R E S O L U T I O N

RESOLUTION T-14317. FRESNO CELLULAR TELEPHONE COMPANY.
EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A NEW CELL
SITE IN THE FRESNO METROPOLITAN STATISTICAL AREA.

BY ADVICE LETTER NO. 20, FILED ON JANUARY 8, 1991.

SUMMARY

FRESNO CELLULAR TELEPHONE COMPANY (FCTC), by Advice Letter No. 20, filed on January 8, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Fresno Metropolitan Statistical Area. This Resolution authorizes the construction of the new cell site, known as the Coalinga temporary cell site, located near Highway 33 and Palmer Avenue approximately 6 miles northeast of Coalinga, CA. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in its application for a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 20 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The new Coalinga temporary cell site represents an additional cellular radiotelephone facility not described in D.87-10-036, granting FCTC a certificate of public convenience and necessity.

FCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the City of Coalinga, the County of Fresno, the Federal Aviation Administration, and the Federal Communications Commission.

March 6, 1991

The proposed construction will be located near Highway 33 and Palmer Avenue approximately 6 miles north east of Coalinga, CA and is known as the Coalinga temporary cell site. It will consist of 4 antennas mounted on a 100-foot wooden pole, radio transmitting/receiving equipment, and a DC power plant.

The Coalinga temporary cell site will become part of FCTC's cellular system serving the Fresno Metropolitan Statistical Area.

NOTICE

Public notice that FRESNO CELLULAR TELEPHONE COMPANY filed Advice Letter No. 20 requesting authority to construct the Coalinga temporary cell site appeared in the California Public Utilities Commission's January 11, 1991 Daily Calendar. In addition, copies of FCTC's Advice Letter No. 20 were mailed in accordance with the Commission's General Order No. 96-A, Section III.
