BY ADVICE LETTER NO. 96, FILED ON MARCH 27, 1991.

SUMMARY

LOS ANGELES SMSA LIMITED PARTNERSHIP (LASLP), by Advice Letter No. 96, filed on March 27, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add four cellular radiotelephone cell sites to its existing cellular system serving the Los Angeles Metropolitan Area. This Resolution authorizes the construction of four cell sites, known as the Carson, Hermosa Beach, West Hollywood, and Ventura County-Sulphur Mountain sites located at 22025 Figueroa, Carson, CA, 3201 Pacific Coast Highway, Hermosa Beach, CA, 8228 Sunset Boulevard, West Hollywood, CA, and 9600 Sulphur Mountain Road, Ojai, CA, respectively. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 96 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The four sites, Carson, Hermosa Beach, West Hollywood, and Ventura County-Sulphur Mountain, represent additional cellular radiotelephone facilities not described in D.84-04-014, granting LASLP a certificate of public convenience and necessity.

The proposed construction for the four cell sites will be located at 22025 Figueroa, Carson, CA, 3201 Pacific Coast Highway, Hermosa Beach, CA, 8228 Sunset Boulevard, West Hollywood, CA, and 9600 Sulphur Mountain Road, Ojai, CA and are known as the Carson, Hermosa Beach, West Hollywood, and Ventura County-Sulphur Mountain sites, respectively. The Carson site will consist of an antenna mounted on a 50-foot monopole and an equipment shelter. The Hermosa Beach site will consist of an antenna mounted to the top of an existing building and an equipment shelter. The West Hollywood site will consist of an antenna mounted to the roof of an existing building and an equipment shelter. Finally, the Ventura County-Sulphur Mountain site will consist of antennas attached to an existing 50-foot wood utility pole.
