**SUBJECT:** Coast Mobilphone Service. Order authorizing a late payment charge of 1 1/2 percent per month, and a charge of \$10.00 for each check not honored by a bank. The expected revenue effect is minimal. Resolution No. T-11021.

**WHEREAS:** Coast Mobilphone Service, by Advice Letter No. 10, filed March 6, 1986, requests authority under Section 454 of the Public Utilities Code to make effective the following revisions:

1. To establish a late payment charge of 1 1/2 percent per month.
2. To authorize a charge of \$10.00 for each check not honored by a bank.

Each of these charges agrees with current industry practices.

Customers were advised of these proposed changes during December, 1985, and no protests have been received.

The expected increase in revenue is less than \$100 per annum. The charges authorized are primarily intended as deterrents. The utility is also by this filing eliminating an excess message charge for tone-and-voice paging, which has been found to be unnecessary in practice.

The Commission finds that the rates, charges and conditions authorized in this Resolution are just and reasonable and that present rates, charges and conditions, as they differ from the rates, charges and conditions authorized in this Resolution are for the future unjust and unreasonable; and good cause appearing,

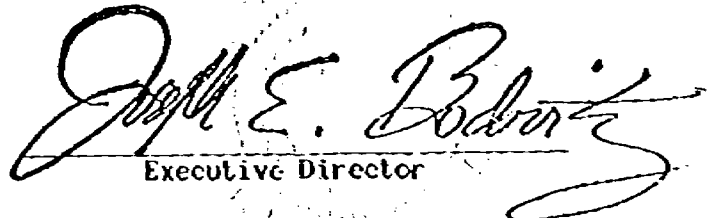

IT IS ORDERED that:

- (1) Authority is granted to make the above revisions effective on April 6, 1986.

(2) Revised Cal. P.U.C. Sheet No. 89-T shall be marked to show that such sheet was authorized by Resolution of the Public Utilities Commission of the State of California No. T-11021.

The effective date of this Resolution is today.

I hereby certify that the foregoing Resolution was duly introduced, passed and adopted at a regular meeting of the Public Utilities Commission of the State of California, held on April 2, 1986, the following Commissioners voting favorably thereon:
