SPECIAL TARIFF DOCKET RESOLUTION NO. 1190

STD - 10,007 - California Trucking Association and National
Motor Freight Traffic Association, Inc., Agent.

Requests authority for the adoption of Supplement 7 to the National Motor Freight Classification NMF 100-Q concurrent with the national effective date of February 16, 1991, and to make such provisions applicable to the tariffs of highway common carriers and express corporations which participate in and are listed in the classification.

RESOLUTION ORDERING DISPOSITION OF
SPECIAL TARIFF DOCKET REQUESTS

Requests as identified hereinafter have been filed on the Special Tariff Docket for authority to make tariff changes for which permission of the Commission is requisite under provisions of the Public Utilities Code or orders of the Commission. Due consideration has been given to the representations contained in the verified requests, and good cause appearing, the following findings and order are made:

The Commission finds that the following requests are justified and should be granted subject to conditions specified in the orders which are attached hereto and by this reference made a part hereof:

Request and
Order No.

Request Filed By:

STD 10,007

California Trucking Association
and National Motor Freight
Classification, Inc., Agent

Resolution No. STD- 1190
(Concluded)

The Commission finds that the following requests do not contain sufficient justification for the authority sought, and therefore should be denied without prejudice:

Request and
Order No.

Request Filed By:

NONE

The Commission finds that the following requests are of a nature not suitable for processing on the Special Tariff Docket, and therefore should be dismissed without prejudice:

Request and
Order No.

Request Filed By:

NONE

IT IS ORDERED that the aforesaid requests are granted, denied or dismissed, as the case may be, in accordance with the findings hereinbefore set forth, and as specified in the orders which are attached hereto and by this reference made a part hereof.

I certify that the foregoing resolution was duly introduced, passed and adopted at a conference of the Public Utilities Commission of the State of California, held on the 6th day of February, 1991, the following Commissioners voting favorably thereon.

PATRICIA M. ECKERT
President
G. MITCHELL WILK
JOHN B. O'HANIAN
Commissioners

Executive Director of the
Public Utilities Commission of the State of California

Order No. STD- 10,007

Before the Public Utilities Commission of the State of California

Request filed by:

CALIFORNIA TRUCKING ASSOCIATION AND
NATIONAL MOTOR FREIGHT CLASSIFICATION
INC., AGENT

} Special Tariff Docket
Request Numbered Same as
Order Number Above.

In conformity with the findings and order made by the Commission in a resolution entered this day, the request, copy of which is attached hereto and by this reference made a part hereof, is granted, subject to the following conditions:

1. That schedules containing the rates authorized herein shall make reference to prior authorities granting the long and short haul departures and to this authority.
2. That the authority herein granted shall not supersede or be in lieu of any outstanding authority heretofore granted under Section 460 of the Public Utilities Code.

NONE

The authority herein granted is limited strictly to its terms, and shall expire unless the tariff provisions authorized herein are published and filed in the San Francisco office of this Commission within ninety days after the date hereof. The item of tariff or supplement issued pursuant to this order shall bear reference to this order in substantially the following form:

"Authorized by Cal. P.U.C. Order No. STD- 10,007 ."

This order issued February 6, 1991, by the Public Utilities Commission of the State of California by the adoption of the resolution of which this order is a part.

Executive Director of the
Public Utilities Commission of the State of California

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

SPECIAL TARIFF DOCKET REQUEST FOR
THE ADOPTION OF SUPPLEMENT 7
THE GOVERNING CLASSIFICATION NMF 100-Q

SPECIAL TARIFF DOCKET NO. 10,007

The request of CALIFORNIA TRUCKING ASSOCIATION AND NATIONAL MOTOR FREIGHT TRAFFIC ASSOCIATION, INC., AGENT, whose post office addresses are:

California Trucking Association
1251 Beacon Boulevard
West Sacramento, California 95691

and

National Motor Freight Traffic
Association, Inc., Agent
2200 Mill Road
Alexandria, Virginia 22314

Communications and correspondence in regard to this filing are to be addressed to:

Charles D. Gilbert
California Trucking Association
24301 Southland Drive, Suite 309
Hayward, California 94545

I

Respectfully shows:

Highway common carriers and express corporations are operating as common carriers pursuant to the authority of the Commission and in accordance with tariffs filed with this Commission; which tariffs are also subject to and governed by the National Motor Freight Classification NMF 100-Q and supplements thereto.

II

An order is requested for the adoption of Supplement 7 to the National Motor Freight Classification NMF 100-Q and to make such provisions applicable to the tariffs of highway common carriers and express corporations, which participate in and are listed in its Classification under authority of power of attorney. It is further requested that such authorization be concurrent with the national effective date of February 16, 1991 on one day's notice; that all common carriers be authorized and directed to establish such changes as may be prescribed in class and commodity rates and charges in connection with the transportation of exempt commodities; that common carriers be authorized to depart from Sections 460 and 461.5 of the Public Utilities Code and appropriate long and short haul provisions of the Constitution of the State of California to the extent necessary to carry into effect such changes; that all such changes be approved and adopted for application with the various tariffs; that any related revisions in numbering, referencing or format in the various tariffs, incidental to such changes, be authorized and established; and for such other and further orders as may be deemed reasonable and proper.

III

The governing classification is periodically revised to correct technical inadvertencies and omissions that have been discovered in the publication of prior supplements and in order to keep the publication responsive to the current conditions and needs of commerce in the transportation of property by highway carriers. The procedures available to shippers and carriers to initiate such revisions and to otherwise protect their interests are known to the Commission and to such parties. Such

procedures provide parties with "...fair and full opportunity for public hearings for determination of changes and revisions as required." (Decision 74310 dated June 25, 1968, and as revised and amended by Decision 87498 dated June 21, 1977). To properly reflect intended results following such processes, the National Motor Freight Traffic Association, Inc., Agent, has authorized revisions which are published in supplemental for set forth in Exhibit A. This supplement is scheduled to take effect February 16, 1991 unless otherwise provided therein, for application to tariffs covering areas other than California. The purpose of this filing is to obtain the authority necessary to make such provisions applicable to tariffs subject to jurisdiction of the California Public Utilities Commission and to promote the national uniformity and standarization in billing and collection practices found appropriate and desirable in the Commission's Decision 74310.

Attached hereto and by this reference made a part of this filing are the following exhibits detailing such revisions:

Exhibit A - Copy of Supplement 7 to National Motor
Freight Classification NMF 100-Q
Cal PUC 32

Exhibit B - Summary of changes

Certain changes in rates, ratings rules, regulations or charges will result from the adoption of Supplement 7. A summary of such changes, including an explanation of the reasons for the proposed changes, is set forth in Exhibit B.

In addition to the justification of proposals set forth herein, Applicant refers to the facts and allegations set forth in Petition 401, as though reiterated herein. Said filings set forth the broader purposes and justifications for the program of classification revisions which will be

implemented by approval of this instant filing, subject to the protection restriction suggested in the aforesaid filing.

In addition, the Commission through its Executive Director, has directed that classification changes be processed under the procedure and format of General Order 109 (see letter dated June 21, 1977). This filing is made in response to such directive.

I hereby certify, under penalty of perjury, that the foregoing is true and correct.

Joel D. Anderson

JOEL D. ANDERSON, Vice President

Dated at 1251 Beacon Boulevard, West
Sacramento, California 95691 this 16th
day of January, 1991.

National Motor Freight Traffic Association, Inc., Agent for and on behalf of carriers to National Motor Freight Classification 100-Q, respectfully requests that your Commission accept Supplement 7 which is being transmitted herewith for filing on intrastate traffic.

This Supplement proposes revisions in the list of participating carriers and changes in classes, commodity descriptions, packaging requirements and/or rules. All changes in this Supplement, except those made solely for clarification or to comply with applicable laws or orders of Regulatory Agencies, result from action taken by the National Classification Committee after public docket meetings which were advertised in advance, and at which all interested parties were afforded ample opportunity to make known their views with respect to the proposals under consideration. These changed provisions are believed to be just and reasonable and represent the considered judgement of the National Classification Committee. They are enumerated and explained fully in the "Appendix" enclosed.

In view of the fact that the Classification is national in character, having application on intrastate traffic in forty-three states and three Canadian provinces, as well as on interstate traffic, it is desirable in the interests of uniformity and to minimize confusion in the application of its provisions, that this Supplement be accepted for filing and permitted to become effective.

Sincerely,

NATIONAL MOTOR FREIGHT TRAFFIC
ASSOCIATION, INC., AGENT

Martin E. Foley

RULES

Ⓢ ITEM 428-A

CLASSIFICATION OF VARIOUS DOCUMENTS INCLUDED WITH FREIGHT

Sec. 1. Reshipping documents, invoices, manifests, tally sheets, packing lists, or printed assembly or operating instructions may be forwarded in same or separate packages with the articles to which they pertain at the rate or class applying on such articles.

Sec. 2. Exposed X-ray film may be forwarded with the articles to which they pertain at the rate or class applying on such articles only when attached to or in same package with the article(s).

Sec. 3. One videotape may be forwarded with the article(s) to which it pertains at the class applying on such article(s) only when the tape is necessary for assembly, installation or operation and is included in or attached to the same package.

ITEM 535-C

EXPIRATION DATES

Items or other provisions making reference hereto expire with the date indicated unless such dates are changed or cancelled in accordance with the Rules of Procedure for Changes in the National Motor Freight Classification.

Item or Package	Provisions which expire	Date expiring
Item 84325	All provisions	February 16, 1993
Item 84326	All provisions	February 16, 1993
Item 85000	Reference to item 84325	February 16, 1993
Package 2482	Base of Expanded Polystyrene	September 1, 1991

SUPPLEMENT 7 TO NMF 100-Q

Item	ARTICLES	CLASSES		MW
		LTL	TL	
④4630-A	Adhesives or Epoxy Resins, electrically conductive, containing gold or silver, see Notes, items 4631 and 4632, in pails or boxes:			
Sub 1	Actual value not exceeding \$30.00 per pound, see Note, item 4633	300	150	10
Sub 2	Actual value exceeding \$30.00 per pound, see Note, item 4633	500	600	AQ
Δ4631-B	NOTE—Will also apply when cups, plastic bags or mixing sticks are included for each inner container in the shipment.			
Δ4632-B	NOTE—Applies whether or not gold or silver is premixed with the adhesive or epoxy resin.			
④4633	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group embracing the actual value per pound of the property. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
	AGRICULTURAL IMPLEMENT PARTS GROUP: subject to item 10540			
10790-A	Cabs, seat, or Guards, operator, canopy type, etc., ⚡.....Cancel; see item 39515.			
10794-A	NOTE—A.....Cancel; see item 39515.			
★12530	Alarms, Horns or Signals, sound warning, NOI, in boxes, crates or Package 1273 or on skids ..	85	55	24

15100-A	ASHES: A.....Cancel; no further application.			
15120-A	Bagasse; Caclus; Cotton Boll, Burr or Seed Hull; Manure, Sage Brush; or Wood; LTL, in bags; TL, loose or in packages A.....Cancel; see item 15190.			
15140-A	Kelp, in bags A.....Cancel; see item 15190.			
15160-A	Rice Hull, LTL, in bags; TL, loose or in packages A.....Cancel; see item 15190.			
15180-A	Ashes or Cinders, coal, LTL, in bags, barrels or boxes; TL, loose or in packages ⚡.....Cancel; see item 15190.			
★15190	Ashes, NOI, or Ashes or Cinders, coal; LTL, in bags, barrels or boxes; TL, loose or in packages	50	35	40
	ATHLETIC GOODS GROUP: subject to item 15500			
	Bowling Alleys or Bowling Alley Parts: subject to item 15860			
④15885-A	Pinspotters or Pinsetters, automatic, power operated, dismantled, without masking units, used, having value only for reconditioning or for salvage of parts, actual value not exceeding 30 cents per pound, see Note, item 15887, loose, see Note, item 15889, or on skids	70	50	20
④15887-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed 30 cents. If the shipper fails to so certify the actual value per pound, item 15890, naming 'Pinspotters or Pinsetters, automatic, power operated, NOI,' will apply.			
Δ15889-A	NOTE—Shipper to load and consignee to unload when shipped loose.			
	AUTOMOBILE PARTS GROUP: subject to item 17800			
19360-A	Seat Cabs or Sleeping Cabs, separate or combined, motor truck, etc., ⚡.....Cancel; see item 39515.			
	BAKERY GOODS GROUP: subject to item 21160			
④21225-A	Dressing or Stuffing, bread base, with or without other ingredients, dry, or Bread Crumbs, other than dust or meal; or Bread Cubes or Croutons; in boxes or Packages 500, 1000, 1500 or 2445	85	45	24
④23670-A	Bits, drilling, with industrial diamond tips, in boxes:			
Sub 1	Actual value not exceeding \$2.00 per pound, see Note, item 23672	77.5	45	36
Sub 2	Actual value exceeding \$2.00 per pound but not exceeding \$5.00 per pound, see Note, item 23672	100	65	36
Sub 3	Actual value exceeding \$5.00 per pound, see Note, item 23672	150	70	36
④23672-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group embracing the actual value per pound of the property. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
④30100-A	BRASS, BRONZE OR COPPER, see Note, item 30102:			
④30102-A	NOTE—The provisions subject to this grouping do not apply where beryllium content is .5 percent or greater. Where beryllium content is from .5 percent to two percent, item 135440, naming 'Beryllium Bronze or Beryllium Copper, or Beryllium Bronze or Beryllium Copper Articles, NOI,' will apply. Where beryllium content exceeds two percent, item 136500, naming 'Metal Alloys, NOI,' will apply.			
39120-A	⊕Butadiene, etc., A.....Cancel; see item 43565.			
★39515	Cabs, seat, NOI; Cabs, seat or sleeping, separate or combined, motor truck; or Guards, operator, canopy type; in boxes, crates or Package 779, subject to Item 170 and having a density in pounds per cubic foot of:			
Sub 1	Less than 1, see Note, item 39516	400	400	AQ
Sub 2	1 but less than 2, see Note, item 39516	300	300	AQ
Sub 3	2 but less than 4, see Note, item 39516	250	250	AQ
Sub 4	4 but less than 6, see Note, item 39516	150	100	12
Sub 5	6 but less than 8, see Note, item 39516	125	85	15
Sub 6	8 but less than 10, see Note, item 39516	100	70	18
Sub 7	10 but less than 12, see Note, item 39516	92.5	65	20
Sub 8	12 but less than 15, see Note, item 39516	85	55	26
Sub 9	15 or greater	70	40	36

