BY ADVICE LETTER NO. 32, FILED ON October 23, 1990.

SUMMARY

Sacramento Cellular Telephone Company (SCTC), by Advice Letter No. 32, filed on October 23, 1990, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to modify an existing cellular radiotelephone cell site in its cellular system serving the Sacramento Metropolitan Statistical Area. This Resolution authorizes the modification of an existing cell site, known as the U.S 50 site, located at 14751 White Rock Road, Folsom, California. BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in its application for a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

SCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the County of Sacramento, the

The proposed construction will be located at 14751 White Rock Road, Folsom, California and is known as the U.S 50 site. It will consist of twelve new antennas on an existing tower.

The U.S 50 site is part of SCTC's cellular system serving the Sacramento Metropolitan Statistical Area.
