

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

COMMISSION ADVISORY AND COMPLIANCE DIVISION RESOLUTION T-14053
Telecommunications Branch February 23, 1990

R E S O L U T I O N

RESOLUTION T-14053. PACIFIC BELL. ORDER AUTHORIZING
PACIFIC BELL TO PROVIDE CENTREX AND INSIDE WIRE SERVICES
TO INGLEWOOD UNIFIED SCHOOL DISTRICT UNDER CONTRACT.

SUMMARY

Pacific Bell (Pacific), by Advice Letter No. 15668, filed January 26, 1990 requests authority under provisions of General Order No. 96-A (G.O. 96-A) and Decision No. 88-09-059 to deviate from filed tariff schedules in order to provide Inglewood Unified School District (Inglewood) with Centrex service and Inside Wire service under a customer specific contract. This Resolution authorizes the contract which Pacific estimates will result in a decrease in annual revenue of \$2,032 for each year of the contract. No protests to this advice letter were filed.

BACKGROUND

In D. 88-09-059 the Commission adopted a modified Phase 1 Settlement (hereinafter referred to as the Settlement). Under the provisions of the Settlement, the Local Exchange Companies (LECs) are allowed to provide certain services, such as Centrex service, under the terms of contracts between LECs and customers. The Settlement provides that such contracts become effective upon authorization by the Commission.

Appendix A of D. 88-09-059 sets forth a process and requirements for the filing of advice letters requesting authorization of customer specific contracts. Such requirements include:

- The contracts do not become effective until authorized by Commission resolution.
- LECs may request confidential treatment of workpapers and supporting cost documentation. Parties to the Settlement, other than the Division of Ratepayers Advocates (DRA) must enter into protective agreements to obtain such workpapers and/or documentation.
- Each contract shall cover the costs of the services provided under each such contract.

- Contracts must contain "appropriate" services.
- The methodology for determining costs shall be either fully allocated or direct embedded.
- For Pacific's Centrex service, the price may in no event go below the price of the single-line business rate, plus the multi-line End User Common Line Charge per line (1MB+EUCL).
- Tracking procedures will be set up to validate costs.
- Contracts are to be used only in unusual or exceptional circumstances.

This contract filed under Advice Letter No. 15668 covers the provision of Centrex Service and Inside Wire service to Inglewood. Centrex is a central office based communications system equipped with primary stations lines capable of receiving direct in and out-dialing of calls with optional features.

Under the terms of the contract, Pacific agrees to provide Centrex service (371 lines and optional features) and Inside Wire service to Inglewood for a period of five years at a monthly rate of \$6,019. Pacific indicates that the Commission authorization of this contract will result in an estimated decrease in annual revenue of \$2,032 for each year of the contract.

PROTESTS

No protests have been filed on Pacific's Advice Letter No. 15668.

DISCUSSION

The Inglewood contract, in accordance with the requirements of Appendix A of D. 88-09-059, contains the necessary language which conditions its approval upon Commission authorization. Pacific, in its Advice Letter, has requested confidential treatment of workpapers and supporting cost documentation, and a review of the Inglewood contract indicates that the contract does not contain a service listed as inappropriate under the provisions of Appendix A of D. 88-09-59.

Based on a review of the workpapers and supporting documentation provided with the Inglewood contract it appears that the contractual rates do recover the specific costs of providing Centrex and Inside Wire services to Inglewood based on a direct embedded cost analysis. Further, the monthly rate per line (excluding nonrecurring charge revenues) under the contract are greater than the single line business rate plus the multi-line End Users Common Line rate (1MB+EUCL).

With regard to tracking procedures required by D. 88-09-059, Pacific states in the Advice Letter that Pacific will be tracking recurring billings, nonrecurring billings (where identifiable),

in-service volumes, inward movement volumes, recurring costs, and nonrecurring costs, and will provide an initial six-month report and subsequent annual reports to the Commission documenting the tracked data.

The provisions of Appendix A of D. 88-09-059 also require that customer specific contracts are to be used only in unusual or exceptional circumstances (Appendix A, page 14). In the Advice Letter, Pacific states,

"A special contract is required in this exceptional circumstance given the fact that this customer asked Pacific for a competitive price for Centrex with payment options. Pacific offered the payment options available under the tariff but this was not satisfactory to the customer. Pacific could not meet the customer's expectations under the current tariffs, and therefore offered a customer specific contract.

The terms and conditions of this contract are specific and unique and should not be considered precedential. The statements in the Advice Letter are unique to this contract and should also not be considered precedential."

The assertions by Pacific that the customer requires a price that is fixed and is also competitive with PBX alternative's appears to form a reasonable basis on which to determine that an exceptional circumstance exists which warrants providing Centrex service to Lockheed under contract. We agree with Pacific that such a determination for Inglewood should not be considered by this Commission as establishing a precedent for subsequent contracts with other customers for telecommunications services.

D.88-09-059 states that "for Pacific's Centrex, the price may in no event go below the price of the single-line business rate, plus the multi-line EUCL per line." The following two questions have arisen concerning this requirement:

1. What is the appropriate "price" for Pacific's Centrex which should be compared to the price of the 1MB+EUCL?
2. Is the 1MB+EUCL floor rate fixed or does it float?