SUPPLEMENT 7 TO NMF 100-Q

Item	ARTICLES	CLASSES		MW %
		LTL	TL	
*39516	NOTE—The charge for packages or pieces subject to a particular density group may be assessed on the basis of the next lower class provided in connection with the next heavier density group at the weight which would accrue from multiplying the cubage of such packages or pieces by the lowest density named in the density group which provides the next lower class. In each such instance, the actual cube, actual weight, density group embracing the actual density, declared density and resultant weight for billing purposes (declared weight) of the pieces for which density is being declared must be shown by shipper on shipping orders and bills of lading at time of shipment.			
③39655	CAMERA GROUP: subject to item 39600 Film, photographic, self-developing (Self-Developing Film Packs), see Note, item 39656	100	70	24
③39656	NOTE—Applies on self-developing film kits or packs consisting of unexposed photographic film, sensitized photographic paper and photographic finishing solution.			
③39780-A	Self-developing Film Packs, etc., Cancel; see item 39655.			
③39782-A	NOTE— Cancel; see item 39656.			
Δ42312-A	CEREALS GROUP: subject to item 42300			
42315-A	NOTE—Also applies on cereal preparations containing dried fruit, candy or nutmeal. Cereals, NOI, in barrels, boxes or Packages 128, 169, 2465, 2470 Ⓒ or 2493; also TL, in Package 240	100	70	16
Δ42320-A	Cereals, cooked (prepared cereals ready for human consumption without further cooking), see Note, item 42312:			
42330-A	Bran; Bran and Wheat combined; not popped nor puffed, in containers in barrels or in Packages 128, 169, 2470 Ⓒ or 2493	85	55	24
AA43565	CHEMICALS GROUP: subject to item 42600			
③44620-A	ⓄButadiene, in metal barrels or steel cylinders	70	50	30
	Glycols:			
	Bulylene (Butanediol);			
	Diethylene;			
	Dipropylene;			
	Ethylene;			
	Hexylene (2-Methyl-2, 4-Pentanediol);			
	Methoxy Polyethylene;			
	Neopentyl (2,2-Dimethyl-1, 3-Propanediol);			
	Poly;			
	Polyethylene;			
	Polypropylene;			
	Propylene;			
	Triethylene;			
45970-A	In barrels, boxes or Packages 27, 693, 2399, 2431 or 2440	65	35	40
	ⓄProprietary Anti-freeze or Engine Coolant Preparations, see Note, item 45972; Heat Transfer Agents or Media, NOI, see Note, item 45976; or Proprietary De-icing Preparations, see Note, item 45974:			
Sub 1	In containers in barrels or boxes, or in Packages 2053, 2436 Ⓒ or 2494	65	35	30
Sub 2	In bulk in barrels	60	35	30
Δ45972-A	NOTE—Applies only on proprietary anti-freeze or engine coolant preparations made from denatured ethyl alcohol, methanol, ethylene glycol, propylene glycol, dipropylene glycol, diethylene glycol, glycol ether or hexylene glycol, with or without inhibitor.			
Δ45974-A	NOTE—Applies only on preparations containing alcohols or glycols, with or without water or inhibitors, in pressurized dispensing containers.			
Δ45976-A	NOTE—Applies only on proprietary heat transfer agents or media consisting of glycol ether, ethylene glycol, propylene glycol, diphenyl and diphenyl oxide mixtures, o-dichlorobenzene, modified terphenyl or alkylated benzene, with or without inhibitor.			
Δ46030-B	ⓄResins, coal tar or petroleum, or Resin Compounds, see Note, item 46032, in multiple-wall paper bags, cloth bags, barrels, boxes or Packages 591, 2452 or 2473	55	35	40
③46032-A	NOTE—Applies only on coumarone-indene, petroleum polymer or petroleum hydrocarbon resins, or on resin compounds, not commercially suitable for molding or extruding purposes, in liquid, powder, flake, lump or solid mass form. Applies on such resins or resin compounds only when: (1) the resin or rosin does not exceed 50 percent by weight of contents; OR (2) the resin or rosin exceeds 50 percent by weight of contents provided that the actual value does not exceed 60 cents per pound and is so certified by the shipper on shipping orders and bills of lading at time of shipment. If the actual value exceeds 60 cents per pound or if no value is shown by the shipper at time of shipment, item 156200, naming 'Plastic Flakes, NOI, Granules, Lumps, Pellets, Powder or Solid Mass,' or item 156240, naming 'Liquid Plastic, NOI,' will apply, with the final determination of item dependent on the form of the resin or resin compound.			
46050-A	Silica Gel, including Silica Gel Catalyst or Desiccants, LTL, in bags, barrels or boxes; TL, in bulk or in packages	70	37.5	40
AA49390-A	CLOTH, DRY GOODS OR FABRICS: subject to item 48920			
	Dry Goods, viz.:			
	Curtains or Draperies, NOI;			
	Dry Goods, NOI;			
	Pillowcases, NOI;			
	Sheets, NOI;			
	Towels, NOI;			
	Washcloths, NOI;			
	ⒸIn bales, boxes or wrapped rolls	100	85	16
③49505-A	Napkins, table; or Tablecloths; cotton or cotton and synthetic fibre combined, woven, actual value not exceeding \$3.50 per pound, see Note, item 49507, in bundles in boxes	77.5	45	30
③49507-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed \$3.50. If the shipper fails to so certify the actual value per pound, item 49390, naming 'Dry Goods, NOI,' will apply.			

For explanation of abbreviations and reference marks, see last pages of this supplement.

	DRAWING INSTRUMENTS, OPTICAL GOODS OR SCIENTIFIC INSTRUMENTS: subject to item 57670			
57880-A	Goggles, eye protection, Aor Safety Glasses; with other than vision-corrective lenses, in boxes	150	85	12
①58050-A	Microscopes, toy or other than toy, with or without accessory equipment of slides, specimens, lenses, filters, electrical apparatus, tweezers or similar articles in same package, with or without carrying or storage cases in same package, in boxes:			
Sub 1	Actual value not exceeding \$25.00 each, see Note, item 58051	85	55	22
Sub 2	Actual value exceeding \$25.00 each but not exceeding \$100.00 each, see Note, item 58051	125	100	10
Sub 3	Actual value exceeding \$100.00 each, see Note, item 58051	200	100	10
①58051	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value of each article or the value group embracing the actual value of each article. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
①58350-A	Telescopes, NOI, toy or other than toy, with or without extra lenses, filters or the like, with or without tripods or stands, in boxes:			
Sub 1	Actual value not exceeding \$125.00 each, see Note, item 58351	125	85	12
Sub 2	Actual value exceeding \$125.00 each, see Note, item 58351	300	150	10
①58351	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value of each article or the value group embracing the actual value of each article. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
	DRUGS, MEDICINES OR TOILET PREPARATIONS: subject to item 58500			
△58502-B	NOTE—For classes dependent upon agreed or released value applicable in connection with items making reference to this Note, see item 60000.			
①58540-A	Bath Salts or Crystals, Bubble Bath or Water Softening Compounds, medicated or perfumed, in barrels, boxes or Package 2213:			
Sub 1	Actual value not exceeding 25 cents per pound, see Note, item 58542	65	37.5	30
Sub 2	Actual value exceeding 25 cents per pound, see Notes, items 58502 and 58542	100	55	30
①58542-A	NOTE—Unless the shipment is released to value in accordance with the provisions of item 60000, shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group in item 58540 embracing the actual value per pound of the property. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided in item 58540. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
①58700	Contraceptive Sponges, cellular, expanded or foam plastic, impregnated with spermicide, in boxes	110	70	18
△59320-B	Shampoo or Conditioners, hair, in barrels, boxes or Packages 2189, 2213, 2407 or 2440:			
Sub 1	Other than in tubes and having an actual value not exceeding \$2.00 per pound, see Note, item 59322	60	35	36
Sub 2	NOI	65	35	36
①59322-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed \$2.00. If the shipper fails to so certify the actual value per pound, sub 2 of the item will apply.			
①59400-A	Sponges or Devices, vaginal contraceptive, cellular, etc.,Cancel; see item 58700.			
	ELECTRICAL EQUIPMENT GROUP: subject to item 60500			
△60535-A	Aerials or Antennas, or Parts thereof, viz.:			
	Aerials or Antennas, television receiving, other than parabolic, combined or not combined with lights or luggage racks, with or without hardware necessary for mounting;			
	Aerials or Antennas, television receiving, directional, parabolic, see Notes, items 60536 and 60538;			
	Aerials or Antennas, directional, parabolic, NOI, see Notes, items 60536 and 60538;			
	Bowls, Reflectors or Screens, directional or parabolic antenna, or Sections thereof, see Note, item 60538;			
	Enclosures, Housings or Domes, directional or parabolic antenna, see Note, item 60538;			
	In boxes or crates, subject to Item 170 and having a density in pounds per cubic foot of:			
Sub 1	Less than 1, see Note, item 60537	400	400	AQ
Sub 2	1 but less than 2, see Note, item 60537	300	300	AQ
Sub 3	2 but less than 4, see Note, item 60537	250	250	AQ
Sub 4	4 but less than 6, see Note, item 60537	150	100	12
Sub 5	6 but less than 8, see Note, item 60537	125	85	15
Sub 6	8 but less than 10, see Note, item 60537	100	70	18
Sub 7	10 but less than 12, see Note, item 60537	92.5	65	20
Sub 8	12 but less than 15, see Note, item 60537	85	55	26
Sub 9	15 or greater	70	40	36
△60536-A	NOTE—Also applies on one adjustable mount or stand, other than a tower or mast, shipped with each antenna.			

For explanation of abbreviations and reference marks, see last pages of this supplement.

SUPPLEMENT 7 TO NMF 100-Q

Item	ARTICLES	CLASSES		MW
		LTL	TL	
	ELECTRICAL EQUIPMENT GROUP: subject to item 60500			
Δ60537-A	NOTE—The charge for packages or pieces subject to a particular density group may be assessed on the basis of the next lower class provided in connection with the next heavier density group at the weight which would accrue from multiplying the cubage of such packages or pieces by the lowest density named in the density group which provides the next lower class. In each such instance, the actual cube, actual weight, density group embracing the actual density, declared density and resultant weight for billing purposes (declared weight) of the pieces for which density is being declared must be shown by shipper on shipping orders and bills of lading at time of shipment.			
*60538	NOTE—May also be shipped in Packages 2378 or 2455; also TL, on skids securely blocked and braced in or on vehicles.			
60540-A	Aerials or Antennas, television receiving, other than parabolic, etc., Δ.....Cancel; see item 60535.			
60541-A	NOTE— Δ.....Cancel; no further application.			
60542-A	NOTE— Δ.....Cancel; see item 60537.			
Δ61310-B	Circuit Breakers or Switches, other than card mounted, blister packed or in containers affixed to cards, actual value not exceeding \$1.40 each nor \$4.00 per pound, see Note, item 61311, in boxes	70	45	30
ⓐ61311-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of the property does not exceed \$1.40 each nor \$4.00 per pound. If the shipper fails to so certify the actual value, item 61300, naming 'Circuit Breakers or Switches, NOI,' will apply.			
61552-A	Detectors, fire, heat or smoke, Δor Smoke Alarms; with or without built-in emergency lighting units, in boxes:			
Sub 1	Actual value not exceeding \$25.00 per pound, see Note, item 61553	85	55	24
Sub 2	Actual value exceeding \$25.00 per pound, Δsee Note, item 61553	100	70	24
Δ61553-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group embracing the actual value per pound of the property. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
Δ61680-B	Electrical Wiring Plugs, Receptacles, Rosettes, Sockets or Screw-Type Fuse Plugs, or Parts thereof, NOI, or Cartridge Fuse Caps, in boxes:			
Sub 1	Other than card mounted, blister packed or in containers affixed to cards, actual value not exceeding \$1.40 each nor \$4.00 per pound, see Note, item 61682	70	45	30
Sub 2	NOI	77.5	45	30
ⓐ61682-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of the property does not exceed \$1.40 each nor \$4.00 per pound. If the shipper fails to so certify the actual value, sub 2 of the item will apply.			
IΔ*62030	Foot Baths, Foot Spas or Foot Tubs, portable; with vibratory, whirlpool or other water-agitating apparatus, with or without heating apparatus, see Note, item 62031, in boxes	200	125	10
I*62031	NOTE—Also applies on foot baths, foot spas or foot tubs which can operate without water.			
62120-A	Generators, ΔAlternators or Motors, or Parts thereof, NOI:			
Sub 1	Weighing each less than 5 pounds	77.5	45	30
Sub 2	Weighing each 5 pounds or more:			
ΔSub 3	Other than in boxes, crates or Package 2373; or in boxes, crates or Package 2373 and having an actual value in excess of \$5.00 per pound, see Note, item 62121	70	45	30
Sub 4	In boxes, crates or Package 2373 and having an actual value not exceeding \$5.00 per pound, see Note, item 62121	65	40	30
Δ62121-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed \$5.00 or exceeds \$5.00, as the case may be. If the shipper fails to so certify the actual value per pound, charges will initially be assessed on the basis of the class provided in sub 3 of the item. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
ⓐ62560-A	Mixers or Peelers, food, or Food Processing Machines (Food Processors) or Blenders, household, electric, with or without attachments, in boxes or crates	85	45	26
ⓐ62580-A	Motors, weighing each less than 5 pounds, used, having value only for reconditioning or for salvage of parts, actual value not exceeding 50 cents per pound, see Note, item 62582, prepaid	70	45	30
ⓐ62582-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed 50 cents. If the shipper fails to so certify the actual value per pound, item 62120, sub 1, naming 'Generators or Motors, NOI, weighing each less than 5 pounds,' will apply.			
ⓐ62647-B	Phonographs, NOI, or Dictating Machines, other than tape or wire recorders, in boxes or Packages 809 or 829; Coin- or Currency-Operated Phonographs (Jukeboxes), see Note, item 62655, in wooden boxes or Package 266; or Phonographs and Still Picture Projecting Machines combined, with or without equipment of radio receiving set, in boxes	125	70	15
ⓐ62655-B	NOTE—Also applies on mixed TL shipments of Coin- or Currency-Operated Phonographs (Jukeboxes) and Loudspeakers, Coin-Handling Devices or Electrical Appliances or Instruments. The combined weight of the Loudspeakers, Coin-Handling Devices and Electrical Appliances or Instruments must not exceed 15 percent of the gross weight or billed weight of the Coin- or Currency-Operated Phonographs (Jukeboxes), whichever is greater.

