SUBJECT: Sacramento-Valley Limited Partnership (U-3004-C).  
Order authorizing traffic interchange agreements relating to  
equal access arrangements in the Sacramento area.  
Resolution No. T-11072.

WHEREAS: SACRAMENTO-VALLEY LIMITED PARTNERSHIP (SVLP), by Advice  
Letter No. 9, filed September 23, 1986, requests authorization and approval of  
the following agreements pertaining to the provision of equal access to  
interLATA toll carriers by cellular mobile radio subscribers of SVLP in the  
Sacramento area:

PacTel Mobile Access (General Partner) and U.S. Sprint  
PacTel Mobile Access (General Partner) and AT&T Communications

SVLP states that these agreements, which involve payment to SVLP by the toll  
carriers, are in the nature of contracts that require Commission approval.  
Counsel for the utility cites CPUC Decision 88465, in which we concluded that  
"A series of contracts issued under a common rate formula becomes a de facto  
rate...". 83 CPUC 444. Each of the listed agreements calls for a payment  
calculated under a common formula which allocates to each toll carrier a part  
of the cost incurred by SVLP in developing and deploying equal access  
capability. Each share is calculated using the ratio of that carrier's  
subscribers and assignees to the total SVLP customer body. SVLP has provided  
cost support showing the total nonrecurring cost for Sacramento to be  
\$110,058; there will be no future recurring charges to the toll carriers. The  
amount payable by each carrier will be calculated following the equal access  
subscription period.

The Commission finds the listed agreements to be reasonable, and  
concludes that they should be approved; therefore, good cause appearing,

IT IS ORDERED that:

(1) Authority is granted, effective today, to carry out the terms of  
the foregoing agreements.

(2) The agreements authorized here shall be marked to show that such agreements were authorized under Resolution of the Public Utilities Commission of the State of California No. T-11072.

The effective date of this Resolution is today.

I hereby certify that the foregoing Resolution was duly introduced, passed and adopted at a regular meeting of the Public Utilities Commission of the State of California, held on October 16, 1986, the following Commissioners voting favorable thereon:
