SUMMARY

LOS ANGELES SMSA LIMITED PARTNERSHIP (LASLP), by Advice Letter No. 84, filed on November 21, 1990, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Metropolitan Area. This Resolution authorizes the construction of the new cell site, known as the Bixby Knolls site, located at 1012 West Carson, Long Beach, CA. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in its application for a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 84 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

LASLP has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the City of Long Beach, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction will be located at 1012 West Carson, Long Beach, CA and is known as the Bixby Knolls site. It will consist of a 60-foot monopole antenna and a 500 square foot equipment shelter on the second floor of an existing building

The Bixby Knolls site will become part of LASLP's cellular system serving the Los Angeles Metropolitan Area.

Public notice that LOS ANGELES SMSA LIMITED PARTNERSHIP filed Advice Letter No. 84 requesting authority to construct the Bixby Knolls site appeared in the California Public Utilities Commission's November 28, 1990 Daily Calendar. In addition, copies of LASLP's Advice Letter No. 84 were mailed in accordance with the Commission's General Order No. 96-A, Section III.