Item	ARTICLES	SCASSES		MW 1
		LT	TL	
	ELECTRICAL EQUIPMENT GROUP: subject to item 60500			
663036-A	Sets, electric cord or cable, including Extension Cords, see Note, item 63042: With reeling devices or lamp guards, in barrels or boxes	100	70	24
Sub 1	NOI, in packages, see Note, item 63037, in boxes	77.5	45	30
Sub 2	Extension, other than telephone junction block type, see Note, item 63038, in boxes	70	45	30
Sub 3				
Δ63037-B	NOTE—Electrical Cord sets 150 feet or more in length may be shipped on shipping reels.			
Δ63038-B	NOTE—Applies only on one length of electric cord, cable or wire not exceeding 100 feet in length, having no other attachments than one male plug (cap) and one connector for acceptance of another male plug (cap) or a block allowing for acceptance of several male plugs (caps). Also applies when equipped with on/off switch or indicator light.			
Δ63042-B	NOTE—Does not apply when equipped with surge suppressors, ground-fault interruptors, circuit breakers or similar devices. Tubes: subject to item 63470			
663472-A	Tubes, cathode ray, television picture receiving, in boxes, crates or Packages 251, 2128, 2159, 2220, 2319, 2377, 2389 or 2446:	110	77.5	18
Sub 1	New; rebuilt; or having actual value exceeding \$30.00 each			
Sub 2	Having value only for reclamation of materials, actual value not exceeding \$30.00 each, see Note, item 63478	100	65	20
663478-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of each tube does not exceed \$30.00. If the shipper fails to so certify the actual value, sub 1 of the item will apply.			
	FEED GROUP: subject to item 66700			
6667060-B	Feed, animal, fish or poultry, prepared, NOI, not frozen, in containers in paper bags, in barrels or boxes, or in bulk in bags, barrels, boxes or pails or Packages 1500, 2334, 2382 or 2421; or in fused or pressed blocks weighing each 33 pounds or over, in packages; also TL, in fused or pressed blocks weighing each 33 pounds or over, loose	50	35	30
6667400-B	Meal, Fish, Poultry or a Mixture of Meat, Fish or Poultry and Cereals or Vegetables, with or without other ingredients, not frozen, other than dehydrated or dry, in hermetically sealed inner containers in boxes or in Packages 500, 1000, 1271, 1500, 2257 or 2330	60	35	36
II*69100-A	Filters, NOI, in boxes or crates, subject to Item 170 and having a density in pounds per cubic foot of:			
Sub 1	Less than 1, see Note, item 69101	400	400	AQ
Sub 2	1 but less than 2, see Note, item 69101	300	300	AQ
Sub 3	2 but less than 4, see Note, item 69101	250	250	AQ
Sub 4	4 but less than 6, see Note, item 69101	150	100	12
Sub 5	6 but less than 8, see Note, item 69101	125	85	15
Sub 6	8 but less than 10, see Note, item 69101	100	70	18
Sub 7	10 but less than 12, see Note, item 69101	92.5	65	20
Sub 8	12 but less than 15, see Note, item 69101	85	55	26
Sub 9	15 or greater	70	40	36
II*69101	NOTE—The charge for packages or pieces subject to a particular density group may be assessed on the basis of the next lower class provided in connection with the next heavier density group at the weight which would accrue from multiplying the cubage of such packages or pieces by the lowest density named in the density group which provides the next lower class. In each such instance, the actual cube, actual weight, density group embracing the actual density, declared density and resultant weight for billing purposes (declared weight) of the pieces for which density is being declared must be shown by shipper on shipping orders and bills of lading at time of shipment.			
669930-A	Fish Livers, salted or chemically preserved, in barrels: Actual value not exceeding 20 cents per pound, see Note, item 69932	85	45	30
Sub 1	Actual value exceeding 20 cents per pound, see Note, item 69932	100	70	20
Sub 2				
669932-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group embracing the actual value per pound of the property. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
	FLORIST OR NURSERY STOCK GROUP: subject to item 71100			
671120-A	Bulbs or Tubers, NOI, in bags, bales, barrels, boxes or crates: Actual value not exceeding 50 cents per pound, see Note, item 71122	70	45	24
Sub 1	Actual value exceeding 50 cents per pound, see Note, item 71122	100	70	24
Sub 2				
671122-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group embracing the actual value per pound of the property. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
	FURNITURE GROUP: subject to item 79000			
79024-B	NOTE—The following paragraphs must be complied with when referenced by packaging specifications requiring the use of blankets or pads, see Notes, items 79027 and 79028. The specifications are absolute minimums and must be adhered to with no allowance for manufacturing tolerances. (1) Macerated paper blankets constructed with Kraft paper covers not less than 30 pounds basis weight. Kraft paper must be coated with adhesive on inner side of sheet. Filler of macerated paper must be of uniform thickness overall. Blankets must be sealed on four sides, and must weigh not less than 144 pounds per 1,000 square feet.			

(Continued)

For explanation of abbreviations and reference marks, see last pages of this supplement.

Item	ARTICLES	CLASSES		MW
		LTL	TL	
79024 B (Con't)	<p>FURNITURE GROUP: subject to item 79000</p> <p>(2) Shredded paper packing blankets constructed with Kraft paper covers not less than 30 pounds basis weight. Filler of shredded paper must be evenly distributed in each blanket to correspond to a minimum weight of 288 pounds per 1,000 square feet. The shredded paper must be secured to outer paper wrapper to prevent shifting.</p> <p>(3) Wood-wool packing blankets constructed with Kraft paper covers not less than 30 pounds basis weight. The edges of the paper must be lapped not less than 1/4 inch and be glued entire length of blanket. The wood-wool must not be less than 120 knife cuts per inch and must be manufactured of thoroughly seasoned timber, moisture content not exceeding 25 percent, oven dry basis, and must be evenly distributed. The wood-wool must be secured to outer paper wrapper to prevent shifting. Blankets must weigh not less than 144 pounds per 1,000 square feet.</p> <p>(4) Wood fibre felt blankets not less than 1/4 inch thick, see Note, item 79025. Wood fibre in the blanket must weigh not less than 54 pounds per 1,000 square feet and must consist of new wood fibres, felted and bonded together into a homogenous mat of uniform thickness and surfaced on one side with Kraft paper basis weight not less than 30 pounds.</p> <p>(5) Creped cellulose wadding blankets, embossed, containing not less than twelve plies of creped cellulose, having a minimum thickness not less than 1/4 inch, see Note, item 79025, surfaced on the outer side with Kraft paper basis weight not less than 30 pounds. Cellulose wadding in the blanket must weigh not less than 56 pounds per 1,000 square feet except that when wadding contains no asphalt or other binder and is made of not less than 60 percent sulfate fibre, the weight per 1,000 square feet of the cellulose wadding in the blanket must be not less than 49 pounds.</p> <p>(6) Macerated paper blankets not less than 1/4 inch thick, see Note, item 79025, weighing not less than 144 pounds per 1,000 square feet. Inside sheet must be made of Kraft paper weighing not less than 30 pounds basis weight, outside sheet must be made of Kraft paper, basis weight not less than 50 pounds. Both sheets must be coated on inside with adhesive.</p> <p>(7) Creped cellulose wadding blankets, embossed, containing not less than twelve plies of creped cellulose, having a minimum thickness not less than 1/4 inch, see Note, item 79025, surfaced on outer side with Kraft paper basis weight not less than 40 pounds. Cellulose wadding in the blanket must weigh not less than 56 pounds per 1,000 square feet except that when wadding contains no asphalt or other binder and is made of not less than 60 percent sulfate fibre, the weight per 1,000 square feet of the cellulose wadding in the blanket must be not less than 49 pounds.</p> <p>(8) Cotton wadding cushioning blankets having a minimum thickness not less than 1/4 inch, see Note, item 79025, surfaced on one side with Kraft paper basis weight not less than 30 pounds and on opposite side with creped cellulose wadding. Cotton wadding in the blanket must weigh not less than 60 pounds per 1,000 square feet, and the total weight of the blankets shall be not less than 82 pounds per 1,000 square feet.</p> <p>(9) Excelsior blankets with moisture content not exceeding 25 percent. Blankets must weigh not less than 144 pounds per 1,000 square feet. Excelsior must be evenly distributed to obtain uniform thickness throughout and must be covered on both sides with Kraft paper, basis weight not less than 30 pounds. Edges of sleeve must lap not less than 1/4 inch and be glued entire length. Blankets 18 inches or more in width must have excelsior secured to outer wrapper to prevent shifting and ends must be sealed.</p> <p>(10) Cotton wadding cushioning blanket weighing not less than 50 pounds per 1,000 square feet, glazed on both sides.</p> <p>(11) Indented paper blankets made of not less than three thicknesses of paper which have been molded while the pulp still carried a 50 percent moisture content and covered on both sides with Kraft paper basis weight not less than 30 pounds. Edges of the sleeves must lap not less than 1/4 inch and be glued the entire length of the pad. Each thickness of molded paper must have a basis weight not less than 80 pounds and must be at least 1/8 inch thick. The three thicknesses must be so arranged in the pad as to prevent indentations nesting within each other. The combined pad must not be less than 3/8 inch thick, see Note, item 79025.</p> <p>(12) Shredded paper and wood-wool blankets constructed with Kraft paper covers not less than 30 pounds basis weight. Filler must consist of 90 percent paper shredded in widths not more than 1/4 inch wide and 10 percent wood-wool by volume, distributed evenly in each blanket to correspond to a minimum weight of 171 pounds per 1,000 square feet. Filler must be secured to outer paper wrapper to prevent shifting.</p> <p>(13) Paper blankets made of not less than five thicknesses of virgin Kraft paper, adhered to each other. Not less than four of the thicknesses must have indented pattern of waffle design with indentations arranged so as to prevent nesting of the sheets. The indented sheets each must have basis weight not less than 45 pounds after indenting, the other sheet must have basis weight not less than 40 pounds. Blankets must be not less than 3/8 inch thick, see Note, item 79025.</p> <p>(14) Indented paper blankets constructed of four thicknesses of indented paper, indentations so arranged as to prevent nesting in each other, and two thicknesses of chip paper, not indented, arranged one thickness on top and one thickness on bottom of the four thicknesses of indented paper. All six thicknesses must be enclosed in a sleeve of machine glazed Kraft paper. Each thickness of indented paper and chip paper must have a basis weight of not less than 60 pounds and the machine glazed Kraft must have a basis weight of not less than 30 pounds. The blanket must be not less than 1/4 inch thick, see Note, item 79025.</p> <p>(15) Shredded paper packing blankets constructed with Kraft paper covers not less than 40 pounds basis weight. Filler of shredded paper must be of uniform thickness and secured to outer wrapper to prevent shifting. Blankets must weigh not less than 144 pounds per 1,000 square feet.</p>

