Resolution No. STD- 1151

TRANSPORTATION DIVISION
TARIFF & LICENSE BRANCH
Tariff Section

Before the Public Utilities Commission
of the State of California

RESOLUTION ORDERING DISPOSITION OF
SPECIAL TARIFF DOCKET REQUESTS

Requests as identified hereinafter have been filed on the Special Tariff Docket for authority to make tariff changes for which permission of the Commission is requisite under provisions of the Public Utilities Code or orders of the Commission. Due consideration has been given to the representations contained in the verified requests, and good cause appearing, the following findings and order are made:

The Commission finds that the following requests are justified and should be granted subject to conditions specified in the orders which are attached hereto and by this reference made a part hereof:

Request and
Order No.

Request Filed By:

STD 9981

California Trucking Association and
American Trucking Association, Inc.,
Agent

The Commission finds that the following requests do not contain sufficient justification for the authority sought, and therefore should be denied without prejudice:

Request and
Order No.

Request Filed By:

None

The Commission finds that the following requests are of a nature not suitable for processing on the Special Tariff Docket, and therefore should be dismissed without prejudice:

Request and
Order No.

Request Filed By:

None

IT IS ORDERED that the aforesaid requests are granted, denied or dismissed, as the case may be, in accordance with the findings hereinbefore set forth, and as specified in the orders which are attached hereto and by this reference made a part hereof.

I certify that the foregoing resolution was duly introduced, passed and adopted at a conference of the Public Utilities Commission of the State of California, held on the 7th day of June, 1989, the following Commissioners voting favorably thereon.

G. MITCHELL WILK
President
STANLEY W. HULETT
JOHN B. OHANIAN
PATRICIA M. ECKERT
Commissioners

Commissioner Frederick R. Duda,
being necessarily absent, did
not participate.

Executive Director of the
Public Utilities Commission of the State of California

Order No. STD- 9981

Before the Public Utilities Commission of the State of California

Request filed by:

California Trucking Association and
American Trucking Association, Inc.,
Agent

} Special Tariff Docket
Request Numbered Same as
Order Number Above.

In conformity with the findings and order made by the Commission in a resolution entered this day, the request, copy of which is attached hereto and by this reference made a part hereof, is granted, subject to the following conditions:

None

The authority herein granted is limited strictly to its terms, and shall expire unless the tariff provisions authorized herein are published and filed in the San Francisco office of this Commission within ninety days after the date hereof. The item of tariff or supplement issued pursuant to this order shall bear reference to this order in substantially the following form:

"Authorized by Cal. P.U.C. Order No. STD- 9981."

This order issued June 7, 1989 by the Public Utilities Commission of the State of California by the adoption of the resolution of which this order is a part.

Executive Director of the
Public Utilities Commission of the State of California

CALIFORNIA TRUCKING ASSOCIATION

24301 Southland Drive, Suite 309
Hayward, CA 94545

May 12, 1989

Executive Director
California Public Utilities Commission
State Building, Civic Center
San Francisco, CA 94102

Gentlemen:

Attached for filing is the original and three copies of our Special Tariff Docket request for the adoption of Supplement 2 to ATA Hazardous Materials Tariff ATA 111-I.

Copies have been served upon all parties on the attached listing and will be furnished to any other interested party as may be directed by the Commission.

An extra copy of this filing is attached to be stamped with date of filing and document number for return to this office.

Sincerely,

Charles D. Gilbert, Manager
Regulatory Activities

TARIFF SECTION

Communications or correspondence in regard to these filings are to be addressed
to:

Charles D. Gilbert
California Trucking Association
24301 Southland Drive, Suite 309
Hayward, CA 94545

Respectfully shows:

I

An order is requested for the adoption of Supplement 2 to the ATA
Hazardous Materials Tariff ATA 111-I Cal PUC 19 and to make such provisions
applicable to the tariffs of highway common carriers and express corporations,
which participate in and are listed in the HMT under authority of a power of
attorney. It is further requested that such authorization be concurrent with
the National effective date of June 20, 1989 and that it be granted on one
day's notice; that all common carriers be authorized and directed to establish
in their respective tariffs all such charges as may be prescribed and all
orders made herein; that common carriers be authorized to establish such
changes as may be prescribed in class and commodity rates and charges in
connection with the transportation of exempt commodities; that common carriers

be authorized to depart from Sections 460 and 461.5 of the Public Utilities Code and appropriate long and short haul provisions of the Constitution of the State of California to the extent necessary to carry into effect such changes; that any related revisions in numbering, referencing or format in the various tariffs, incidental to such changes, be authorized and established, and for such other and further orders as may be deemed reasonable and proper.

