Pacific Bell and GTE-California have letters on file with this Commission stating that the Interexchange Companies (IEC) listed above no longer have local telephone service. Additionally these companies have had mail returned to the Public Utilities Commission for a, "Second and Final Notice of Delinquent Annual Report". This report requires IEC's to file annual financial statements to the Public Utilities Commission per Section 2107 and 2108 of the Public Utilities Code. Failure to file this report may result in a penalty of up to \$2,000 per day. Other mail to these companies have been returned to the Public Utilities Commission marked as follows, "Moved left no Address," "Box closed-No order," "No forwarding order on file, and unable to forward,". Commission Advisory and Compliance Division (CACD) has attempted to reach these companies by telephone, but has reached disconnected numbers. Because of the above mentioned evidence, the Commission concludes that telephone companies listed above are no longer doing business in California.

Therefore the CACD staff requests that the Certificates of Public Convenience and Necessity previously issued by this Commission for the above mentioned companies be revoked.

FINDINGS

It is reasonable to conclude that the following companies are no longer doing business in California; Genesis Communications Inc., Commar Inc., Southwest Interconnect, Coastal Telephone Network, Compute-A-Call International Inc., Valnet, Telecom Cellular, Long Distance America, Hemet, Inc., Nevada Superphone (Superphone Corp.), Network Microwave Inc., Argo Communications Corporation, and Unitel.