79024-B (Con't)	<p>FURNITURE GROUP: subject to item 79000</p> <p>(16) Macerated paper pads weighing not less than 144 pounds per 1,000 square feet, covered on both sides with Kraft paper not less than 40 pounds basis weight. Pads must be coated on inside with adhesive.</p> <p>(17) Shredded paper packing pads weighing not less than 144 pounds per 1,000 square feet, covered on both sides with Kraft paper not less than 30 pounds basis weight. Shredded paper must be uniform in thickness throughout pads. Edges of sleeve must lap not less than 1/8 inch and be glued entire length of pad.</p> <p>(18) Wood excelsior packing pads weighing not less than 144 pounds per 1,000 square feet covered on both sides with Kraft paper not less than 30 pounds basis weight. Excelsior must be uniform in thickness throughout pads. Edges of sleeves must lap not less than 1/8 inch and be glued entire length of pad.</p> <p>(19) Pads made of three or more thicknesses of paper with indentations, covered on both sides with Kraft paper, basis weight not less than 30 pounds. Pads must be not less than 3/16 inch thick, see Note, item 79025. Edges of sleeve must lap not less than 1/8 inch and lap must be glued entire length of the pad. Indented paper must have total basis weight not less than 240 pounds and the thicknesses must be so arranged in the pad as to prevent indentations nesting in each other.</p> <p>(20) Creped cellulose wadding pads, embossed, containing not less than twelve plies of creped cellulose, having a minimum thickness not less than 1/4 inch, see Note, item 79025, surfaced on outer side with Kraft paper, basis weight not less than 30 pounds. Cellulose wadding in the pad must weigh not less than 56 pounds per 1,000 square feet except that when wadding contains no asphalt or other binder and is made of not less than 60 percent sulfate fibre, the weight per 1,000 square feet of the cellulose wadding in the pad must be not less than 49 pounds.</p> <p>(21) Shredded paper and wood-wool pads constructed with Kraft paper covers not less than 30 pounds basis weight. Filler must consist of 90 percent paper shredded in widths not more than 1/4 inch wide and 10 percent wood-wool by volume, distributed evenly in each pad to correspond to a minimum weight of 171 pounds per 1,000 square feet. Edges of sleeve must lap not less than 1/8 inch and be glued entire length of pad.</p> <p>(22) Pads made of not less than one thickness of molded pulpboard not less than 150 pounds basis weight, not less than one thickness of paperboard not less than 80 pounds basis weight, enclosed in sleeve made of Kraft paper not less than 30 pounds basis weight. The molded pulpboard must be made with ribs not less than 3/16 inch wide, spaced not more than 1/4 inch apart, filled with pulp, and not less than four times as thick as the balance of the board. Paperboard must rest on ribs. Weight of pad must be not less than 96 pounds per 1,000 square feet.</p> <p>(23) Blankets or pads made of double faced corrugated fibreboard not thinner than A-flute, the corrugating medium and each liner complying with the thickness and weight basis provided in Sec. 5 of item 222, to which must be laminated creped cellulose wadding. Wadding must be not less than .06 inch thick, weighing not less than 20 pounds per 1,000 square feet, surfaced on one side with Kraft paper, basis weight not less than 20 pounds.</p> <p>(24) Paper pads made of not less than four thicknesses of virgin Kraft paper, adhered to each other. Not less than three of the thicknesses must have indented pattern of waffle design with indentations arranged so as to prevent nesting of the sheets. The indented sheets each must have basis weight not less than 45 pounds after indenting, the other sheet must have basis weight not less than 40 pounds. Pad must be not less than 1/8 inch thick, see Note, item 79025.</p> <p>(25) Quilted form-fitting pads or blankets made of cotton cloth, cotton filled, weighing not less than 3 1/2 ounces per square foot. Blankets or pads must be equipped with cloth tape or straps to securely affix to article.</p> <p>(26) Cotton wadding cushioning pads having a minimum thickness not less than 1/4 inch, see Note, item 79025, surfaced on one side with Kraft paper basis weight not less than 30 pounds and on opposite side with creped cellulose wadding. Cotton wadding in the pad must weigh not less than 60 pounds per 1,000 square feet and the total weight of the pads shall be not less than 82 pounds per 1,000 square feet.</p> <p>(27) Paper pads, made of not less than three thicknesses of waffle design indented virgin Kraft paper, with indentations so arranged as to prevent nesting of the sheets. The indented sheets each must have basis weight of not less than 45 pounds after indenting and must be fully sleeved in virgin Kraft paper of basis weight not less than 30 pounds. Edges of sleeve must lap not less than 1/8 inch and lap must be glued entire length of pad. Pad must be not less than 1/8 inch thick, see Note, item 79025.</p> <p>(28) Paper blankets made of not less than three thicknesses of indented virgin Kraft paper, molded with not less than 12 percent moisture content and sheets so arranged as to prevent nesting of the indentations. The indented sheets must each have basis weight of not less than 45 pounds after indenting and must be fully sleeved in wet strength extensible Kraft paper complying with item 200, Sec. 2, Table C, for basis weight not less than 50 pounds. Edges of sleeve must lap not less than 1/8 inch and lap must be glued entire length of blanket. Blanket must be not less than 3/16 inch thick, see Note, item 79025.</p> <p>(29) Blankets or pads made of extruded, closed cell foam sheeting of a minimum 3/32 inch thickness may be of polypropylene having a density of not less than 0.6 pounds per cubic foot or of polyethylene of not less than 1.0 pound per cubic foot.</p> <p>(30) Pads made of nonwoven fibre bonded to polyethylene foam thickness 1/4 inch or greater.</p>

SUPPLEMENT 7 TO NMF 100-Q

Item	ARTICLES	SCASSES		MW %
		LTL	TL	
79024-B (Con't.)	FURNITURE GROUP: subject to item 79000 Ⓕ(31) Blankets or pads made of not less than two interior plies of material consisting of any combination of Kraft paper, or indented paper having a basis weight of not less than 30 pounds or a nonwoven synthetic fibre material. Interior plies must be enclosed in a sleeve consisting of a nonwoven synthetic fibre top sheet having a thickness of not less than 20 mils and a back sheet of Kraft paper having a basis weight of not less than 30 pounds. The two separate materials making up the sleeve must have edges which overlap not less than 1/4 inch and are glued entire length of pad.			
Δ79025-B	NOTE —For thickness measurements specimens shall be made up by stacking 4 inch square pieces to at least one inch thickness. Thickness measurements shall be made by placing the specimen on a flat, level surface and weighting it down with a 6 inch square rigid flat plate weighing 0.4 pound. The vertical distance between the base surface and the plate at each of the four corners shall be measured and the average of the four measurements shall be the thickness of the specimen. The thickness of the material shall be thickness of the specimen divided by the number of pieces in the specimen. Compliance with thickness specifications is to be at the plant where the furniture is being packed.			
Δ79027-B	NOTE —Where in furniture packages blankets meeting requirements of Note, item 79024, Paragraph (5) are authorized, blankets conforming to Paragraph (8) may be used, and where pads meeting requirements of Paragraph (20) are authorized, pads conforming to Paragraph (26) may be used.			
79028-B	NOTE —Where in furniture packages blankets and pads meeting requirements of Note, item 79024, paragraphs (5) and (20) are authorized, blankets and pads conforming to paragraph (29) Ⓕ or (31) may be used.			
II*79550-A	Mattresses, see Notes, items 79552 and 79553; Upholstered Box Springs; or Waterbeds, see Note, item 79554; in Packages 5F, 10F, 12F, 30F, 47F or 90F; in bales wrapped in paper and outer covering of burlap weighing not less than 10 ounces per square yard; also TL, in Package 9F, except bags or wrappers may be glued as provided in Package 12F in lieu of tying, and such bags must be marked 'Not acceptable for LTL shipments'; subject to Item 170 and having a density in pounds per cubic foot.			
Sub 1	Less than 4	250	250	AQ
Sub 2	4 or greater	200	200	AQ
II79551-A	NOTE —▲.....Cancel; see item 79553.			
IIΔ79552-A	NOTE —Applies only on mattresses having a thickness of not less than three inches equipped with a cover made of cloth or plastic film or sheeting.			
II*79553	NOTE —Mattresses may be shipped in Package 11F. Crib mattresses may be shipped in Package 36F.			
II*79554	NOTE —Applies only on waterbeds consisting of a mattress (foam, cellular, expanded or sponge plastic or rubber pad, integral water cylinders or bladder, and plastic liner; with fabric covering) with or without a pedestal or platform.			
Ⓔ84320-A	GAMES OR TOYS GROUP: subject to item 83900 Games or Toys, NOI, wooden or wood and steel combined, other than rocking horses or shoofties, in boxesCancel; see item 84260.			
Ⓔ*84325	Games or Toys, NOI, wooden or wood and steel combined, other than rocking horses or shoofties, in boxes, having a density of 30 pounds or greater per cubic foot, see Note, item 84326	65	35	40
Ⓔ*84326	NOTE —Density must be shown by shipper on shipping orders and bills of lading at time of shipment. If density is not shown and shipment is inadvertently accepted, classes will originally be assessed under the provisions of item 84260, naming 'Games or Toys, NOI.' Upon satisfactory proof of actual density, classes will be adjusted accordingly.			
85000-B	Games or Toys, as described in items 83920 to 84980, inclusive, except items 83985, 83990, 84080, 84180, 84260, 84270, Ⓔ*84325, 84405, sub 2, 84410, 84510, 84520, 84560, 84700 and 84702, in straight or mixed TL, or in mixed TL with: Bicycles, NOI, as described in item 189800, Billiard or Pocket Billiard (Pool) Tables, KD, as described in item 15770, Binoculars, Field Glasses, Monoculars or Opera Glasses, as described in item 57760, actual value not exceeding \$1.00 each, see Note, item 85002, Carriages or Strollers, baby or doll, as described in item 188690, Games or Toys, as described in items 83990, 84000, 84080, 84260, 84270, 84405, sub 2, 84410, 84510, 84700 or 84702, Microscopes, as described in item 58050, actual value not exceeding \$25.00 each, see Note, item 85002, Paint Sets, as described in items 174004 and 174008, Projectors, motion or still picture, as described in item 39750, actual value not exceeding \$8.00 each, see Note, item 85002, Telescopes, as described in item 58350, actual value not exceeding \$5.00 each, see Note, item 85002, Vehicles, children's, as described in items 188780, 189000, 189180, 189440, 189520, 189780, 189800, 189820 and 189960

SUPPLEMENT 7 TO NMF 100-Q

Item	ARTICLES	CLASSES		MW %
		LTL	TL	
Δ85002-B	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of the binoculars, field glasses, monoculars or opera glasses does not exceed \$1.00 each, the actual value of the microscopes does not exceed \$25.00 each, the actual value of the projectors does not exceed \$8.00 each, and the actual value of the telescopes does not exceed \$5.00 each, as the case may be. If the shipper fails to so certify the actual value, such articles will be classed separately per items 57760, 58050, 39750 and 58350, respectively.			
Δ86390-B	Geological Samples, earth, sand or stone, including Well Drilling Cores, Core Samples of Surface Samples, actual value not exceeding 5 cents per pound, see Note, item 86392, in bags or boxes	60	35	36
ⓐ86392-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed 5 cents. If the shipper fails to so certify the actual value per pound, item 177120, sub 3, naming "Specimens, mineral or petrified wood, prepaid," will apply.			
	GLASSWARE GROUP: subject to item 87500			
ⓐ88150-A	Glassware, NOI, see Notes, items 88154 and 88172, in barrels, boxes or Packages 183, 196, 1174, 1346, 2089, 2126, 2127, 2267 or 2349, see Notes, items 88156 and 88166:			
Sub 1	Actual value not exceeding 90 cents per pound, see Note, item 88152	70	37.5	28
Sub 2	Actual value exceeding 90 cents per pound but not exceeding \$3.80 per pound, see Note, item 88152	85	55	24
Sub 3	Actual value exceeding \$3.80 per pound but not exceeding \$5.00 per pound, see Note, item 88152	100	70	20
Sub 4	Actual value exceeding \$5.00 per pound but not exceeding \$9.50 per pound, see Note, item 88152	150	85	20
Sub 5	Actual value exceeding \$9.50 per pound but not exceeding \$12.65 per pound, see Note, item 88152	200	100	20
Sub 6	Actual value exceeding \$12.65 per pound but not exceeding \$19.00 per pound, see Note, item 88152	250	125	20
Sub 7	Except as provided in item 88172, if actual value exceeds \$19.00 per pound or if shipper fails to certify actual value at time of shipment, item 88140 will apply.			
ⓐ88152-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group embracing the actual value per pound of the property, including any authorized accompanying articles in the same shipping container.			
Δ88154-B	NOTE—With or without metal or plastic attached fixtures or trim and without any accompanying articles, or with accompanying articles named below when in same shipping container: One tray, other than gold or silver or other than gold or silver plated, for each retail unit of sale. Tongs, knives, forks, spoons, stirrers or sippers, other than gold or silver or other than gold or silver plated, or paper napkins, not exceeding 10 percent of the gross weight of each shipping container. Candies, serving baskets, carriers or holders, or metal holders, stands or dispensers for table use, not in excess of number required to equip each retail unit of sale.			
Δ88156-B	NOTE—Beer mugs or tumblers, NOI, other than cut glass, may be shipped in crates.			
Δ88166-B	NOTE—Also applies on TL shipments in fibre boxes, except that tops need not be fastened.			
Δ88172-B	NOTE—Glassware, NOI, actual value exceeding \$12.65 per pound, not exceeding 5 percent of the gross weight of the package in which shipped, may be included in the same package at classes applicable to Glassware, NOI, actual value exceeding \$9.50 per pound, but not exceeding \$12.65 per pound.			
	GYPSON OR GYPSON PRODUCTS GROUP: subject to item 91850			
91890-A	Gypsum Board, including Sheetrock® and Dry Wall, viz.: Gypsum Backing Board, Gypsum Formboard, Gypsum Lath, Gypsum Sheathing or Gypsum Wallboard, laminated or not laminated, in boxes or crates or in metal-strapped bundles with edges protected by fibreboard not less than .100 inch thick; also TL, loose or in packages	60	35	40
	HARDWARE GROUP: subject to item 92900			
93050-A	Assemblies, bolt, nut or screw, etc., A.....Cancel; see item 93490.			
93053-A	Assemblies, concrete anchor, iron or steel, etc., A.....Cancel; see item 94353.			
93055-A	Assemblies, nail or prong, etc., A.....Cancel; see item 95940.			
93057-A	Assemblies, nail, etc., A.....Cancel; see item 95935.			
▲*93490	Bolts, Nuts or Screws, steel, mounted on steel clips, fasteners or mounts; or Clips, Fasteners or Mounts, steel, for holding and fastening bolts, nuts, nails, prongs or screws; in boxes	50	35	30
▲*94353	Concrete Anchors, iron or steel, consisting of bolt or rod and anchor, with or without nuts or washers, in boxes	60	35	40
▲*95935	Nails, steel, with plastic shield, in boxes	70	45	30
▲*95940	Nails or Prongs, metal, mounted on metal clips, fasteners or mounts, with or without adhesive backing, in boxes	70	45	30
100080-A	Horns or Signals, sound warning, NOI, etc., A.....Cancel; see item 12530.			
ⓐ100160	Hol Tubs, KD; or Hol Tub Systems, see Note, item 100161; in boxes or crates	70	40	30
ⓐ100161	NOTE—Applies on systems of KD wooden hol tubs and one or more of the following: filters, heaters or pumps. Also applies on necessary equipment for installation or operation.			
ⓐ101700-A	Ink, carbon paper, semisolid (nonfluid), in barrels or boxes:			
Sub 1	Actual value not exceeding 35 cents per pound, see Note, item 101702	60	35	36
Sub 2	Actual value exceeding 35 cents per pound, see Note, item 101702	85	50	24

For explanation of abbreviations and reference marks, see last pages of this supplement.

