EXECUTIVE ORDER AUTHORIZING THE MODIFICATION OF AN
EXISTING CELL SITE IN THE VENTURA METROPOLITAN
STATISTICAL AREA.

BY ADVICE LETTER NO. 21A, FILED ON DECEMBER 19, 1990.

SUMMARY

VENTURA CELLULAR TELEPHONE COMPANY (Ventura Cellular), by Advice Letter No. 21A, filed on December 19, 1990, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to modify an existing cellular radiotelephone cell site in its existing cellular system serving the Ventura Metropolitan Statistical Area. This Resolution authorizes the modification of the existing cell site, known as the Camarillo site, located at the corner of Grandview and Cedar Avenue in the City of Camarillo, CA. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction or modification of cellular facilities not described in its application for a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to modify after it has received all approvals for the proposed modification required by any governmental agencies with jurisdiction over the proposed modification, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 21A contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to modify existing cellular facilities.

The new Camarillo site represents modification of an existing cellular radiotelephone facility not described in D.87-06-012, granting Ventura Cellular a certificate of public convenience and necessity.

Resolution T-14298
Effective January 19, 1991

Ventura Cellular has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed modification (with the exception of the California Public Utilities Commission): the City of Camarillo, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed modification will be at the corner of Grandview and Cedar Avenue in the City of Camarillo, CA and is known as the Camarillo site. Ventura Cellular performed preliminary pre-construction work at the Camarillo site pursuant to its let letter of undertaking filed with Commission Advice Letter No. 21. The site is now prepared to complete the construction which includes attaching 12 antenna and microwave dishes to the sides of an existing water tank and construction of an equipment shelter.

The modifications to Camarillo site will become part of Ventura Cellular's cellular system serving the Ventura Metropolitan Statistical Area.

Public notice that VENTURA CELLULAR TELEPHONE COMPANY filed Advice Letter No. 21A requesting authority to modify the Camarillo site appeared in the California Public Utilities Commission's December 24, 1990 Daily Calendar. In addition, copies of Ventura Cellular's Advice Letter No. 21A were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.