II

Highway common carriers and express corporations are operating as common carriers pursuant to the authority of this Commission and in accordance with tariffs filed with this Commission, which tariffs are subject to and governed by the ATA Hazardous Materials Tariff ATA 111-I, Cal PUC 19 and supplements thereto.

III

The Hazardous Materials Tariff is periodically revised in order to remain responsive to the current conditions and needs of commerce in the transportation of hazardous materials by highway carriers. The Hazardous Materials Tariff is also periodically re-issued to minimize the difficulties which accompany excessive supplementation of tariff material.

Supplement 2, attached hereto as Exhibit A, and by this reference made a part hereof, proposes changes in the list of participating carriers and changes in the Hazardous Materials Regulations as ordered by the Department of Transportation and published in the Federal Register.

Supplement 2 to Hazardous Materials Tariff ATA 111-I with an issue date of May 15, 1989 and an effective date of June 20, 1989, also applies to tariffs covering areas other than California. The purpose of this filing is to obtain the authority necessary to make such provisions applicable to the tariffs of highway common carriers under jurisdiction of the Commission. Such authority will continue to promote national uniformity of regulations between interstate and intrastate traffic as well as between the states.

I hereby certify under penalty of perjury that the foregoing is true and correct.

Joel D. Anderson

PART 107—HAZARDOUS MATERIALS PROGRAM PROCEDURES

In Appendix A to Part B, the name of the division and the daytime telephone number for the Office of Motor Carrier Safety Field Operations is changed to read as follows: "Federal Programs Division" and "Day 202-366-1795", respectively.

PART 171—GENERAL INFORMATION, REGULATIONS, AND DEFINITIONS

§ 171.7 [Amended]

In paragraph (c)(7) of §171.7, the address for the American Petroleum Institute is revised to read: "1220 L Street, NW., Washington, DC 20005."

In paragraph (c)(9), the address for The Chlorine Institute is revised to read: "2001 L Street, NW., Suite 506, Washington, DC 20036."

In paragraph (c)(14), the address for The Institute of Makers of Explosives is revised to read: "1120 19th Street, NW., Suite 310, Washington, DC 20036."

In §171.7, paragraphs (c)(16), (d)(4)(iii) and (d)(16) are revised to read as follows:

§ 171.7 Matter incorporated by reference.

(c) ***
(16) USDOE: United States Department of Energy, Washington, DC 20545. Regulations of the USDOE are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. Other publications by the USDOE may be obtained from the USDOE, Office of Scientific and Technical Information, P.O. Box 62, Oak Ridge, TN 37831.

- (d) ***
(4) ***
(iii) American National Standard N14.1 is titled: "Uranium Hexafluoride Packaging for Transport," 1987 edition.

(16) USDOE, CAPE-1662, Revision 1, and Supplement 1, one of the series of "Civilian Applications Program Engineering Drawings". This is a package of information including drawings and bills of material, describing phenolic-foam-insulated, DOT 21PF-1 and 21PF-2 protective overpacks.
(i) USDOE, Material and Equipment Specification No. SP-9, Rev. 1, and Supplement, is titled, "Fire Resistant Phenolic Foam."
(ii) USDOE, ORO-651 is titled, "Uranium Hexafluoride Handling Procedures and Container Criteria," Revision 3, 1972 edition.
(iii) USDOE, K/SS-471, November 30, 1986, as titled "Proposal For Modifications to U.S. Department of Transportation Specification 21PF-1 Fire and Shock Resistant Phenolic Foam—Insulated Metal Overpack." This report contains several supporting documents which are a part of K/SS-471:
(1) "Quality Assurance/Control in the Fabrication, Modification, Use, and Maintenance of the DOT 21PF-1 shipping Package";
(2) K/D-5400, Revision 3;
(3) K-2057 Revision 1;
(4) K/PS-1128;
(5) K/PS-5068; and
(6) Several engineering drawings and two bills of materials.