SUPPLEMENT 7 TO NMF 100-0

Item	ARTICLES	CLASSES		MW
		LTL	TL	
⑥ 101702-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group embracing the actual value per pound of the property. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
101760-A	Ink and Related Materials, viz.: Bases, color, ink; Compounds, ink reducing, thickening or thinning; Driers, ink; Extenders, ink; Ink, brush or stencil marking; Ink, printing, NOI; Plasticizers, ink; Solvents, ink; Varnishes, ink;			
Sub 1	In metal or plastic tubes, in boxes other than Package 2144	100	35	36
Sub 2	In metal or plastic tubes, in Package 2144	70	35	36
Sub 3	In inner containers other than metal or plastic tubes in barrels, boxes or crates, in kits or pails, in bulk in barrels, or in Packages 574, 2388, 2440, 2463 or 2467	55	35	36
116330-A	MACHINERY GROUP: subject to item 114000 Cabs, seat, NOI, or Guards, operator, canopy type, NOI, machine or vehicle, etc., ⚡.....Cancel; see item 39515.			
116334-A	NOTE—⚡.....Cancel; see item 39516.			
⑥ 118120-A	Computers, gasoline power measuring pump: Used, having value only for reconditioning or for salvage of parts, actual value not exceeding \$20.00 each, see Note, item 118122, in packages	70	45	30
Sub 1				
Sub 2	NOI, in boxes	92.5	50	30
⑥ 118122-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of each computer does not exceed \$20.00. If the shipper fails to so certify the actual value, sub 2 of the item will apply. Ice Making or Refrigerating: subject to item 123200			
123640-B	Cooling or Freezing Machines, ⚡old, used, having value not in excess of value for reconditioning, actual value not exceeding 35 cents per pound, see Notes, items 123642 and 123644, in boxes or crates	70	45	24
123642-B	NOTE—Applies only on cooling or freezing machines⚡, such as are used with cooling boxes, refrigerators or air conditioning apparatus, and will also include not to exceed one refrigeration evaporator (cooling coil or cooling unit, other than evaporator liners) for each machine.			
▲ 123644-B	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed 35 cents. If the shipper fails to so certify the actual value per pound, the cooling or freezing machines will be classed per item 123620, naming "Cooling or Freezing Machines, NOI."			
123646-B	NOTE—⚡.....Cancel; no further application.			
⚡★ 123665	Gas or Liquid Compressors, old, used, having an actual value not exceeding \$1.50 per pound, in boxes or crates or on skids, having a density in pounds per cubic foot of, see Note, item 123666:			
Sub 1	Less than 30	70	40	36
Sub 2	30 or greater	60	35	40
★ 123666	NOTE—Density and value must be shown by shipper on shipping orders and bills of lading at time of shipment. If density or value is not shown at time of shipment and shipment is inadvertently accepted, charges will be assessed under sub 1 of item 123300, naming "Compressors, refrigeration or air conditioning."			
▲ 124600-B	Machines, merchandise vending, coin or currency operated, with or without heating or refrigerating apparatus, used, having value only for reconditioning or for salvage of parts, actual value not exceeding 50 cents per pound, see Note, item 124602, in boxes, crates or Package 994; TL, loose or in packages	70	60	24
⑥ 124602-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed 50 cents. If the shipper fails to so certify the actual value per pound, item 124590, naming "Machines, merchandise vending, coin or currency operated, with or without heating or refrigerating apparatus, NOI," will apply.			
⑥ 128020-A	Pumps, measuring, power, with or without enclosed display compartments: Used, having value only for reconditioning or for salvage of parts, actual value not exceeding \$50.00 each, see Note, item 128022, loose or in packages	70	45	24
Sub 1				
Sub 2	NOI, in boxes, crates or Packages 1389, 2088 or 2339	85	45	24
⑥ 128022-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of each pump does not exceed \$50.00. If the shipper fails to so certify the actual value, sub 2 of the item will apply.			
⑥ 129980-A	Shoe Stitching Machines or Shoe Stitching Machine Heads, used, having value only for reconditioning, salvage or as scrap, actual value not exceeding \$50.00 each, see Note, item 129982, in boxes or crates or on skids	70	60	30
⑥ 129982-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of each article does not exceed \$50.00. If the shipper fails to so certify the actual value, item 129960, naming "Shoe or Shoe Repairing Machines," will apply.			

SUPPLEMENT 7 TO NMF 100-0

Item	ARTICLES	CLASSES		MW
		LTL	TL	
	MACHINERY GROUP: subject to item 114000			
Δ130395-B	Starters or Starter Motors (electric motors with cranking drive assemblies), internal combustion engine, NOI, having a density of 50 pounds or greater per cubic foot and actual value not exceeding \$5.50 per pound, see Note, item 130396, in boxes	70	37.5	36
Ⓜ130396-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that density is 50 pounds or greater per cubic foot and that actual value per pound does not exceed \$5.50. If the shipper fails to so certify both the density and the actual value per pound, item 133300, naming 'Machinery or Machines, NOI,' will apply.			
Δ132700-B	Vacuum Cleaners, used, other than reconditioned, having value only for reconditioning or salvaging:			
Sub 1	NOI, in boxes	85	45	24
Sub 2	Household, actual value not exceeding 35 cents per pound, see Note, item 132701, in packages	70	45	24
Ⓜ132701-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed 35 cents. If the shipper fails to so certify the actual value per pound, sub 1 of the item will apply.			
Ⓜ132830-A	Water Purifiers, other than filter type, or Water Still, NOI:			
Sub 1	Copper, nickel plated or plain, in boxes or crates	150	85	12
Sub 2	Iron or steel, with bronze, copper or tin fittings, LTL, in boxes or crates or on skids; TL, loose or in packages	100	45	24
Ⓜ134235-A	Mats, place, counter or table, plastic, etc.,Cancel; see item 155765.			
Ⓜ134240-A	Mats, place, counter or table, NOI, etc.,Cancel; see item 155760.			
	METALS GROUP: subject to item 135300			
Ⓜ135440	Beryllium Bronze or Beryllium Copper, or Beryllium Bronze or Beryllium Copper Articles, NOI, containing .5-percent to two-percent beryllium, see Note, item 135441, in barrels, boxes or crates, see Note, item 135442:			
Sub 1	Actual value not exceeding \$5.00 per pound, see Note, item 135443	60	45	30
Sub 2	Actual value exceeding \$5.00 per pound but not exceeding \$30.00 per pound, see Note, item 135443	85	55	30
Sub 3	Actual value exceeding \$30.00 per pound, see Note, item 135443	100	70	30
Ⓜ135441	NOTE—Where beryllium content exceeds two percent, item 136500, naming 'Metal Alloys, NOI,' will apply.			
Ⓜ135442	NOTE—Plate, sheet or strip, 38 gauge or thicker (.004 inch or thicker), may be shipped in bundles, subject to the Note, item 106722.			
Ⓜ135443	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group embracing the actual value per pound of the property. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
	METERS, OR PARTS NAMED: subject to item 136700			
Ⓜ136760-A	Electric, watt-hour, used, suitable only for salvage or reconditioning, actual value not exceeding \$1.50 each, see Note, item 136762, in packages	70	35	30
Ⓜ136762-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of each meter does not exceed \$1.50. If the shipper fails to so certify the actual value, item 136740, sub 2, naming 'Meters, electric, watt-hour,' will apply.			
Ⓜ136990-A	Water, other than flow, or Gas, used, actual value not exceeding 25 cents per pound, see Note, item 136992	55	35	30
Ⓜ136992-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed 25 cents. If the shipper fails to so certify the actual value per pound, the water meters will be classed per item 136980, naming 'Meters, water, other than flow, NOI.' The gas meters will be classed per item 136840, 136860, 136870 or 136880, all naming 'Meters, gas, NOI,' with the final determination of item dependent on the material construction of the gas meter.			
	MUSICAL INSTRUMENTS, OR PARTS NAMED: subject to item 138800			
Δ138890-B	Drums, snare, or Bongos, see Note, item 138893, other than toy, actual value not exceeding \$5.00 per pound, see Note, item 138892, in boxes	125	85	12
Ⓜ138892-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed \$5.00. If the shipper fails to so certify the actual value per pound, item 138880, naming 'Drums, other than toy drums, NOI,' will apply.			
Δ138893-B	NOTE—Applies on pairs of connected drums not exceeding 12 inches in height made of material's other than plastic.			
Δ138940-B	Music Boxes or Music Box Movements, in boxes:			
Sub 1	Actual value not exceeding \$2.00 each, see Note, item 138941	85	55	24
Sub 2	NOI	125	85	12
Ⓜ138941-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of each article does not exceed \$2.00. If the shipper fails to so certify the actual value, sub 2 of the item will apply.			

SUPPLEMENT 7 TO NMF 100-Q

Item	ARTICLES	CLASSES		MW F
		LT	TL	
149265-C	PADS, PADDING, CUSHIONS OR PILLOWS: subject to item 149100 Pads, Padding, Cushions or Pillows, A see Note, item 149269, viz.: Air Filtering Media, glass fibre or glass wool; Booms, Pads, Sweeps or Other Forms or Shapes, chemical or oil absorption; Cushions, aircraft seat or railway car seat; Cushions, NOI; Fulons; Pads or Padding, NOI; Pillows or Pillow Forms (Unfinished Pillows), NOI; Seal Backs, railway car, upholstered or padded; In packages, subject to item 170 and having a density in pounds per cubic foot of:			
Sub 1	Less than 1, see Note, item 149266	400	400	AQ
Sub 2	1 but less than 2, see Note, item 149266	300	300	AQ
Sub 3	2 but less than 4, see Note, item 149266	250	250	AQ
Sub 4	4 but less than 6, see Note, item 149266	150	100	12
Sub 5	6 but less than 8, see Note, item 149266	125	85	15
Sub 6	8 but less than 10, see Note, item 149266	100	70	18
Sub 7	10 but less than 12, see Note, item 149266	92.5	65	20
Sub 8	12 but less than 15, see Note, item 149266	85	55	26
Sub 9	15 or greater	70	40	36
Δ149266-C	NOTE —The charge for packages or pieces subject to a particular density group may be assessed on the basis of the next lower class provided in connection with the next heavier density group at the weight which would accrue from multiplying the cubage of such packages or pieces by the lowest density named in the density group which provides the next lower class. In each such instance, the actual cube, actual weight, density group embracing the actual density, declared density and resultant weight for billing purposes (declared weight) of the pieces for which density is being declared must be shown by shipper on shipping orders and bills of lading at time of shipment.			
*149269	NOTE —Does not apply on polypropylene in sheet form, polyethylene in sheet form or polystyrene in sheet form when the packaged density as shipped is less than one pound per cubic foot. Such articles are classified in item 157463.			
▲153760-A	PAPER ARTICLES GROUP: subject to item 152000 Pads; Tablets; Blank Books; or Composition or Spiral Notebooks; ruled or not ruled, in packages:			
Sub 1	Not printed, without covers, or with printed or not printed paper or pulpboard covers, see Note, item 153762	55	35	36
Sub 2	Not printed, with printed or not printed covers of other than paper or pulpboard	60	35	36
Sub 3	Printed with headings or margins, with or without covers	60	35	36
Δ153762-A	NOTE —When in bundles, must be completely double wrapped, and securely tied with strong rope completely encircling bundle at least twice around sides and ends, securely knotted at each crossing.			
Ⓜ155590-A	Pictures, paperboard, framed with plastic frame, without glass, nested, actual value not exceeding 40 cents each, see Note, item 155592, in boxes	85	55	24
Ⓜ155592-A	NOTE —Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of each framed picture does not exceed 40 cents. If the shipper fails to so certify the actual value, item 56157, sub 2, naming 'Pictures, printed on paper or paperboard, framed, with or without glass, value not declared in writing at time of shipment,' will apply.			
Ⓜ155760	Place Mats, counter or table, NOI, in boxes	85	55	24
Ⓜ155765	Place Mats, counter or table, plastic, other than cellular, expanded or foam, without backing or backed with cork, or backed with cellular, expanded or foam plastic not exceeding ¼ inch in thickness, in boxes	77.5	55	30
156600-B	PLASTIC OR RUBBER ARTICLES, OTHER THAN EXPANDED, GROUP: subject to item 156500 Articles, viz.: Articles, NOI; Boat or Shoe Forms or Trees, other than display forms or trees; ▲Caps, Covers, Discs, Ends, Bands, Rings or Tops, NOI, for bottles, cans, cups, collapsible tubes, glasses, jars or jugs; ▲Filmstrip or Audio or Video Cassette Storage Albums; Garbage or Refuse Cans; ▲Linens, swimming pool, plastic film or sheeting; Pipe Fittings; In barrels, boxes, crates or Packages 870, 1078, 1241, 1273, 1456, 2195, 2212, 2213, 2230 or 2459, see Note, item 156602, subject to Item 170 and having a density in pounds per cubic foot of:			
Sub 1	Less than 1, see Note, item 156608	400	400	AQ
Sub 2	1 but less than 2, see Note, item 156608	300	300	AQ
Sub 3	2 but less than 4, see Note, item 156608	250	250	AQ
Sub 4	4 but less than 6, see Note, item 156608	150	100	12
Sub 5	6 but less than 8, see Note, item 156608	125	85	15
Sub 6	8 but less than 10, see Note, item 156608	100	70	18
Sub 7	10 but less than 12, see Note, item 156608	92.5	65	20
Sub 8	12 but less than 15, see Note, item 156608	85	55	26
Sub 9	15 or greater	70	40	36

