday. On November 23, 24, and 25, I was out of the office because of various meetings I was required to attend including the Rosenthal hearings, and the Conference on the 23rd. The balance of this week, as you recall, was the Thanksgiving Holiday. The following week, November 30 through December 4, I was involved in the Dump Truck Hearings.

I, therefore, was out of the office during this whole period and did not receive the ATA mailing until this morning.

As this Supplement to the Hazardous Materials Tariff is effective December 26, 1987, we would appreciate your endeavoring to have it considered at the PUC Conference on either December 17 or December 23, to become effective one day's notice.

Very truly yours,

Charles D. Gilbert, Manager
Regulatory Activities

BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA

SPECIAL TARIFF DOCKET REQUEST FOR THE ADOPTION OF SUPPLEMENT 2
TO ATA HAZARDOUS MATERIALS TARIFF 111-H

SPECIAL TARIFF DOCKET NO. 9953

The request of CALIFORNIA TRUCKING ASSOCIATION and AMERICAN TRUCKING ASSOCIATIONS, INC., AGENT, whose post office addresses are:

California Trucking Association
1251 Beacon Boulevard
West Sacramento, CA 95691

and

AMERICAN TRUCKING ASSOCIATIONS, INC.
Agent
2200 Mill Road
Alexandria, Virginia 22314

Communications or correspondence in regard to these filings are to be addressed to:

Charles D. Gilbert
California Trucking Association
24301 Southland Drive, #602
Hayward, CA 94545

Respectfully shows:

1

An order is requested for the adoption of Supplement 2 to the ATA Hazardous Materials Tariff ATA 111-H and to make such provisions applicable to the

FILED
PUBLIC UTILITIES COMMISSION
DEC 1987
TARIFF SECTION

tariffs of highway common carriers and express corporations, which participate in and are listed in the HMT under authority of a power of attorney. It is further requested that such authorization be concurrent with the National effective date of Dec. 26, 1987 and that it be granted on one day's notice; that all common carriers be authorized and directed to establish in their respective tariffs all such charges as may be prescribed and all orders made herein; that common carriers be authorized to establish such changes as may be prescribed in class and commodity rates and charges in connection with the transportation of exempt commodities; that common carriers be authorized to depart from Sections 460 and 461.5 of the Public Utilities Code and appropriate long and short haul provisions of the Constitution of the State of California to the extent necessary to carry into effect such changes; that any related revisions in numbering, referencing or format in the various tariffs, incidental to such changes, be authorized and established, and for such other and further orders as may be deemed reasonable and proper.

II

Highway common carriers and express corporations are operating as common carriers pursuant to the authority of this Commission and in accordance with tariffs filed with this Commission, which tariffs are subject to and governed by the ATA Hazardous Materials Tariff ATA 111-H, Cal PUC 18 and supplements thereto.

RECEIVED
PUBLIC UTILITIES COMMISSION
DEC 15 1987
TARIFF SECTION

III

The Hazardous Materials Tariff is periodically revised in order to remain responsive to the current conditions and needs of commerce in the transportation of hazardous materials by highway carriers. The Hazardous Materials Tariff

is also periodically reissued to minimize the difficulties which accompany excessive supplementation of tariff material.

Supplement 2, attached hereto as Exhibit A, and by this reference made a part hereof, proposes changes in the list of participating carriers and changes in the Hazardous Materials Regulations as ordered by the Department of Transportation and published in the Federal Register.

Supplement 2 to Hazardous Materials Tariff ATA 111-H with an issue date of November 20, 1987 and an effective date of December 26, 1987 also applies to tariffs covering areas other than California. The purpose of this filing is to obtain the authority necessary to make such provisions applicable to the tariffs of highway common carriers under jurisdiction of the Commission. Such authority will continue to promote national uniformity of regulations between interstate and intrastate traffic as well as between the states.

I hereby certify under penalty of perjury that the foregoing is true and correct.

Joel D. Anderson

Joel D. Anderson
Assistant Executive Vice President
California Trucking Association

PART 171—GENERAL INFORMATION, REGULATIONS, AND DEFINITIONS

In 171.7, paragraph (d)(27) is revised to read:

§171.7 Matter incorporated by reference.