PART 172—HAZARDOUS MATERIALS TABLES AND HAZARDOUS MATERIALS COMMUNICATIONS REGULATIONS

In §172.101, the Hazardous Materials Table is amended by revising, in appropriate alphabetical sequence, the entries listed below:

§ 171.101 Hazardous materials table:

(1) +/ A/ W	(2) Hazardous materials descriptions and proper shipping names	(3) Hazard class	(3A) Identification number	(4) Label(s) required (if not accepted)	(5) Packaging		(6) Maximum net quantity in one package		(7) Wear shipments		(8) Other requirements
					(a) Exceptions	(b) Specific requirements	(a) Passenger-carrying aircraft or railcar	(b) Cargo aircraft only	(a) Cargo vessel	(b) Passenger vessel	
	Revised Ammonium polyulfide solution	ORM-A	UN2618	None	173.505	173.505	10 gallons	55 gallons	1.2	1.2

PUBLIC UTILITIES COMMISSION

Appendix A to Subpart B [Removed]

In Part 172, Appendix A to Subpart B, titled "Identification Number Cross Reference to Proper Shipping Names" §§ 172.101 and 172.102 is removed. Note: The listing will be updated annually by RSPA and published in the 49 CFR as an index immediately following the Table of Contents to Part 172.

§ 172.331 [Amended]

In paragraph (d) of § 172.331, the word "of" which follows the word "placards" is revised to read "or".

§ 172.400 [Corrected]

Paragraph (c) of § 172.400 is corrected by changing "Paragraph B" to "Paragraph b".

§ 172.402 [Corrected]

In § 172.402, paragraph (a)(4) is corrected by changing the word "restrictive" to "reactive".

§ 172.402 [Amended]

Paragraph (g) of § 172.402 is removed and reserved.

§ 172.403 [Amended]

A new paragraph (d) is added to § 172.403 which reads: "EMPTY label. See § 173.427(d) of this subchapter for EMPTY labeling requirements."

PART 173—SHIPPERS—GENERAL REQUIREMENTS FOR SHIPMENTS AND PACKAGINGS

PART 173— [Amended]

In the Subpart H heading, the words "Radioactive Materials" are removed and replaced with the words "Irritating Materials" and the word order for the heading is changed to read as follows:

"Subpart H—Poisonous Materials, Irritating Materials, and Etiologic Agents; Definition and Preparation".

§ 173.3a [Amended]

Paragraph (d) of § 173.3a is removed.

§ 173.31(13)(l) [Corrected]

In the first line of § 173.31(13)(l), the word "care" is corrected to read "car".

§ 173.247 [Amended]

In paragraph (a)(2) of § 173.247, the second sentence which reads "Polyethylene used must be Type III as set forth in Appendix B—Specifications for Plastics to Part 178 of this title," is removed.

§ 173.315 [Amended]

In the table in paragraph (a)(1) of § 173.315, under the column entitled "Minimum design pressure (psig)", the reference "see paragraph (c)(1) of this section," is corrected to read "see paragraph (c) of this section," for the following entries under the column entitled "Kind of gas": Ammonia solution, Chloropentafluoroethane (R-115), Chlorotrifluoromethane (R-13) Liquefied petroleum gas, and Refrigerant gas, n.o.s., or Dispersant gas, n.o.s.

In Note 15 of the Table, in the next to the last sentence, the reference to "§ 172.328(c)" is corrected to read "§ 172.328(d)".

In § 173.417, paragraph (a)(8) is revised, and in paragraph (b)(5) the text preceding Table 6 is revised to read as follows:

§ 173.417 Authorized packaging—flammable material.

(a) ***

(8) Packagings as prescribed in paragraph (b)(5) of this section, for materials, quantities and conditions as authorized and prescribed therein.

(b) ***

(5) DOT Specifications 20PF-1, 20PF-2, or 20PF-3 (§ 178.120 of this subchapter) or Specifications 21PF-1, 21PF-1A, 21PF-1B, or 21PF-2 (§ 178.121 of this subchapter) phenolic-foam insulated overpack with snug fitting inner metal cylinders, meeting all requirements of §§ 173.24, 173.411, and 173.412, and the following:

(i) Handling procedures and packaging criteria must be in accordance with DOE Report ORO-651 or ANSI N-14.1.