SUPPLEMENT 7 TO NMF 100-Q

Item	ARTICLES	CLASSES		MW
		LTL	TL	
157342-C	NOTE—The following departures from packing requirements are permitted: 1. Blocks; plates, other than tableware; rods; tubes; or other shapes may be shipped in bales. 2. Boards; logs; planks; plates, other than tableware; sheets; or slabs constituting a shipment of 1,300 cubic feet or greater may be shipped loose. 3. Logs or slabs constituting a shipment of 600 cubic feet or greater may be shipped loose when each piece is at least 18 cubic feet. 4. Expanded plastic having a density not exceeding one pound per cubic foot may be shipped in two-mil plastic bags securely closed or in Package 2198. 5. Dishes, plates or trays may be shipped in Packages 911 or 2176. 6. Mattress forms or cores may be shipped in: bales wrapped in paper in outer covering of burlap weighing not less than 10 ounces per square yard; or Packages 5F, 10F, 11F, 12F, 30F or 90F. They may be shipped TL in Package 9F, except bags or wrappers may be glued, as provided in Package 12F, in lieu of tying, and such bags or wrappers must be marked, "Not Acceptable for LTL Shipments."			
△157344-C	NOTE—Also applies when faced one or both sides with other materials but does not apply on combinations of flexible cellular, expanded or foam plastic or rubber and cloth or fabric.			
157346-C	NOTE—△Does not apply on polypropylene in sheet form, polyethylene in sheet form or polystyrene in sheet form, when the packaged density as shipped is less than one pound per cubic foot. △Such articles are classified in item 157463.			
△157352-C	NOTE—The charge for packages or pieces subject to a particular density group may be assessed on the basis of the next lower class provided in connection with the next heavier density group at the weight which would accrue from multiplying the cubage of such packages or pieces by the lowest density named in the density group which provides the next lower class. In each such instance, the actual cube, actual weight, density group embracing the actual density, declared density and resultant weight for billing purposes (declared weight) of the pieces for which density is being declared must be shown by shipper on shipping orders and bills of lading at time of shipment.			
	PRINTED MATTER GROUP: subject to item 161500			
□161580-A	Books, NOI, with paper or paperboard covers, actual value not exceeding \$1.65 each, see Note, item 161582, in boxes or wrapped bundles	60	35	40
□161582-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of each book does not exceed \$1.65. If the shipper fails to so certify the actual value, item 161560, naming "Books, NOI," will apply.			
	RECORDINGS, SOUND, OR SOUND RECORDING BLANKS: subject to item 168900			
△168940-B	Scrap, see Note, item 168942, in bags, barrels or boxes	50	35	36
□168942-A	NOTE—Applies only on: (1) scraps, shavings or pieces of recorded or blank plastic, sound recording discs without metal coating; OR (2) whole, scrap, plastic, sound recording discs without metal coating, recorded or blank, having value only for reclamation of raw materials, actual value not exceeding 16 cents per pound. Shipping containers must be marked by shipper, "Scrap Recordings" or "Scrap Recording Blanks," as the case may be, and shipper must certify on shipping orders and bills of lading at time of shipment that the sound recording discs have value only for reclamation of raw materials and that the actual value per pound does not exceed 16 cents. If the shipper fails to provide such certification, item 168910, naming "Recordings, sound, or Sound Recording Blanks: Discs, plastic, nonbreakable," will apply.			
□169605-A	Rifles or Carbines, new, with telescopic sight in same package, actual value not exceeding \$200.00 each, see Note, item 169607, in boxes, see Note, item 169608	125	85	24
□169607-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of each rifle or carbine with telescopic sight does not exceed \$200.00. If the shipper fails to so certify the actual value, the articles will be classed as mixed packages, per item 640, Sec. 3(a), using items 69300, naming "Firearms or Parts, NOI," and 58290, naming "Sights, telescopic, small arms."			
△169608-B	NOTE—Outer shipping containers may be printed or labeled with shipper's name and address but not printed or labeled with advertising or with uncoded information as to the nature, identity, model or caliber of the articles contained therein. Packing lists affixed to the outside of shipping container must be enclosed in a sealed, opaque envelope or pouch.			
□169610-A	Rifles or Carbines, obsolete, unserviceable or used, actual value not exceeding \$12.00 each, see Note, item 169612, in boxes	70	40	30
□169612-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value of each rifle or carbine does not exceed \$12.00. If the shipper fails to so certify the actual value, item 69300, naming "Firearms or Parts, NOI," will apply.			
	RUBBER MATERIALS GROUP: subject to item 171600			
□171620-A	Coatings or Dispersions, silicone rubber, liquid, paste or semisolid, in barrels or boxes:			
Sub 1	Actual value not exceeding \$1.00 per pound, see Note, item 171622	60	40	36
Sub 2	Actual value exceeding \$1.00 per pound but not exceeding \$2.00 per pound, see Note, item 171622	70	45	30
Sub 3	Actual value exceeding \$2.00 per pound but not exceeding \$5.00 per pound, see Note, item 171622	100	70	20
Sub 4	Actual value exceeding \$5.00 per pound, see Note, item 171622	200	100	12
□171622-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group embracing the actual value per pound of the property. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			

SUPPLEMENT 7 TO NMF 100-Q

Item	ARTICLES	CLASSES		MW 1
		LTL	TL	
①180050-A	Sweepings, Tailings or Refuse, NOI, etc.,Cancel; see item 195890.			
①180051-A	NOTE—Cancel; see item 195892.			
①180052-A	NOTE—Cancel; see item 195892.			
①180053-A	NOTE—Cancel; see item 195891.			
①181880-A	Tape or Wire, video or video recording, see Note, item 181881, in boxes:			
Sub 1	Blank (not recorded), NOI	85	70	30
Sub 2	Recorded (with video image):			
Sub 3	Actual value not exceeding \$16.00 per pound, see Note, item 181882	100	70	30
Sub 4	Actual value exceeding \$16.00 per pound but not exceeding \$32.00 per pound, see Note, item 181882	200	70	30
Sub 5	Actual value exceeding \$32.00 per pound, see Note, item 181882	300	70	30
Sub 6	Used, erased, having value only for reconditioning, actual value not exceeding \$5.00 per pound, see Note, item 181883	70	37.5	36
△181881-B	NOTE—Applies on tape for electronically recording video images, with or without sound track; or on tape recorded with video images, with or without sound track.			
①181882-A	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment the actual value per pound of the property or the value group embracing the actual value per pound of the property. If the shipper fails to so certify the actual value, shipment will not be accepted, but if the shipment is inadvertently accepted, charges will initially be assessed on the basis of the class for the highest valuation provided. Upon proof of lower actual value, freight charges will be adjusted accordingly.			
①181883	NOTE—Shipper must certify on shipping orders and bills of lading at time of shipment that the actual value per pound of the property does not exceed \$5.00. If the shipper fails to so certify the actual value per pound, sub 1 of the item will apply. TILE, Facing or Flooring: OR MOLDING, Facing, Baseboard or Cove, other than metal: subject to item 182300			
△182460-A	Composition, NOI, see Notes, items 182462 and 182642, in barrels; boxes, see Note, item 182644; bundles, see Note, item 182464; or in crates; subject to Item 170 and having a density in pounds per cubic foot of:			
Sub 1	Less than 35	70	35	36
Sub 2	35 or greater	60	35	36
△182462-A	NOTE—The term "composition" is inclusive of plastic as defined in item 110 other than cellular or expanded plastics. Provisions will not apply on products made of plastic film or sheeting when such products have a thickness greater than twice the thickness of the film or sheeting from which made.			
△182464-A	NOTE—In bundles, all edges protected by wooden strips not less than one inch thick, metal strapped.			
△182640-A	Rubber Composition, other than foam rubber; in bales, barrels or crates; or in boxes, see Notes, items 182642, 182644 and 182646; subject to Item 170 and having a density in pounds per cubic foot of:			
Sub 1	Less than 35	70	35	36
Sub 2	35 or greater	60	35	36
△182642-A	NOTE—TL classes also apply on installation adhesives, wax, rollers, hand tools other than power, or mops, not in excess of 10 percent of the weight upon which charges are assessed.			
△182644-A	NOTE—In boxes complying with the requirements of item 680 except that one side may have a die cut circle, other than a hole, not exceeding 7 inches in diameter. Each box must contain one sample tile placed directly behind the die cut circle for protection of contents.			
△182646-A	NOTE—Also applies on tiles consisting of strips cut from rubber tires, surface buffed and fabric backed.

SPECIFICATIONS FOR NUMBERED PACKAGES

Package 256

(Cancels 'Package 256' from page 679 of the classification.)

In singlewall corrugated fibreboard boxes meeting the requirements of Item 222, Sections 2 and 3 for boxes testing not less than 125 pounds. The maximum dimensions must not exceed 60 united inches, except that top and bottom flaps may come within five inches of meeting, and boxes must be firmly glued not less than 50% of area of contact. Gross weight not to exceed 25 pounds.

SPECIFICATIONS FOR NUMBERED PACKAGES

Package 2368

(Cancels 'Package 2368' from page 776 of the classification.)

Unit Container— Glass not exceeding 8 oz. having straight-sided (glass-to-glass) contact with adjacent containers.

Shipping Container— Shrink film-enclosed corrugated fibreboard tray.

Tray— Corrugated fibreboard of 150-pound test having a minimum flange height of not less than 1½ inches.

Film— Heat shrinkable, polyethylene film of minimum 2-mil thickness, preferentially oriented machine and transverse direction to effect a tightly shrunk package. Film must completely enclose tray and contents by securely heat sealing, or film may completely enclose the contents and be continuously sealed to outer tray sidewall (see Note).

United Inches— Not to exceed 32 inches (length, width and depth added).

Gross Weight— Not to exceed 26 pounds.

Note— When unitized on and secured to pallets by stretch or shrink film, commodities will be accepted for LTL shipment in Package 2368 modified so that the film enclosure may have centered end openings. End openings must not exceed one-half the exposed height of the inner containers.

Package 2482

(Cancels 'Package 2482 from page 795 of the classification.)

SHIPPING CONTAINER:

Body— Two- or three-piece corrugated fibreboard die-cut shell, completely covering top. Sidewall face panels must be die-cut to form window openings with integral formed corner posts. Bottom of shell must have flanges of four-inch minimum width. Top may have a built-in four-inch handling flange secured by banding. Fibreboard must test not less than 275 pounds for gross weight not exceeding 250 pounds and must test 350 pounds for gross weight not exceeding 350 pounds. Two sides of the package must have corrugated fibreboard side pads to facilitate hand trucking.

Inner Clearance— A clearance of not less than one inch must be maintained at top, front and sides and not less than ½ inch clearance at back by use of interior forms constructed of either expanded polystyrene or corrugated fibreboard.

Base— Article must rest on a one-piece full-dimension pad of 1.5-pound minimum density expanded polystyrene, securely glued to bottom flanges of body.

OR

Article must rest on full-dimension pad of corrugated fibreboard folded to form a perimeter pad, securely glued to bottom flanges of body. Fibreboard must test not less than 275 pounds. Doors of article must be supported by pads of 1.5-pound minimum density expanded polystyrene glued to base.

Outer Wrap— Plastic film single ply or multiple plies totaling 4 mils in thickness, either shrink or stretch application.

 Package 2493

(Add 'Package 2493' to page 795 of the classification.)

SHIPPING CONTAINER: Stretch wrapped palletized unit load of tiered layers of cartons placed in a common bottom tray, with corrugated fibreboard corner posts and top cap.

Inner Container— Paperboard folding cartons.

Tier Sheets— Corrugated fibreboard tier sheets testing 150 pounds must separate layers of cartons.

Tray and Top Cap— Common trays of die-cut corrugated fibreboard of 150-pound test with minimum flange height of three inches.

Corner Posts— Full-height scored and folded L-shaped corner posts of corrugated fibreboard testing 150 pounds, positioned and held in place within flanges of top cap and bottom tray. Corner posts must have a minimum width of four inches in both directions.

