BY ADVICE LETTER NO. 49, FILED ON JULY 19, 1990.

SUMMARY

Bay Area Cellular Telephone Company (BACTC), by Advice Letter No. 49, filed on July 19, 1990, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the San Francisco/San Jose Cellular Geographic Service Areas. This Resolution authorizes the construction of the new cell site, known as the Daly City site, located at 325 La Grande Avenue, San Francisco, CA 94112. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in its application for a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 49 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities. Authority to construct the original facility, a certificate of public convenience and necessity, was granted to BACTC by Decision 86-04-010.

BACTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the Office of the State Architect and the Federal Communications Commission.

The proposed construction will be located at 325 La Grande Avenue, San Francisco, CA 94112 and is known as the Daly City site. It will consist of a total of six cellular antennas mounted on a parapet wall on the roof of an existing three-story building

The Daly City site will become part of BACTC's cellular system serving the San Francisco/San Jose Cellular Geographic Service Areas.

Public notice that BACTC filed Advice Letter No. 49 requesting authority to construct the Daly City site appeared in the California Public Utilities Commission's July 23, 1990 Daily Calendar. In addition, copies of BACTC's Advice Letter No. 49 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.