(d) ***

(27) International Civil Aviation Organization Technical Instructions for the Safe Transport of Dangerous Goods by Air, DOC 9284-AN 905 (ICAO Technical Instructions), 1987-88 edition.

In §171.8, the definitions for "Hazardous material" and "Hazardous substances" are revised to read as follows:

§171.8 Definitions and abbreviations.

"Hazardous material" means a substance or material, including a hazardous substance, which has been determined by the Secretary of Transportation to be capable of posing an unreasonable risk to health,

safety, and property when transported in commerce, and which has been so designated.

"Hazardous substance", for the purposes of this subchapter means a material, including its mixtures and solutions, that—

- (1) Is listed in the Appendix to § 172.101 of this subchapter;
- (2) Is in a quantity in one package, which equals or exceeds the reportable quantity (RQ) listed in the Appendix to § 172.101 of this subchapter; and
- (3) When in a mixture or solution, is in a concentration by weight which equals or exceeds the concentration corresponding to the RQ of the material, as shown in the following table:

RQ pounds (kilograms)	Concentration by weight	
	Percent	PPM
5000 (2270)	10	100,000
1000 (454)	2	20,000
100 (45.4)	0.2	2,000
10 (4.54)	0.02	200
1 (0.454)	0.002	20

In § 171.11 paragraph (d)(1)(I) is revised to read as follows:

§ 171.11 Use of ICAO Technical Instructions.

- (d)
- (1)

(i) The name of the hazardous substance shall be entered on shipping papers in parentheses in association with the basic description, and in association with the proper shipping names required to be marked on the package, unless the proper shipping name required by the ICAO Technical Instructions already includes the name of the hazardous substance. For waste streams or for wastes which exhibit an EPA characteristic of ignitibility, corrosivity, reactivity, or EP toxicity, the basic description shall be followed by the waste stream number in parentheses or by the letters "EPA" and the word "ignitibility" or "corrosivity" or "reactivity", or "EP toxicity", in parentheses, as appropriate; and

In 171.11, paragraph (d)(9) is added to read as follows:

§ 171.11 Use of ICAO Technical Instructions.

- (d)

(9) When a hazardous material, which is subject to the requirements of the ICAO Technical Instructions, falls within the inhalation hazard criteria described in § 173.3a(b)(2):

- (i) The shipping description must include the words "Poison-Inhalation Hazard", except that only the word "Poison" is required when the material is shipped in a combination packaging with inner packagings containing one liter or less;
- (ii) The material must be packaged in accordance with the requirements of § 173.3a; and,
- (iii) The package must be marked and labeled in accordance with the requirements of §§ 172.301(a) and 172.402(a)(10).

In § 171.12a, paragraph (a)(3)(I) is revised to read as follows:

§ 171.12a Canadian shipments and packagings.

- (a)
- (3)

(i) The name of the hazardous substance shall be entered on shipping papers and in association with the proper shipping name required to be marked on the package, in parentheses, unless the proper shipping name required by the TDG regulations already includes the name of the hazardous substance. For waste streams or for wastes which exhibit an EPA characteristic of ignitibility, corrosivity, reactivity, or EP toxicity, the basic description shall be followed by the waste stream number in parentheses or by the letters "EPA" and the word "ignitibility" or "corrosivity" or "reactivity", or "EP toxicity", in parentheses, as appropriate; and

PART 172—HAZARDOUS MATERIALS TABLES AND HAZARDOUS MATERIALS COMMUNICATIONS REGULATIONS

In § 172.101, paragraphs (b) and (c)(9) are revised to read as follows:

§ 172.101 Purpose and use of hazardous materials table.

. . . .

(b) Column 1 contains the three symbols as appropriate: Plus (+) and the letters "A" and "W".

(1) The plus (+) fixes the proper shipping name and the hazard class for that entry without regard to whether the material meets the definition of that class. An alternate proper shipping name and hazard class may be authorized by the Director, Office of Hazardous Materials Transportation, RSPA.

(2) A letter "A" restricts the application of this subchapter to materials offered or intended for transportation by aircraft, unless the material is a hazardous substance or a hazardous waste.

(3) The letter "W" restricts the application of this subchapter to materials offered or intended for transportation by vessel, unless the material is a hazardous substance or a hazardous waste.