Top Pad— Pad full dimension of top cap surface constructed of fibreboard cellular honeycomb material of ¾ inch thickness must be placed upon top cap.

Film— Stretch film of 0.9 mil thickness completely covering sides and extending sufficiently high to lock load to top cap and extending sufficiently downward to secure load to pallet.

Base— Wooden pallet of 4-way entry design.

GROSS WEIGHT: Not to exceed 600 pounds.

 Package 2494

(Add 'Package 2494' to page 795 of the classification.)

SHIPPING CONTAINER: A shrink or stretch wrapped palletized load of column-stacked corrugated trays, surrounded by corner posts and covered with a top cap.

Trays— Design style, 200-pound test corrugated fibreboard having a flange depth of not less than 1.5 inches. A corrugated fibreboard sheet, slit-scored and folded must form two full-height opposite sides in lengthwise dimension, integral corner posts at ends and a vertical partition at center. Sheet forming sidewall, corner posts and center partition must be adhered to inside tray flanges.

Corner Posts— Full-height edge protectors must be placed on all four vertical corners of palletized load.

Top Cap— Corrugated fibreboard testing not less than 200 pounds having a flange depth of not less than three inches.

Base— Wooden pallet or slip sheet of fibreboard or fibreboard and plastic.

Film— Plastic shrink or stretch film of sufficient strength or plies to maintain package integrity.

SPECIFICATIONS FOR NUMBERED PACKAGES

Package 22F

(Cancels 'Package 22F' from pages 807-808 of the classification.)

(1) Finish of furniture must be entirely dry, and fragile projecting hardware, knobs or pulls must be removed or adequately protected. Fragile galleries must be removed or protected with pads of sufficient thickness to provide level top. Fitted drawers and doors must be restricted from excessive movement.

(2) All finished surfaces must be protected by covering of nonabrasive material, except legs or pedestals which are 1½ inches or more away from container walls.

(3) In container made of corrugated fibreboard testing not less than 275 pounds, containers must be of regular slotted or overlap top construction, and must have bottom flaps or flanges not less than 3 inches wide, except as provided in Paragraph (7)(d).

(4) Clearance of not less than ¾ inch must be maintained for all finished surfaces by adequate forms of corrugated fibreboard

OR

molded corrugated fibreboard weighing not less than 50 pounds per 1,000 square feet, having 22 to 24 flutes per foot, backed with Kraft paper of not less than 50 pounds basis weight.

(b) All articles having tops of plastic material flush with edges, or tops having edges of plastic material, must be protected with edge or corner forms extending not less than 75 percent of length, of each edge. Such forms must be not less than 5 inches in length and extend not less than 2 inches over tops and edges, positioned along edge at intervals not exceeding 9 inches, securely held in place.

(c) L-shaped clearance forms, extending from bottom of container to at least top of article, must be placed in each corner of container, EXCEPT when no finished part other than top is within 1½ inches of container, the L-shaped forms need not be used, but clearance forms must extend completely around perimeter of top.

(d) Any top area exceeding 6 square feet or any other area exceeding 12 square feet between clearance forms must be reinforced through center of such area by additional clearance form.

(e) No detachable mirrors may be included unless mirror is packed in accordance with Paragraph (5)(d).

(5) (a) Container may be constructed with back flaps or flanges not less than 3 inches wide when used with a three-piece wood frame consisting of two uprights, extending from top to bottom of container, surmounted by horizontal piece, all pieces not less than ¾ inch x 2½ inches, securely attached to back of article.

(b) Frame must extend not less than ¾ inch above top and sides of article with flaps or flanges of container back attached to frame with coated nails, spaced not more than 15 inches apart or by wood or metal strips.

(c) Clearances on the front must be maintained by the forms and in the manner specified in Paragraph (4).

(d) When detachable mirror is included in package, clips, rosettes or similar fastenings must be removed, and mirror must be suspended on wood frame constructed of not less than four members made of not less than ¾ inch x 2½ inch lumber, except dressing or toilet tables with mirror secured to inside of top or lid need not have mirror detached. There must be not less than 1 inch clearance for mirror glass. When the frame containing the mirror is of sufficient size to extend not less than ¾ inch above top and beyond the sides of furniture, the frame may be substituted for the three-piece frame described in Paragraph (5)(a). All other clearances must be maintained as described in Paragraph (4).

(6) (a) Article must rest on a four-piece frame made of not less than ¾ inch x 2.5 inch lumber, diagonally braced, double-nailed or double-stapled OR a full-dimension solid sheet of ½-inch-thickness particleboard or waterboard.

(b) In addition to frame OR platform, articles with pedestal legs must be suspended and other articles may be suspended on doublewall fibreboard forms testing not less than 275 pounds, or wood forms not less than ¾ inch x 3.5 inches. Articles with legs detached must have bottom edges protected from direct contact with wood base frame by pads, padding or furniture glides.

(c) Frame OR platform must fit into base of container and, when container has bottom flanges, such flanges must fold over frame OR platform and be securely nailed or stapled at each corner with two nails or staples and an additional nail every 15 inches or fraction thereof, or an additional staple every 8 inches or fraction thereof, of perimeter of base frame. Nails must be coated and have heads not less than ¾ inch diameter or nails with washers of not less than ¾ inch diameter. Staples must be made of ½ inch steel wire with crown not less than 1½ inch, and with ¾ inch legs diverging into the wood, OR with crown not less than 1 inch and with 2½ inch legs diverging into the wood. In lieu of nailing or stapling, container flanges or flaps may be secured by two wood runners nailed or stapled lengthwise to package. Staples must be made from 16-gauge galvanized flattened steel wire, gum-coated, with crown not less than ½ inch and with legs 1½ inches diverging into the wood.

(7) (a) Articles in containers as specified in Paragraph (3) must rest on platform full inside dimensions of container made of doublewall fibreboard testing not less than 275 pounds, constructed of not less than two thicknesses of such board, corrugations of one thickness at right angles to that of the other thickness. Board must be scored and folded so that not less than four thicknesses of board parallel the long dimension of container full length, and legs or bottom of articles must rest on such four thicknesses.

(b) In addition to fibreboard platform, articles with pedestal legs must be suspended, and other articles may be suspended, on doublewall fibreboard forms testing not less than 275 pounds, or wood forms not less than ¾ inch x 3½ inches.

(c) When container has bottom flanges, such flanges must be glued over their entire area to corrugated platform. When container has inner and outer flaps, such flaps must be closed as specified in Paragraph (8) but need not be secured to corrugated platform;

OR

(d) When container has no flanges or flaps at bottom, articles must fit into tray constructed of not less than ¾ inch x 2 inch lumber consisting of two pieces forming runners and four pieces on edge forming sides and ends. Container must be nailed or stapled through container walls into wood tray with nails spaced every 15 inches or fraction thereof or with staples every 8 inches or fraction thereof of perimeter of tray. In addition to tray, articles with pedestal legs must be suspended, and other articles may be suspended, on doublewall fibreboard forms testing not less than 275 pounds, or wood forms not less than ¾ inch x 3½ inches. Articles with legs detached must have bottom edges protected from direct contact with wood base frame by pads, padding or furniture glides. All nails used to fasten container to tray must be coated and have heads not less than ¾ inch diameter or with washers of not less than ¾ inch diameter; staples must be made of ½ inch steel wire flattened to .070 x .050 inch, with crown not less than one inch and with 2½ inch legs diverging into the wood.

(8) Containers must be closed in compliance with Item 222, Section 7. When nonreinforced paper sealing tape is used, such tape must be not less than 3 inches wide. Nonreinforced paper tape must not be used as the primary closure method when gross weight exceeds 70 pounds.

TL Shipments

When shipped in straight truckloads or mixed truckloads of furniture, containers may test not less than 200 pounds. Such containers will not be accepted for reshipment in LTL service nor in mixed truckloads with articles other than furniture, and such containers testing not less than 200 pounds must be marked 'NOT ACCEPTABLE FOR LTL SHIPMENTS.'

APPENDIX TO SUPPLEMENT 7 TO NMF 100-Q

SUMMARY OF CHANGES

IN

NATIONAL MOTOR FREIGHT CLASSIFICATION

NMF 100-Q

AS SET FORTH

IN SUPPLEMENT 7

(Exhibit A Hereof)

APPENDIX TO SUPPLEMENT 7 TO NMF 100-Q

ISSUED: January 16, 1991

EFFECTIVE: February 16, 1991

A numeric directory of changes being published in this Supplement is listed below. Explanations of each change and the National Classification Committee's justifications for the amendments, additions or deletions are provided herein. The following abbreviations are utilized: LTL (Less Than Truckload); TL (Truckload); MW (Minimum Weight Factor); AQ (Any Quantity); PCF (Pounds Per Cubic Foot); *indicates a new item or new package.

535	45970	61552	93053	153760

Item (Rule) 535, Expiration Dates, is being amended to show an expiration date of February 16, 1993, for the provisions of items 84325 and 84326, and an expiration date of September 1, 1991, for a portion of the provisions of Package 2482.

These expiration dates are the result of action taken on Subjects 3 and 23 of Docket 908.

Items 10790, Cabs, seat, 19360, Seat Cabs or Sleeping Cabs, and 116330, Cabs, Seat, NOI, are cancelled with reference to new item 39515, naming "Cabs, seat, NOI; Cabs, seat or sleeping, separate or combined, motor truck; or Guards, operator, canopy type," in the interest of tariff clarification and simplification. The assigned full-scale density provisions are reflective of the transportation characteristics of these products, including a density range from 0.9 to 21.82 pcf. They are generally shipped in crates, and some units may be excessively large or heavy, requiring special attention in handling and stowing. Seat cabs, sleeping cabs or operator guards range in value from \$1.35 to \$5.87 per pound, and there is no indication of a claims problem. The Notes, items 10794 and 116334, are cancelled and relisted as new item 39516.

These changes are the result of action taken on Subject 4 of Docket 908.

Item 12530 - See justification for item 39120.

Items 15070, 15080, 15100, 15120, 15140, 15160 and 15180 are cancelled with reference to new item 15190, naming "Ashes, NOI; or Ashes or Cinders, coal," with class 50 LTL, 35 TL and 40 MW.

Items 49990, 49992, 49993 and 49994 are cancelled with reference to item 49995; concurrently, the description of item 49995 is amended to read "Coke, NOI, including Breeze, Creosote, Dust, Pitch or Tar," with no change in the applicable classes.

Items 55160, 55170 and 55180 are cancelled with reference to new item 55190, naming "Curtain Poles or Rods," with two subprovisions: Sub 1, "Metal or metal covered; or wooden, finished or stucco covered; with or without fixtures," at class 70 LTL, 45 TL and 30 MW; Sub 2, "Wooden, NOI, in the rough or in the white," at class 60 LTL, 35 TL and 36 MW.

Items 187900, 187920 and 187940 are cancelled with reference to new item 187950, naming "Turpentine, NOI, including Pinene or Wood Turpentine," at class 55 LTL, 35 TL and 40 MW.

These changes are the result of action taken on Docket 908, Subject 5.

Item 19360 - See justification for item 10790.

The provisions of item 39120, "Butadiene," are cancelled and the Sub 1 provisions reestablished under the Chemicals generic heading as item 43565. Furthermore, the Sub 2 provisions of item 39120, which apply on tank truck shipments of butadiene, are cancelled as obsolete.

Item 46050, "Silica Gel or Silica Gel Catalyst," is amended to include the term "Desiccants."

Item 49390, "Dry Goods, NOI," is amended to the so-called "viz." format and specifically names towels, NOI, sheets, NOI, washcloths, NOI, pillowcases, NOI and curtains and draperies, NOI.

Item 57880, "Goggles, eye protection," is amended to name "Safety Glasses."

Item 60540, "Aerials or Antennas, television receiving, other than parabolic," is cancelled with reference to item 60535. Concurrently, item 60535 is amended to name "Aerials or Antennas, or Parts thereof, viz.: Aerials or Antennas, television receiving, other than parabolic; Aerials or Antennas, television receiving, directional, parabolic; Bowls, Reflectors or Screens, directional or parabolic antenna, or Sections thereof; Enclosures, Housings or Domes, directional or parabolic antenna." There is no change in classes. Also, Note, item 60541, is cancelled as having no further application; Note, item 60542, is cancelled with reference to item 60537; and new Note, item 60538, is established to specify packaging requirements.

Item 61552, "Detectors, fire, heat or smoke," is amended to include the phrase "Smoke Alarms." In addition, the Note, item 61553, which contains the "inadvertence clause" subject to item 61552, is amended to clearly indicate how shipments will be classified when they are inadvertently accepted without a shipper-provided certification of value.

Item 62120, "Generators or Motors, or Parts thereof," is amended to name "Alternators." In addition, the Note, item 62121, which contains the "inadvertence clause" subject to item 62120, is amended to clearly indicate how shipments will be classified when they are inadvertently accepted without a shipper-provided certification of value.

Item 91890, "Gypsum Board, viz.: Gypsum Backing Board, Gypsum Formboard, Gypsum Lath, Gypsum Sheathing, Gypsum Wallboard," is amended to name "Sheetrock" (which, as a recognized trade name, will carry the symbol (T)) and "Dry Wall."

Item 93050, "Assemblies, bolt, nut or screw, or Clips, Fasteners or Mounts," is cancelled, and the provisions reestablished under new item 93490 as "Bolts, Nuts or Screws, steel, mounted on steel clips, fasteners or mounts; or Clips, Fasteners or Mounts, steel, for holding and fastening bolts, nuts, nails, prongs or screws," with no change in classes.

