SUMMARY

FRESNO CELLULAR TELEPHONE COMPANY (FCTC), by Advice Letter No. 21, filed on January 25, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Fresno Metropolitan Statistical Area. This Resolution authorizes the construction of the new cell site, known as the Calwa site, located at 2421 California Street, Fresno, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 21 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The new Calwa site represents an additional cellular radiotelephone facility not described in D.87-10-036, granting FCTC a certificate of public convenience and necessity.

FCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the City of Fresno, the Federal Aviation Administration, and the Federal Communications Commission.
