} Special Tariff Docket,  
Request Numbered Same as  
Order Number Above.

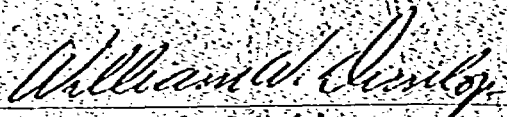

In conformity with the findings and order made by the Commission in a resolution entered this day, the request, copy of which is attached hereto and by this reference made a part hereof, is granted, subject to the following conditions:

1. That applicants shall search out and avoid publishing or thereafter maintaining any joint through rate in excess of the combination of applicants' local rates for the transportation of a like kind of property between the same points. In the event any combination of applicants' published local rates is found to make a lower rate than the joint through rate published pursuant to the authority herein granted, applicants shall immediately adjust the higher through rate in accordance with Rule 5.7(h) of General Order No. 80-A.

The authority herein granted is limited strictly to its terms, and shall expire unless the tariff provisions authorized herein are published and filed in the San Francisco office of this Commission within ninety days after the date hereof. The item of tariff or supplement issued pursuant to this order shall bear reference to this order in substantially the following form:

"Authorized by Cal. P.U.C. Order No. STD— 6042"

Gentlemen: RE: Agent C.R. Nickerson's STD Application No. 582

This has reference to Agent C.R. Nickerson's Special Tariff Docket Application No. 582, dated April 4, 1969, for and on behalf of E. Guy Warren, doing business as Warren Transportation Company and Garden City Transportation Co., Ltd. requesting authority to establish and maintain joint rates between these two companies in Warren Transportation Company Freight Tariff No. 1, Cal.P.U.C. No. 1.

The two carriers involved in Application No. 582 intend to participate jointly in connection with traffic moving under Class Rates only, and publication when made will be restricted accordingly.

Will you please amend Application No. 582 to the effect that proposed joint rates therein requested will be restricted to traffic moving under minimum class rates prescribed by the Commission and presently on file in Warren Transportation Company Freight Tariff No. 1, Cal.P.U.C. No. 1, and oblige.

Respectfully yours,

*C. R. Nickerson*  
C.R. Nickerson, Agent.

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA  
SPECIAL TARIFF DOCKET REQUEST

*PRO*

April 4, 1969

APPLICATION NO. 562

The request of Agent C. R. Nickerson, 9 First Street, San Francisco 5, California, in the name and on behalf of E. Guy Warren, doing business as Warren Transportation Company Freight Tariff No. 1, Cal. P.U.C. No. 1, jointly with Garden City Transportation Co., Ltd. acting under authority of power of attorney or formal concurrence on file with the Commission from each of said carriers, respectfully shows:

1. An order is requested under Section(s) 460 and 491 of the Public Utilities Code to put in effect five days after publication at stations and filing with the Commission the following:

**PROPOSED PUBLICATION:** To establish and maintain joint rates between all points served by Warren Transportation Company, E. Guy Warren, dba, on the one hand, and on the other, all points served by Garden City Transportation Co., Ltd, with interchange of traffic at either San Jose or Hayward, California.

For complete details, please see Exhibit "A" attached to and by reference thereto, made a part of this application.

**RESULTS:** In a reduction.

2. The proposed rates are intended to be published in Cal. P. U. C. No. #1 and will supersede and take the place of rates on like traffic from and to the points above named which are set forth in Cal. P. U. C. No.      on file with the Commission and which rates are as follows, to wit:  
Proposed publication will displace combination of local rates over junction points.
3. This application is based upon the following facts and circumstances:  
#of E. Guy Warren doing business as Warren Transportation Company.

For justification in support of this application, as well as examples of Section 460 departures, please see Exhibit "A" (2 pages) attached hereto and made a part hereof.

Your petitioner for and on behalf of carriers parties hereto, will appreciate authority to establish proposed adjustment upon five (5) days notice to the Commission and to the Public, based on justification outlined herein.

I hereby certify under penalty of perjury that the foregoing is true and correct.

AGENT C. R. NICKERSON'S SECTION 460 AND SECTION 491 APPLICATION NO.  
562, DATED APRIL 4, 1969

PROPOSED PUBLICATION

**TARIFF:** E. Guy Warren, Doing Business As WARREN TRANSPORTATION COMPANY, Local Freight Tariff No. 1, Cal. P.U.C. No. 1.