(c)

(9) **Hazardous substance.** The Appendix to this section lists materials which are listed or designated as hazardous substances under section 101(14) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). Proper shipping names for hazardous substances (See Appendix and § 171.8 of this subchapter) shall be determined as follows:

(i) If the hazardous substance appears in the table by technical name, then the technical name is the proper shipping name.

(ii) If the hazardous substance does not appear in the table and is not a forbidden material (See §§ 173.21, 173.51, 183.66, and 173.114a of this subchapter), then an appropriate generic shipping name must be selected corresponding to the hazard class of the material as determined by the defining criteria of this subchapter and the hazard precedence prescribed in § 173.2 of this subchapter. For example, a hazardous substance which meets the definition of a flammable liquid might be described as "Flammable liquid, n.o.s." or other appropriate shipping name corresponding to the flammable liquid hazard class.

In the § 172.101 Hazardous Materials Table:

a. For the entry "Uranium hexafluoride, fissile (containing more than 1% U-235)," the column (5)(b) section reference is revised to read "173.417, 173.420."

b. For the entry "Uranium hexafluoride, low specific activity," the column (5)(a) section reference is revised to read "173.421-2."

c. For the entry "Uranium hexafluoride, low specific activity," the column (5)(b) section reference is revised to read "173.420, 173.425."

In § 172.101, the Hazardous Materials Table is amended as follows:

a. "E" is removed from the heading of Column 1;

b. The symbol "E" is removed from Column 1;

c. All reportable quantity (RQ) designations and quantities are removed from the descriptions in Column 2 (e.g., "(RQ-1000/454)");

d. The phrase "(these materials may contain various hazardous substances for which the appropriate RQ applies)" is removed from the Column 2 entry for "Motor fuel antiknock compound";

e. All entries in the table that are class "ORM-E" as shown in Column 3 are removed from the table, except for the following two generic entries: "Hazardous substance, liquid or solid, n.o.s." and "Hazardous waste, liquid or solid, n.o.s."; and

f. The following five "See" references to certain materials classed ORM-E are removed from the table:

- (a) "2,4-D ester. See 2,4-Dichlorophenoxyacetic acid ester";
- (b) "EDTA. See Ethylenediaminetetraacetic acid";
- (c) "PCB. See Polychlorinated biphenyls";
- (d) "2,4,5-T amine, ester, or salt. See 2,4,5-Trichlorophenoxyacetic acid, amine, ester, or salt"; and
- (e) "2,4,5-TP ester. See 2,4,5-Trichlorophenoxypropionic acid ester".

In §172.102, paragraph (e) is revised to read as follows:

§172.102 Purpose and use of Optional Hazardous Materials Table for international shipments.

(e) If a hazardous material that is a hazardous substance is offered, accepted or transported under an acceptable shipping name from the Optional Table that does not contain the name of the hazardous substance, the name of the hazardous substance must be entered, in parentheses, in association with the proper shipping name. For waste streams or for wastes which exhibit an EPA characteristic of ignitability, corrosivity, reactivity, or EP toxicity, the basic description must be followed by the waste stream number in parentheses or by the letters "EPA" and the word "ignitability", "corrosivity", "reactivity", or "EP toxicity", in parentheses, as appropriate.

In §172.203, paragraph (c) is revised to read as follows:

§172.203 Additional description requirements.

(c) Hazardous substances.

(1) If the proper shipping name for a mixture or solution that is a hazardous substance does not identify the constituents making it a hazardous substance, the name or names of such hazardous substance constituents as shown in the Appendix to §172.101 must be entered in parentheses in association with the basic description. For waste streams or for wastes which exhibit an EPA characteristic of ignitability, corrosivity, reactivity or EP toxicity the basic description must be followed by the waste stream number in parentheses or by the letters "EPA" and the word "ignitability", "corrosivity", "reactivity", or "EP toxicity", in parentheses, as appropriate. These requirements also apply when descriptions from the Optional Table in §172.102 are used.

(2) The letters "RQ" must be entered on the shipping paper either before or after the basic description required by §172.202 for each hazardous substance. For example: "RQ, Cresol, Corrosive material, UN 2076; or Hazardous substance, liquid, n.o.s., ORM-E, NA 9188 (Adipic Acid), RQ".

In §172.203, "Additional description requirements," paragraph (e) is revised to read as follows:

(e) Empty packagings. (1) The description on the shipping paper for a packaging containing the residue of a hazardous material may include the words "RESIDUE: Last contained" in association with the basic description of the hazardous material last contained in the packaging.