Item 93053, "Assemblies, concrete anchor, iron or steel," is cancelled, and the provisions reestablished under new item 94353 as "Concrete Anchors, iron or steel," with no change in classes.

Item 93055, "Assemblies, nail or prong," is cancelled, and the provisions reestablished under new item 95940 as "Nails or Prongs, metal," with no change in classes.

Item 93057, "Assemblies, nail," is cancelled and the provisions reestablished under new item 95935 as "Nails, steel, with plastic shield," with no change in classes.

Item 100080, "Horns or Signals, sound warning, NOI," is cancelled and new item 12530 established to name "Alarms, Horns or Signals, sound warning, NOI," with no change in classes.

Item 101760, "Ink, printing, NOI, or Ink Materials, NOI," is amended to read "Ink and Related Materials, viz.: Bases, color, ink; Compounds, ink reducing, thickening or thinning; Driers, ink; Extenders, ink; Ink, brush or stencil marking; Ink, printing, NOI; Plasticizers, ink; Solvents, ink; Varnishes, ink," with no change in classes.

Item 149265 is amended by the addition of a clarifying note, new item 149269, stating that polyethylene, polypropylene and polystyrene in sheet form having a density of less than 1 pcf are classified under the provisions of item 157463.

Item 153760, "Pads, Tablets or Blank Books, ruled or not ruled," is amended to name "Composition or Spiral Notebooks."

Item 156600, "Plastic or Rubber Articles, other than expanded, NOI," is amended to name "Filmstrip or Audio or Video Cassette Storage Albums," and "Caps, Covers, Discs, Ends, Bands, Rings or Tops, NOI, for bottles, cans, cups, collapsible tubes, glasses, jars or jugs." These commodities were originally named in other items which were previously cancelled with reference to item 156600.

The provisions for pads or padding and cushions or pillows are cancelled from item 157320, Plastic or Rubber Articles, expanded, with reference to item 149265, Pads, Padding, Cushions or Pillows, with identical full-scale density provisions.

The Note, item 157346, which specifically restricts polypropylene, polyethylene and polystyrene in sheet form and having a density of less than one pcf from applying under the provisions of item 157320, is amended to specify that these commodities are classified under the provisions of item 157463.

Item 186870, which names a variety of forged hand tools, is amended to read, "Bars, claw, or wrecking, or crowbars."

All of these changes are meant to improve the usability of the Classification, and as such are in keeping with NCC policies and directives with respect to tariff simplification, clarification and uniformity.

These changes are the result of action taken on Subject 7 of Docket 908.

Items 39515 and 39516 - See justification for item 10790.

Item 42315, Cereals, NOI and item 42330, Cereals, Bran, etc., have been amended to reference new Package 2493.

Concurrently, Package 2493, describing a stretch wrapped, palletized unit load of cartons is established. Package 2493 has been successfully tested in the field under the provisions of Test Shipment Permit T-904-7, with no reports of damage.

This change is the result of action taken on Docket 908, Subject 20.

Item 43565 - See justification for item 39120.

Item 45970, Sub 1, proprietary anti-freeze or engine coolant preparations, is amended to reference Package 2494. Concurrently, Package 2494 is established in the Classification, describing a shrink or stretch wrapped palletized load of column stacked corrugated trays, surrounded by corner posts and covered with a top cap. Package 2494 has moved under the provisions of Test Shipment Permit T-8910-24 since October, 1989. Since that time, of 74 shipments containing 396 palletized units, there have been only two reports of damage.

These changes are the result of action taken on Docket 908, Subject 24.

Items 46050 and 49390 - See justification for item 39120.

Items 49990, 49992, 49993, 49994, 49995, 55160, 55170, 55180 and 55190 - See justification for item 15070.

Item 56740, naming "Droppers, medicine (Eye Droppers), or Medicine Droppers and Bottle Caps combined," is amended by adding one subprovision for those having plastic tubes at class 175 LTL, 125 TL and 10 MW, and one subprovision for those having glass tubes at class 70 LTL, 40 TL and 36 MW. Information of record indicated a density range from 4.03 to 7.10 pcf, with an average density of 5.60 for medicine droppers with plastic tubes, and a density range from 19.20 to 27.93 pcf, with an average density of 23.94 pcf for medicine droppers with glass tubes. No unusual handling, stowing or liability characteristics were indicated.

This change is a result of action taken on Subject 1 of Docket 908.

Items 57880, 60535, 60538, 60540, 60541, 60542, 61552 and 61553 - See justification for item 39120.

New item 62030, naming "Foot Baths, Foot Spas or Foot Tubs, portable; with vibratory, whirlpool or other water-agitating apparatus, with or without heating apparatus, in boxes," under the ELECTRICAL EQUIPMENT GROUP, is added to the Classification. The approved classes are 200 LTL, 125 TL, with a minimum weight of 10,000 pounds. Concurrently, an attendant Note, item 62031, is established to specify application of the new provisions on commodities which can operate without water.

The classes in the new item are reflective of the following transportation characteristics. These commodities are shipped in boxes which have a density ranging from 2.75 to 5.52 pcf, with an average density of 4.08 pcf. Value, as a measure of liability assumed, ranges from \$3.00 to \$6.68 per pound with an average value of \$4.18 per pound. There are no unusual handling or stowability characteristics associated with these products.

This is a result of action taken on Docket 908, Subject 6.

Items 62120 and 62121 - See justification for item 39120.

Item 69100, having application on "Filters, NOI," is amended to establish full-scale density provisions, in lieu of classes of LTL 100, TL 55 and MW 24.

Facts of record regarding commodities moving under the provisions of item 69100 revealed densities ranging from .95 to over 30.0 pcf. These densities were found to be evenly distributed throughout the range, causing the Committee to approve full-scale density provisions. Such action has taken place in the past under similar circumstances.

Also, new Note, item 69101, which details the "bumping" provision, is established.

The amended provisions are the result of Subject 11, Docket 908.

Item 79024, furniture blankets or pads, is amended by adding new paragraph 31 which provides for a furniture blanket or pad consisting of a flat sleeve of 30 pound Kraft paper and a non-woven synthetic sheet. This paper alternative to the already specified plastic blankets or pads, is environmentally superior, since paper disintegrates more readily than plastic. Further, paper blankets or pads offer better tear resistance than the products already named. Additionally, Note, item 79028 is amended to reference item 79024, paragraph 31. This change is in the interest of tariff clarification.

These changes are the result of action taken on Docket 908, Subject 18.

Item 79550, naming "Mattresses and Upholstered Box Springs," is amended to also specifically name "Waterbeds." A new Note, item 79554 is also added specifying that the term "Waterbed," "Applies only on waterbeds consisting of a mattress (foam,

cellular, expanded or sponge plastic or rubber pad, integral water cylinders or bladder, and plastic liner; with fabric covering) with or without a pedestal or platform." The redundant packaging provisions are also eliminated in the interest of tariff clarification. In addition, the Note, item 79551 is cancelled with reference to new Note, item 79553, providing exceptions to the packaging requirements. Concurrently, two new subprovisions are established to provide classes based on density. Sub 1 will provide for those products exhibiting a density in pounds per cubic foot of "Less than 4," at class 250 AQ, while Sub 2 will provide for those having a density in pounds per cubic foot of "4 or greater," at class 200 AQ.

Mattresses, Box Springs and Waterbeds having a density of less than 4 pcf were found to exhibit densities ranging from 1.58 to 3.98 pcf, with an average density of 2.88 pcf. Those products which exhibit a density of 4 pcf or greater ranged from 4 to 10 pcf, with an average density of 5.50 pcf. Their handling and stowing characteristics were found to be less than favorable due to their light and bulky nature. The liability characteristics were not shown to be a problem, although these products are somewhat susceptible to puncture damage and claims resulting from the product becoming soiled during transit.

These changes result from action taken on Subject 14 of Docket 908.

New item 84325 is being established to provide specifically for "Games or Toys, NOI, wooden or wood and steel combined, other than rocking horses or shooflies, having a density of 30 pounds or greater per cubic foot" at class 65 LTL, 35 TL at 40 minimum weight in recognition of an average density of 34.40 pounds per cubic foot and the relatively low value for these articles exhibiting densities of 30 pounds or greater per cubic foot.

In addition, new Note, item 84326, is being established to provide information to the tariff user as to how shipments will be classed when the shipper fails to declare the density.

Finally, item 85000, which provides an alternating TL class/minimum weight scale for several items in the Games or Toys Group, is being amended to exclude new item 84325 from its provisions. An expiration date of February 16, 1993 is added to the involved items.

Changes result from handling accorded Subject 3 of Docket 908.

Items 91890, 93050, 93053, 93055, 93057, 93490, 94353, 95935, 95940, 100080 and 101760 - See justification for item 39120.

Items 116330 and 116334 - See justification for item 10790.

Item 123640 covering "Cooling or Freezing Machines or Gas or Liquid Compressors, old, used, etc." is being amended to remove the reference to used "Gas or Liquid Compressors" in conjunction with the addition of a new entry explained below. The attendant notes, items 123642 and 123644 are amended in the interest of tariff clarification and Note, item 123646, is cancelled as having no further application.

Concurrently, New item 123665 is being added to specifically provide for old, used gas or liquid refrigeration compressors having an actual value not exceeding \$1.50 per pound. Classes 70 LTL, 40 TL at 36 minimum weight are being assigned when density is less than 30 pounds per cubic foot and 60 LTL, 35 TL at 40 minimum weight when density is 30 pounds or greater per cubic foot. Density of all products ranges from 19.95 to 74.12 pounds per cubic foot.

Note, item 123666, is being added to provide clear direction to the tariff user as to the provisions which will apply in the event of inadvertently accepted shipments without a shipper-provided declaration of either density or value.

Changes result from handling accorded Subject 10 of Docket 908.

Items 149265, 149269 and 153760 - See justification for item 39120.

Item 156600, applying on "Plastic or Rubber Articles, other than expanded, viz.: Articles, NOI; Boot or Shoe Forms or Trees, other than display forms or trees; Garbage or Refuse Cans; Pipe Fittings," with classes based on density, is being amended by specifically naming "Liners, swimming pool, plastic film or sheeting."

Swimming pool liners made of plastic film or sheeting are presently classified in item 156600. There is an interpretation problem, however, with some shippers reportedly misclassifying these liners per item 156830, naming "Plastic Film or Sheetting, other than cellulose." (The involved liners are more than just plastic film or sheeting, as they consist of sheets which have been sealed together and formed to shape. Hence, item 156830 is not considered applicable.)

Specifically naming these liners in item 156600 will clarify to tariff users that that item applies.

This change is the result of action taken on Docket 908, Subject 15. Also, see justification for item 39120.

Items 157320, 157342 and 157346 - See justification for item 39120.

Item 182460, "Tile, Facing or Flooring; or Molding, Facing, Baseboard or Cove, other than metal: Composition, NOI," and item 182640, "Tile, Facing or Flooring; or Molding, Facing, Baseboard or Cove, other than metal: Rubber Composition, other than foam rubber," are amended to provide two subprovisions with classes based on density. The subprovisions for both items are identical, with Sub 1 providing for those products exhibiting a density in pounds per cubic foot of "Less than 35," at class 70 LTL, 35 TL and 36 MW. Sub 2 provides for those products with a density in pounds per cubic foot of "35 or greater," at class 60 LTL, 35 TL and 36 MW.

This results in no changes to the applicable classes for those products having a density of less than 35 pcf and a reduction for those products having a density of 35 pcf or greater.

These changes are the result of action taken on Docket 908, Subject 16.

Item 186870 - See justification for item 39120.

Items 187900, 187920, 187940 and 187950 - See justification for item 15070.

Package 256, which is approved for the shipment of electric incandescent lamps (light bulbs) per items 109550 and 109600, is amended by increasing the distance between the flaps on the top and the bottom of the box from 3/4 to 5 inches; by adding a specification that the box must be firmly glued in not less than 50 percent of the area of contact; and by restricting the allowable gross weight to not exceed 25 pounds. These changes are reflective of common industry practice. Additionally, this method reduces the cost of producing the package, as less fibreboard is used.

These changes are the result of action taken on Docket 908, Subject 26.

Package 2368, which is authorized for the shipment of baby food, is amended to allow the individual packages to have end openings not exceeding 1/2 of the exposed height of the inner containers when the package is unitized on and secured to pallets by stretch or shrink film. The Package is also amended to allow the shrink film to only cover the contents of the tray provided that the film is adhered to the tray sidewalls. This type of packaging method has been the subject of strenuous laboratory tests and has moved successfully under test shipment permit, with no reports of damage.

These changes are the result of action taken on Subject 25 of Docket 908.

Package 2482, authorized for the shipment of refrigerators, has been amended to provide the option of a fibreboard base in lieu of the already specified polystyrene base. Laboratory tests indicate that a base constructed of fibreboard offers better protection than a base made of polystyrene.

Concurrently, an expiration date of September 1, 1991 has been added to the provisions allowing a polystyrene base, at which time the base must be constructed of fibreboard.

These changes are the result of action taken on Docket 908, Subject 23.

Package 2493 - See justification for item 42315.

Package 2494 - See justification for item 45970.

Package 22F, authorized for the shipment of a variety of furniture, is amended to provide the option for furniture to rest on a particleboard or waferboard platform as an alternative to the four-piece frame presently specified in the Package. This change will provide greater protection to the furniture when it is being handled by a forklift since the bottom of the article will not be exposed.

This change is the result of action taken on Subject 22 of Docket 908.

Respectfully submitted,

NATIONAL MOTOR FREIGHT TRAFFIC
ASSOCIATION, INC.