**PROPOSED**

- PUBLICATION:**
- 1: To establish and maintain joint rates between all points on Warren Transportation Company, E. Guy Warren, Doing Business as, on the one hand, and on the other, all points on Garden City Transportation Co., Ltd. Traffic via such joint route to Interchange at either San Jose or Hayward, California.
  - 2: Add the following as participating carrier in the tariff:  
GARDEN CITY TRANSPORTATION CO., LTD  
under outstanding concurrence AF2 No. 14, issued by Garden City Transportation Co., Ltd., in favor of E. Guy Warren, Doing Business as Warren Transportation Company.
  - 3: Amend Title Page and Pages 1 to 48 inclusive, of the Tariff by changing that portion reading: "Local Freight Tariff No. 1" to read: "Local and Joint Freight Tariff No. 1"

THAT such joint rates when established, will be on the same level as minimum rates prescribed by the Commission in Minimum Rate Tariff No. 2, and are published on the same level in E. Guy Warren, Doing Business as Warren Transportation Company, Tariff No. 1, Cal. P.U.C. No. 1.

**RESULTS:** In a reduction.

JUSTIFICATION

C. R. Nickerson, Agent and Attorney acting under power of attorney on file from carriers parties to this application, desires to set forth the following facts and circumstances in support of this application:

E. Guy Warren, doing business as Warren Transportation Company and Garden City Transportation Co., Ltd. have instructed publication of joint rates for their account, with interchange of traffic at either San Jose or Hayward, California, to enable them to compete with other motor carriers who serve the same territory either locally or jointly with other motor carriers.

THAT without such joint rates, shippers using the combined facilities of these two carriers are forced to pay charges based on a combination of local rates over the junction point, which is not economically feasible for them to do, hence, carriers parties hereto, are at a disadvantage to compete upon equal and competitive terms with other motor carriers that can offer such service to the shippers.

(Exhibit "A" concluded on Page 2 hereof)

-TO-

AGENT O. R. NICKERSON'S SECTION 460 AND SECTION 491 APPLICATION NO.  
582, DATED APRIL 4, 1969

---

JUSTIFICATION - Concluded

THAT when such joint rates are established, some departures from the terms of Section 460 of the Public Utilities Code will exist as indicated by the following Examples:

EXAMPLES OF SECTION 460 DEPARTURES

EXAMPLE 1:-On a shipment moving from Hollister (served by applicant Garden City Transportation Co., Ltd), and destined to Merced (served by applicant E. Guy Warren, doing business as Warren Transportation Company), the direct constructive mileage is 85 miles, and the resultant any quantity class 100 rate is 299 cents per 100 pounds.

EXAMPLE 2:-On a shipment moving from San Jose (served by applicant E. Guy Warren, doing business as Warren Transportation Company) and destined to Merced (served by same applicant), the direct constructive mileage is 125 miles (M2-125) to Merced, and the resultant any quantity class 100 rate is 313 cents per 100 pounds.

Consequently, on a shipment moving from Hollister to Merced via proposed joint route via San Jose, higher rates will exist from San Jose to Merced although, via the proposed joint routing, San Jose will be directly intermediate between origin point of Hollister and destination point of Merced. Such departures as herein pointed out, however, are no higher than previously authorized by the Commission for application via other Motor Carriers, and presently in effect.

In conformity with the findings and order made by the Commission in a resolution entered this day, the request, copy of which is attached hereto and by this reference made a part hereof, is granted, subject to the following conditions:

1. That schedules containing the rates authorized herein shall make reference to prior authorities granting the long and short haul departures and to this authority.
2. That the authority herein granted shall not supersede or be in lieu of any outstanding authority heretofore granted under Section 460 of the Public Utilities Code.
3. The point of Avon referenced circle one three eight (138) shall be amended to circle one three five (135).
4. The point of South Oxford referenced circle one dash d (1-D) shall be amended to circle one dash o (1-O) and also include Southern California Edison Company.

The authority herein granted is limited strictly to its terms, and shall expire unless the tariff provisions authorized herein are published and filed in the San Francisco office of this Commission within ninety days after the date hereof. ### SPECIAL TARIFF DOCKET REQUEST

WESTERN MOTOR TARIFF BUREAU, INC., AGENT, by W. J. Knoell, Tariff Issuing Officer, for and on behalf of all carriers participating in Western Motor Tariff Bureau, Inc., Agent, Rail Freight Station List No. 1-A, Cal. P.U.C. No. 16

hereby applies for authority under Section Nos. 454 - 460 - 491 of the Public Utilities Act for an order granting permission to establish the following rates, rules and regulations to become effective on five (5) days notice:

To establish rates, rules, regulations and other provisions as set forth in Exhibit "A" attached hereto and made a part hereof. The proposed rates are intended to be published in Western Motor Tariff Bureau, Inc., Agent, Rail Freight Station List No. 1-A, Cal. P.U.C. No. 16

and will take the place of the rates of like traffic from and to said points, as set forth herein.

