BY ADVICE LETTER NO. 84, FILED ON JANUARY 16, 1991.

SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 84, filed on January 16, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Service Area. This Resolution authorizes the construction of the new cell site, known as Los Angeles Cellular Site No. 95, located at 137 1/8 N. Larchmont Blvd., Los Angeles, CA. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in its application for a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 84 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The new Los Angeles Cellular Site No. 95 represents an additional cellular radiotelephone facility not described in D.84-06-110, granting LACTC a certificate of public convenience and necessity.

Resolution T-14304, LACTC AL 84, GLH  
Effective February 16, 1991

LACTC has obtained permits or approvals from the following governmental entities and asserts that they are the only entities exercising jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): City of Los Angeles, FAA, FCC.

The proposed construction will be located at 137 1/8 N. Larchmont Blvd., Los Angeles, CA and is known as Los Angeles Cellular Site No. 95. It will consist of a 45 foot antenna to be used with equipment located in an existing building.

Los Angeles Cellular Site No. 95 will become part of LACTC's cellular system serving the Los Angeles Cellular Geographic Service Area.

Public notice that LOS ANGELES CELLULAR TELEPHONE COMPANY filed Advice Letter No. 84 requesting authority to construct Los Angeles Cellular Site No. 95 appeared in the California Public Utilities Commission's January 18, 1991 Daily Calendar. In addition, copies of LACTC's Advice Letter No. 84 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.
