BY ADVICE LETTER NO. 47, FILED ON February 27, 1991.

SUMMARY

SACRAMENTO CELLULAR TELEPHONE COMPANY (SCTC), by Advice Letter No. 47, filed on February 27, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Sacramento Metropolitan Statistical Area. This Resolution authorizes the construction of the cell site, known as the Rancho Cordova site, located at 11468 Elks Circle, Rancho Cordova, California in Sacramento County. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 47 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Rancho Cordova site represents an additional cellular radiotelephone facility not described in Decision 87-10-037, granting SCTC a certificate of public convenience and necessity.

The proposed construction will be located at 11468 Elks Circle, Rancho Cordova, California in Sacramento County and is known as the Rancho Cordova site. It will consist of a 90 foot temporary wooden pole painted a sandstone color, a 12 foot x 28 foot x 10 foot concrete and steel modular building, twelve cellular antennas, a DC power plant, radio transmitting and receiving equipment. The site is zoned Light Industrial (M-1) and is accessible by an existing paved driveway.

The Rancho Cordova site will become part of SCTC's cellular system serving the Sacramento Metropolitan Statistical Area.