This application is based upon the following special circumstances and conditions:

For justification, see Exhibit "B" attached hereto and made a part hereof.

In view of the above special circumstances and conditions, your petitioner respectfully requests that the authority herein sought be granted.

I hereby certify under penalty of perjury that the foregoing is true and correct.

EXHIBIT "A"

PROPOSED PUBLICATION

It is proposed to amend Rail Freight Station List No. 1-A, Cal. P.U.C. No. 16 as set forth in Exhibit "C" attached hereto and made a part hereof.

EXHIBIT "B"

JUSTIFICATION

The proposed amendments to subject Rail Freight Station List No. 1-A are comparable to those changes made by the Official List of Open and Prepay Stations '83 (Station List Publishing Company, Agent) and in supplements thereto.

Authority is sought under Section 454 of the Public Utilities Code due to increases which have been created by the abandonment of stations by the competing rail carriers and the changing from agency to non-agency stations. An example of the abandonments would be the points of Kenefick and Lorraine, on 6th Revised Page 9-A of Exhibit "C". Subject stations have been abandoned by the rail lines and service is no longer available to those points. Additional examples could be cited. An example of where the competing rail carriers have changed the status of a station from an agency to a non-agency would be the point of Arcadia as shown on 11th Revised Page 11 of Exhibit "C". Numerous additional examples could be shown. The authority sought is deemed necessary to prevent and correct technical violations of the Public Utilities Commission's Minimum Rate Order which, under alternative provisions provided, permits the motor carrier to provide no more service than that provided by the competing rail carriers.

Authority is sought under Section 460 of the Public Utilities Code due to the divergence in routing employed by motor carriers and the routes employed by competing rail carriers.

Authority is sought under Section 491 of the Public Utilities Code to publish the proposed changes on less than statutory notice to enable the motor carriers parties to the tariff to comply with the Commission's Minimum Rate Order and further to permit them to be more competitive with radial highway carriers and highway contract carriers who may meet competitive rail rates at will.

SPECIAL TARIFF DOCKET REQUEST

U 6048 04

RAD

San Francisco, Cal., April 11, 1969

Application No. 587

The request of Agent C. R. Nickerson, 9 First Street, San Francisco 5, California, in the name and on behalf of all carriers parties to Pacific Coast Tariff Bureau Tariff No. 9 Cal. P.U.C. No. 30 acting under authority of power of attorney or formal concurrence in the Tariff Cal. P.U.C. No. 30 on file with the Commission from each of said carriers, respectfully shows:

1. An order is requested under Section (s) 491 of the Public Utilities Code to put in effect one days after publication at stations and filing with the Commission the following:

ITEM: Item 10 (See Exhibit "A" hereof)

ACTION: Add the following point of origin to Note 1, paragraph (b):  
West Sacramento - Ideal Cement Company, Plant

APPLICATION: To apply only via Amaral Trucking (AIA).

RESULTS: In no change or reduction of charges.

2. The proposed rates are intended to be published in Cal. P.U.C. No. 20 and will supersede and take the place of rates on like traffic from and to the points above named which are set forth in Cal. P.U.C. No. 21 on file with the Commission and which rates are as follows, to wit:

Western Motor Tariff Bureau, Inc.; Local Freight Tariff No. 17, Item 2010.

3. This application is based upon the following facts and circumstances:

As justification in support of this application, your petitioner desires to state that Amaral Trucking has instructed complete transfer of rates and provisions now maintained for their account in Western Motor Tariff Bureau, Inc., Local Freight Tariff No. 17, Cal. P.U.C. No. 21 to your petitioner's Local Freight Tariff No. 9, Cal. P.U.C. No. 30.

The item in question is applicable via Amaral Trucking and contained in Item 2010 of Western Motor Tariff Bureau, Inc., Local Freight Tariff No. 17. Inadvertently the point of origin involved was not transferred, thus creating an unauthorized increase, if not corrected prior to the effective date of April 30, 1969.

Section 491 relief is sought in order that your petitioner may make the required amendment on one days notice to the Commission and the Public in order that the proposed publication can be made effective April 30, 1969.

I hereby certify under penalty of perjury that the foregoing is true and correct.

