BY ADVICE LETTER NO. 82, FILED ON JANUARY 11, 1990.

SUMMARY

Los Angeles Cellular Telephone Company (LACTC), by Advice Letter No. 82, filed on January 11, 1990, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Service Area. This Resolution authorizes the construction of the new cell site, known as LACTC Cell Site No. 228, located at 253-D 26th Street, Brentwood, California. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in its decision granting a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 82 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The new LACTC Cell Site No. 228 represents an additional cellular radiotelephone facility not described in D.84-06-110, granting LACTC a certificate of public convenience and necessity.

LACTC Cell Site No. 228 will become part of LACTC's cellular system serving the Los Angeles Cellular Geographic Service Area.