(2) For a tank car containing the residue (as defined in 171.8) of a hazardous material, the requirements of §174.25(c) and paragraph (e)(3) of this section apply.

(3) If a packaging, including a tank car, contains a residue that is a hazardous substance, the description on the shipping papers must be prefaced with the phrase "RESIDUE: Last Contained" and the letters "RQ" must be entered on the shipping paper either before or after the basic description.

§172.324 is revised to read as follows:

§172.324 Hazardous substances.

(a) Except as provided in paragraph (b) of this section, if the proper shipping name for a mixture or solution that is a hazardous substance does not identify the constituents making it a hazardous substance, the name or names of such hazardous substance constituents as shown in the Appendix to §172.101 must be marked in parentheses in association with the proper shipping name on each packaging having a capacity of 110 gallons or less. This requirement also applies when descriptions from the Optional Table in §172.102 are used.

(b) Those packages with a capacity of 110 gallons or less which contain waste streams or wastes which exhibit an EPA characteristic of ignitability, corrosivity, reactivity, or EP toxicity, must be marked in parentheses in association with the proper shipping name with the applicable waste stream number or the letters "EPA" and the word "ignitability", "corrosivity", "reactivity", or "EP toxicity" as appropriate.

(c) The letters RQ must be displayed in association with the proper shipping name on a packaging having a capacity of 110 gallons or less that contains a hazardous substance.

PART 173—SHIPPERS—GENERAL REQUIREMENTS FOR SHIPMENTS AND PACKAGINGS

In §173.34(e), the introductory paragraph is corrected to read as follows:

§173.34 Qualification, maintenance and use of cylinders.

(e) Periodic retesting, reinspection and marking of cylinders. Each cylinder that becomes due for periodic retest as specified in the following table and exceptions, must be retested and marked in conformance with the applicable requirements of this paragraph.

A new §173.420 is added to read as follows:

§173.420 Uranium hexafluoride (fissile and low specific activity).

(a) In addition to any other applicable requirements of this subchapter, uranium hexafluoride, fissile or low specific activity, shall be packaged in conformance with the following requirements:

(1) Before initial filling and during periodic inspection and test, packagings shall be cleaned in accordance with the specific procedures of Appendix A of American National Standard N14.1-1982.

(2) Packagings must be designed, fabricated, inspected, tested and marked in accordance with American National Standard N14.1-1982.

(3) Uranium hexafluoride must be in solid form when offered for transportation.

(4) The volume of the solid uranium hexafluoride at 70 F must not exceed 61% of the volumetric capacity of the packaging, and

(5) The pressure in the package at 70 F must be less than 14.8 psia.

(b) Packagings of uranium hexafluoride must be periodically inspected, tested and marked in accordance with American National Standard N14.1-1982.

(c) Each repair to a packaging for uranium hexafluoride shall be performed in conformance with American National Standard N14.1-1982.

§173.420(a)(2) is revised to read as follows:

§173.420 Uranium hexafluoride (fissile and low specific activity).

(a) . . .

(2) After June 30, 1987, packagings must be designed, fabricated, and marked in accordance with American National Standard N14.1-1982, or a previous edition thereof.

PART 175—CARRIAGE BY AIRCRAFT

In §175.10, the introductory text to paragraph (a)(4) and paragraph (a)(15) are revised to read as follows:

§175.10 Exceptions

(a) . . .

(4) Non-radioactive medicinal and toilet articles carried by a crew member or passenger in checked or carry-on baggage, and aerosols with no subsidiary risk, for sporting or home use, when carried in checked baggage only, when:

(15) . . .

(15) Alcoholic beverages, perfumes, colognes, and liquefied gas lighters that have been examined by the Bureau of Explosives (B of E) and approved by the Director, Office of Hazardous Materials Transporta-

tion, carried aboard a passenger-carrying aircraft by the operator for use or sale on the aircraft.

(a) . . .

in §175.30, in paragraph (e)(1)(ii) the period at the end of the sentence is revised to read "; or" and paragraph (e)(1)(iii) is added to read as follows:

§175.30 Accepting and inspecting shipments.

(e) . . .

(1) . . .

(iii) Not more than one package is overpacked.