### SPECIAL TARIFF DOCKET REQUEST

WESTERN MOTOR TARIFF BUREAU, INC., AGENT, by W. J. Knoll, Tariff Issuing  
Officer, for and on behalf of all carriers participating in Local,  
Joint and Proportional Freight and Express Tariff No. 109, Cal. P.U.C.  
No. 13

hereby applies for authority under Section Nos. 460 - 491  
of the Public Utilities Act for an order granting permission to establish  
the following rates, rules and regulations to become effective on  
five (5) days notice:

To establish rates, rules, regulations and other provisions as set  
forth in Exhibit "A" attached hereto and made a part hereof.  
The proposed rates are intended to be published in Western Motor Tariff  
Bureau, Inc., Agent, Local, Joint and Proportional Freight and Express  
Tariff No. 109, Cal. P.U.C. No. 13

and will take the place of the rates of like traffic from and to said  
points, as set forth herein.

This application is based upon the following special circumstances and  
conditions:

For justification, see Exhibit "B" attached hereto and made a part hereof.

In view of the above special circumstances and conditions, your petitioner  
respectfully requests that the authority herein sought be granted.

I hereby certify under penalty of perjury that the foregoing is true and  
correct.

## EXHIBIT "A"

## PROPOSED PUBLICATION

It is proposed to publish in Section 1 of the subject tariff a new item as shown below:

COMMODITY	FROM	TO	RATE	MIN. WT. IN LBS.
Woodpulp	1518 Samoa	1704 Marysville 2034 Anderson	① 37	120,000

① Applies only via MWP Schellville SP.

## EXHIBIT "B"

## JUSTIFICATION

The proposed amendment is based upon alternative application provisions as contained in the Commission's Minimum Rate Tariffs and authority was taken from Pacific Southcoast Freight Bureau, Tariff No. 16-S, Item No. 3005-I contained in Supplement No. 75 and Ex Parte No. 259-A. Applicant has been charging class rates in the past.

Authority is sought under Section 460 of the Public Utilities Code due to the divergence in routing between that employed by applicant and that employed by competing rail carriers. An example of where authority is necessary under Section 460 would be a shipment originating at Index No. 1518 Samoa and destined to 2034 Anderson. In all probability this shipment would move southeast via California State Highway 299, passing through the intermediate point one mile northwest of Anderson, which is not served by competing rail carriers. This would require applicant to charge class rates to this point which are higher than the rates proposed to be published. Therefore, authority is sought to depart from Section 460 of the Public Utilities Code in order that no so-called long-short haul violations exist. This is merely one example utilizing only one point of origin and one point of destination proposed to be published. Any number of examples could have been cited, utilizing all points of origin and all points of destination proposed to be published.

Authority is sought under Section 491 of the Public Utilities Code to publish the proposed changes on less than statutory notice for the reasons set forth above and in order that carriers may be competitive with permitted carriers who may charge the proposed rates at will.

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE  
STATE OF CALIFORNIA  
SPECIAL TARIFF DOCKET REQUEST

The request of Emery Air Freight Corporation, Wilton, Connecticut  
06897, respectfully shows:

1. An order is requested to depart from Division 1, Part 1, Chapter 3, Article 1, Section 454 of the Public Utilities Code of the State of California.
2. This application is based upon the following facts and circumstances:

Your petitioner has recently filed in all of its inter-state tariffs to cancel service to and from Santa Barbara, California. This action was taken because it had been brought to the attention of your petitioner that the present air service to and from Santa Barbara is not adequate to handle the volume of freight generated to and from this point. Your petitioner feels it is a disservice to the shipping public to quote rates in a tariff which require a specific level of service and then not provide it. Evidently, this is the same position certain shippers maintain as indicated in their letters of complaint filed with the Commission on the subject of inadequate air service to and from Santa Barbara.

In view of the above, your petitioner now desires to cancel Santa Barbara from our California Intrastate Tariff, P.U.C. No. 6, as an interim measure only. Your petitioner presently has pending before the appropriate interstate governing body a petition to provide service to and from Santa Barbara over the airport city of Los Angeles. A copy of this petition is attached for your information.

Your petitioner proposed to file a similar request with the Public Utilities Commission as soon as the Interstate Regulatory Agency makes known their position on our petition. However, if your petitioner is permitted to cancel Santa Barbara from its tariff at this time, it is with the understanding that if adequate air service is again commenced to and from Santa Barbara, rates will be reinstated.

I hereby certify under penalty of perjury that the foregoing is true and correct.