In Resolutions Nos. T-13091 (New York Life Centrex contract) and T-13092 (Dean Whitter Reynolds, Inc. Centrex contract) both dated September 7, 1989 we addressed both of these questions. With regard to the first question we determined in these previous Resolutions that revenues from nonrecurring charges must be excluded from the contract rate before comparing the contract rate to the 1MB+EUCL. With regard to the second question we determined that as the 1MB+EUCL floor rate changes during the life of the contract, the contract rate may have to be adjusted

so that at no time will the contract monthly rate per line, less nonrecurring revenues, be lower than the then current 1MB+EUCL. The purpose of such rate adjustments is to provide for a level playing field between the Centrex rates offered under a customer specific contract and the rates for 1MBs as well as PBX trunks which are the principle competitive services for Centrex.

In Resolution No. T-13069 (Great Western Centrex contract) based on the premise that a contract rate which is subject to change may not meet the needs of customers, we adopted an alternative means of providing a level playing field. This alternative required Pacific to offer to provide the customer deaveraged PBX trunk rates under contract with rates determined by the same cost methodology used to determine the contract Centrex line rates. Per Resolution No. T-13069, this requirement to offer to provide deaveraged PBX trunk rates applies to all Centrex contracts which were signed on or after May 26, 1989 which provide for a fixed Centrex contract rate. The Inglewood contract was signed after May 26, 1989 and Pacific has fulfilled this requirement by offering to provide the customer deaveraged PBX trunk rates under contract.

FINDINGS

We find that:

1. On January 26, 1990 Pacific Bell filed Advice Letter No. 15668 requesting Commission authorization to provide for the offering of Centrex service and Inside Wire service to Inglewood under a customer specific contract.
2. Appendix A of D. 88-09-059 and G.O. 96-A set forth certain requirements for the filing of advice letters requesting authorization of customer specific contracts.
3. Advice Letter No. 15668 conforms to the requirements of Appendix A of D. 88-09-059 and G.O. 96-A.
 - a. The Inglewood contract states that the contract will not become effective until authorized by the Commission.
 - b. The Advice Letter and the Inglewood contract are public documents.
 - c. Pacific requests in the Advice Letter that the workpapers and supporting cost documentation associated with the Inglewood contract be treated as confidential.
 - d. Pacific has offered the parties to the Phase I Settlement in I. 87-11-033 the opportunity to receive and review workpapers and supporting documentation associated with the Inglewood contract if such a party (except DRA) first enters into a protective agreement.
 - e. The Inglewood contract provides for the offering of Centrex and Inside Wire services which are appropriate services for offering under a contractual arrangement.

- f. The rates and charges set forth in the Inglewood contract cover the cost of providing the Centrex and Inside Wire services offered under the terms of the contract.
 - g. The methodology used by Pacific to develop the costs of providing Centrex and Inside Wire services to Inglewood under the terms of the contract are based on the direct embedded cost methodology.
 - h. The price per month per line (excluding nonrecurring charges) for Centrex service for Inglewood under the terms of the contract is higher than the sum of the present one-party business measured service rate and the multi-line End User Common Line charge per month per line.
 - i. The Advice Letter indicates that the costs and revenues associated with the provision of Centrex and Inside Wire services to Inglewood under the terms of the contract will be tracked.
 - j. A contract is required for Inglewood because the customer requires a fixed price that is competitive with PBX alternatives. These customer requirements are not met by Centrex and Inside Wire services available under Pacific's present tariffs.
4. Before comparing the contract rate to the 1MB+EUCL the nonrecurring charges must first be excluded.
5. Authorization of the Inglewood contract will result in an estimated decrease in Pacific's annual revenue of \$2,032 for each year of the contract.
6. Commission authorization of the Advice Letter and the Inglewood contract do not establish precedents for the contents of these filings or for Commission approval of similar requests. The Commission approval of the Inglewood contract is based on the specifics of the Inglewood contract.
7. The rates, charges, terms and conditions of the contractual services authorized in this resolution are just and reasonable; therefore,

IT IS ORDERED that:

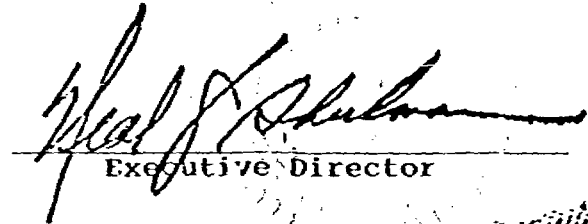

- (1) Authority is granted to make the above Advice Letter and contract effective on February 24, 1990.
- (2) The Advice Letter and contract authorized herein shall be marked to show that they were authorized under Resolution of the Public Utilities Commission of the State of California No. T-14053

The effective date of this Resolution is today.

February 23, 1990

I certify that this Resolution was adopted by the Public Utilities Commission at its regular meeting on February 23, 1990. The following Commissioners approved it:

G. MITCHELL WILK
President
FREDERICK R. DUDA
STANLEY W. HULETT
JOHN B. OHANIAN
PATRICIA M. ECKERT
