RESOLUTION T-14201. SACRAMENTO CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A NEW CELL SITE IN THE Sacramento Metropolitan Statistical Area.

BY ADVICE LETTER NO. 31, FILED ON October 2, 1990.

SUMMARY

SACRAMENTO CELLULAR TELEPHONE COMPANY (SCTC), by Advice Letter No. 31, filed on October 2, 1990, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Sacramento Metropolitan Statistical Area. This Resolution authorizes the construction of the new cell site, known as the Galt site, located at 9911 Twin Cities Road, Galt, California at latitude 38 degrees 17' 48" and longitude 121 degrees 19' 23". No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in its application for a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 31 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

SCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): The City of Galt; the Federal

Aviation Administration; and the Federal Communications Commission.

The proposed construction will be located at 9911 Twin Cities Road, Galt, California at latitude 38 degrees 17' 48" and longitude 121 degrees 19' 23". It is known as the Galt site. It will consist of one 12' x 28' x 11' concrete steel and modular building; one 195 foot steel lattice, self-supporting tower; radio transmitting/receiving equipment; twelve cellular antennas; four microwave dishes; a DC power plant; and one generator.

The Galt site will become part of SCTC's cellular system serving the Sacramento Metropolitan Statistical Area.

Public notice that SACRAMENTO CELLULAR TELEPHONE COMPANY filed Advice Letter No. 31 requesting authority to construct the Galt site appeared in the California Public Utilities Commission's October 5, 1990 Daily Calendar. In addition, copies of SCTC's Advice Letter No. 31 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.