(ii) DOT Specification 21PF-1 overpacks in use or under construction before April 1, 1989, must be modified to DOT Specification 21PF-1A before April 1, 1991. Use of unmodified DOT 21PF-1 overpacks is prohibited after March 31, 1991. All new construction to DOT Specification 21PF-1 beginning after March 31, 1989, must meet DOT Specification 21PF-1B.

(iii) Quantities of uranium hexafluoride are authorized as shown in Table 6, with each package to be shipped as Flammable Class II, and assigned a minimum transport index as also shown;

In § 173.417, paragraph (b)(5), the entry "21PF-1" in the first column of Table 6 is revised to read "21PF-1 Series" and a fourth footnote is added following the table to read:

"21PF-1 series includes the 21PF-1, 21PF-1A, and 21PF-1B. Allowable quantities are identical for all three overpacks. See the limitations on usage in paragraph (b)(5) of this section."

§ 173.420 [Amended]

In § 173.420, the term "N14,1-1982" is changed to "N14.1" in paragraphs (a)(1), (a)(2)(i), (b), (c).

PART 178—SHIPPING CONTAINER SPECIFICATIONS

§ 178.44-12 [Amended]

In footnote 1 of § 178.44-12, referenced in paragraph (b), the address for the Compressed Gas Association, Inc., is revised to read "Compressed Gas Association Inc., 1235 Jefferson Davis Highway, Arlington, Virginia 22202."

§ 178.83-3 [Amended]

In paragraph (b) of § 178.83-3, the phrase "18 chrome 8 nickel alloy with 0.08 percent chromium, 8-11 percent nickel" is revised to read "18 chrome, 8 nickel alloy, with 0.08 percent carbon maximum, 18-20 percent chromium, 8-11 percent nickel".

§ 178.118-6 [Amended]

In the table in paragraph (a) of § 178.118-6, footnote 3, line 3, "Director, OHMO" is corrected to read "Director, OHMT".

In § 178.121-1, paragraphs (a) and (d) are revised to read as follows:

§ 178.121-1 **General requirements.** (a) Each overpack must meet all of the applicable requirements of §§ 173.24, 173.411, and 173.412 of this subchapter.

(1) Specification 21PF-1 overpacks includes the series of 21PF-1, 21PF-1A, and 21PF-1B models. Details of the three models are included in CAPE-1662, Revision 1 and Supplement 1.

(2) Drawings in CAPE-1662, Revision 1 and Supplement 1, which include bills of materials, and K/SS-471, are a part of this specification.

(d) Specification 21PF-1 overpacks in use or under construction before April 1, 1989, must be modified to Specification 21PF-1A before April 1, 1991. All new construction to Specification 21PF-1 beginning after March 31, 1989, must meet Specification 21PF-1B. Use of unmodified 21PF-1 overpacks after March 31, 1991, is prohibited.

In § 178.121-2, paragraphs (b) and (g) are revised to read as follows:

§ 178.121-2 **Materials of construction and other requirements.** ***

(b) Gaskets for inner liner, outer shell, or where otherwise specified in CAPE-1662, Revision 1, must be as specified in CAPE-1662, Revision 1.

(g) Waterproofing. Each screw hole in the outer shell must be sealed with appropriate resin-type sealing material, or equivalent, during installation of the screw. All exposed foam surfaces, including any vent hole, must be sealed with either: (1) waterproofing material as prescribed in USDOE Material and Equipment Specification SP-9, Rev. 1 and Supplement, or (2) As specified in CAPE-1662, Revision 1.

Sections 178.121-3 and 178.121-4 are revised and new §§ 178.121-5 and 178.121-6 are added to read as follows:

§ 178.121-3 **Modification of Specification 21PF-1 overpacks.**

(a) Each Specification 21PF-1 overpack for which construction began or was completed before 10 April 1, 1989, in conformance with drawing E-S-31536-J, Revision 11, of CAPE-1662 must be modified in conformance with drawing S1E-31536-J1-D of CAPE-1662, Revision 1, Supplement 1, before April 1, 1991.

