BY ADVICE LETTER NO. 89, FILED ON January 24, 1991.

SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 89, filed on January 24, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Service Area. This Resolution authorizes the construction of the new cell site, known as Los Angeles Cellular Site No. 234, located at 210 W. First Street, Santa Ana, California. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting a certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 89 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

Los Angeles Cellular Site No. 234 represents an additional cellular radiotelephone facility not described in Decision 84-06-110, granting LACTC a certificate of public convenience and necessity.

The proposed construction will be located at 210 W. First Street, Santa Ana, California, and is known as Los Angeles Cellular Site No. 234. Four antennas will be attached to pipes on parapet walls, and the equipment will be located in the existing building.

Los Angeles Cellular Site No. 234 will become part of LACTC's cellular system serving the Los Angeles Cellular Geographic Service Area.
