BY ADVICE LETTER NO. 49, FILED ON MARCH 21, 1991.

SUMMARY

SACRAMENTO CELLULAR TELEPHONE COMPANY (SCTC), by Advice Letter No. 49, filed on March 21, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Sacramento Metropolitan Statistical Area. This Resolution authorizes the construction of the cell site, known as the Freeport site, located at 7788 Freeport Boulevard, Sacramento, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 49 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

SCTC/A.L. No. 49/JGB

The Freeport site represents an additional cellular radiotelephone facility not described in D.87-10-037, granting SCTC a certificate of public convenience and necessity.

SCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission); the City of Sacramento, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction will be located at 7788 Freeport Boulevard, Sacramento, CA and is known as the Freeport site. It will consist of eight antennas mounted on an existing watertank and an equipment shelter.

The Freeport site will become part of SCTC's cellular system serving the Sacramento Metropolitan Statistical Area.