(b) Each such existing Specification 21PF-1 overpack must be dried and weighed in accordance with the following procedures:

(1) Drill out or otherwise clean the plug material from the vent holes originally provided for foam expansion. See drawing S1E-31536-J1-D of CAPE-1662, Revision 1, Supplement 1, for locations.

(2) Weigh each packaging element (top and bottom halves) separately to an accuracy of ± 5 pounds (± 2.3 kilograms) and record the weights. If this measured weight is greater than 25 pounds (11.3 Kg) more than the initially measured weight at the time of fabrication (indicating a significant retained water content), the packaging element must be dried.

(3) Place overpack element in drying oven; maintain temperature between 190° and 210°F (87.8-98.9°C) for a minimum of 72 hours. The oven should have a provision for air exchange or other means of removing moisture driven from the foam structure.

(4) Drying may be discontinued after 72 hours if the weight of the packaging element is not higher than 25 pounds (11.3 Kg) more than the initially measured tare weight of that element at the time of fabrication. If the weight of the packaging element is greater than 25 pounds (11.3 Kg) more than the initial fabricated weight (indicating a significant remaining water content), drying must be continued until the weight differential is not higher than 25 pounds (11.3 Kg), or until the rate of weight loss is less than 2.5 pounds (1.1 Kg) per day.

(5) As an alternate moisture measurement, a calibrated moisture meter reading for 20 percent maximum water content may be used to indicate an end point in the drying cycle (see details in report "Renovation of DOT Specification 21PF-1 Protective Shipping Packages," Report No. K-2057, Revision 1, November 21, 1988, available from the USDOE and part of USDOE Report No. K/SS-471).

(6) Following drying, each overpack element (top and bottom halves) must be weighed and the weight in both pounds and kilograms must be engraved on the identification plate required by § 178.121-5(c).

(c) After modification as provided for herein, each Specification 21PF-1 overpack must be marked "USA-DOT-21PF-1A". See the marking requirements of § 178.121-5(b).

§ 178.121-4 **Construction of Specification 21PF-1B overpacks.**

(a) Each Specification 21PF-1 overpack for which construction began after March 31, 1989, must meet the requirements of Specification 21PF-1B, in conformance with drawings E-S-31536-J-P, and S1E-31536-J2-B of CAPE-1662, Revision 1, Supplement 1.

(b) With the exception of the closure nuts and bolts, all metal parts of the Specification 21PF-1B must be of stainless steel as shown on the drawings referred to in paragraph (a) of this section.

§ 178.121-5 **Required markings.**

(a) Markings must be as prescribed in § 173.24 of this subchapter.

(b) Specification marking on the outside of each overpack must be as follows: "USA-DOT-21PF-1", "1A", "1B", or "2", as appropriate.

(1) For Specifications 21PF-1 and 21PF-2 only, if the inner shell is constructed of stainless steel, additional marking such as "304L-SS" are to be marked on the outside of the overpack to indicate the type of stainless steel used.

(2) For Specification 21PF-1 and 21PF-2 only, "TARE WT: *** lbs. (** kg)" where *** is the tare weight in pounds and kilograms, respectively, of the assembled overpack without the inner product container.

(3) For Specification 21PF-1A and 21PF-1B only: "TARE WT. of Cover: *** lbs (** kg) TARE WT. of BOTTOM: *** lbs (** kg)" where *** is the tare weight in pounds and kilograms, respectively, of the separate halves of the overpack without the inner product container. For Specification 21PF-1A overpacks, the previous tare weight must be changed to reflect the modified tare weight value or must be covered or removed.

(4) Year of manufacture followed by the year of modification, if applicable.

PUBLIC REGISTRY
MAY 19 1989
TARIFF SECTION

(5) The name or symbol of maker or party certifying compliance with specification requirements. A symbol, if used, must be registered with the Director, OHMT.

(c) For Specification 21PF-1A or -1B only, the markings required by this section must be affixed to each overpack by inscription upon a metal identification plate 11 inches wide x 15 inches long (28 cm. x 38 cm).

fabricated to 16 to 20 gauge stainless steel sheet, ASTM A-240, Type 304L.

§ 178.121-6 Typical assembly detail.

(a) Specification 21PF-1 (horizontal loading overpack).

(b) Specification 21PF-1A and 21PF-1B (horizontal loading overpack).
