RESOLUTION T-14292. U S WEST CELLULAR OF CALIFORNIA, INC. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A NEW CELL SITE IN THE SAN DIEGO GEOGRAPHIC SERVICE AREA.

BY ADVICE LETTER NO. 35, FILED ON DECEMBER 7, 1990.

SUMMARY

U S WEST CELLULAR OF CALIFORNIA, INC. (U S WEST), by Advice Letter No. 35, filed on December 7, 1990, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the San Diego Geographic Service Area. This Resolution authorizes the construction of the new cell site, known as the Robinson site, located at 3785 Sixth Avenue, San Diego, CA, 92103. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in its application for a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 35 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The new Robinson site represents modification of an existing cellular radiotelephone facility not described in D.85-12-023 granting U S West a certificate of public convenience and necessity.

Resolution T-14292
Effective January 7, 1991

U S WEST has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission); the City of San Diego, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction will be located at 3785 Sixth Avenue, San Diego, CA, 92103 and is known as the Robinson site. It will consist of 14 antennas mounted on an existing tower.

The Robinson site will become part of U S WEST's cellular system serving the San Diego Geographic Service Area.

Public notice that U S WEST CELLULAR OF CALIFORNIA, INC. filed Advice Letter No. 35 requesting authority to construct the Robinson site appeared in the California Public Utilities Commission's December 13, 1990 Daily Calendar. In addition, copies of U S WEST's Advice Letter No. 35 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.
