SUBJECT: Bay Area Teleport. Order authorizing deviations from
General Order No. 96-A. Resolution No. T-11066.

WHEREAS: BAY AREA TELEPORT, by Advice Letter No. 2 filed July 24, 1986,
requests authority under Section 490 of the Public Utilities Code to deviate
on an ongoing basis from the requirements of General Order No. 96-A in the
following manner:

To deviate from the pagination requirements of paragraph II.C.(1)(b)
which requires consecutive sheet numbering and prohibits the reuse of sheet
numbers; and

To deviate from the requirements set forth in paragraph II.C.(4) that
"a separate sheet or series of sheets should be used for each rule".

Bay Area Teleport requests the deviations on the basis that the
resulting tariff schedules are easier to understand and less cumbersome to
use. The sheet numbering scheme proposed by Bay Area Teleport is similar to
the number schemes currently utilized by Pacific Bell, General Telephone and
Continental Telephone. Bay Area Teleport believes the public interest is not
served by the extravagant use of paper necessary to file one rule per tariff
sheet when several rules can be posted clearly on a single sheet because the
procedures of small resellers are fairly simple.

The deviations requested by Bay Area Teleport are found to be justified;
therefore good cause appearing,

IT IS ORDERED that:

(1) Authority is granted to make effective the above deviations by
Resolution of the Public Utilities Commission of the State of California
No. T-11065.

(2) Pursuant to the authority previously granted by Decision 86-06-027 for Bay Area Teleport tariff schedules filed by Advice Letter No. 2 shall be effective on August 19, 1986.

The effective date of this Resolution is today.

I hereby certify that the foregoing Resolution was duly introduced, passed and adopted at a regular meeting of the Public Utilities Commission of the State of California, held on August 18, 1986, the following Commissioners voting favorably thereon:
