Effective (11/05/90)

No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in its application for a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 81 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

LASLP has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): Federal Aviation Administration, Federal Communications Commission, City of Torrance Department of Building and Safety, County of Riverside Department of Building and Safety, City of Huntington Park Building Department, City of Huntington Beach Building Department, City of Long Beach Building Department, City of Fontana Building Department, City of Monterey Park Building Department, City of Costa Mesa Building Department, City of Anaheim Building Department, City of Los Alamitos Building and Safety Division and the City of Laguna Hills Building Department.

A description of the proposed construction is listed below by cell site name and location.

City (Cell Site Name) - Address

Torrance (Lomita) - 33 48' 41"N 118 19'49"W
Construction consists of a 20x20-foot cellular communication facility on the first floor of an existing building. The facility will house electrical radio and power equipment. A 43-foot monopole will be placed adjacent to the building.

Torrance (Moneta) - 18411 Crenshaw Boulevard
Construction consists of a 600 square foot cellular communication facility on the garden level basement floor of an existing building. The facility will house electrical radio and power equipment. Face mounted antennas will be attached to the north, east and west surfaces of the existing penthouse and a 2-foot microwave dish facing east will be mounted on the roof.

Resolution (T-14217)
