R E S O L U T I O N

RESOLUTION T-14425. BAY AREA CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE San Francisco/San Jose Cellular Geographic Service Areas.

BY ADVICE LETTER NO. 90, FILED ON April 23, 1991.

SUMMARY

BAY AREA CELLULAR TELEPHONE COMPANY (BACTC), by Advice Letter No. 90, filed on April 23, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the San Francisco/San Jose Cellular Geographic Service Areas. This Resolution authorizes the construction of the cell site, known as the 101/880 Split site, located at 1701 Junction Court, San Jose, California. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 90 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The 101/880 Split site represents an additional cellular radiotelephone facility not described in Decision 86-05-010, granting BACTC a certificate of public convenience and necessity.

Resolution T-14425
Effective May 23, 1991
BACTC/A.L. No. 90/WSM

BACTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the City of San Jose, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction will be located at 1701 Junction Court, San Jose, California and is known as the 101/880 Split site. It will consist of one 45-foot monopole placed into a foundation that will be 17 feet deep and 6 feet wide. Nine cellular antennae will be mounted at the top of the monopole. In addition, BACTC will place a premanufactured equipment shelter of approximately 320 square feet on a footing type foundation about five feet northeast of the monopole. Power will be supplied from a PG&E transformer and will be fed to the equipment shelter via a 200 foot underground feeder.

The 101/880 Split site will become part of BACTC's cellular system serving the San Francisco/San Jose Cellular Geographic Service Areas.

NOTICE

Public notice that BAY AREA CELLULAR TELEPHONE COMPANY filed Advice Letter No. 90 requesting authority to construct the 101/880 Split site appeared in the California Public Utilities Commission's April 26, 1991 Daily Calendar. In addition, copies of BACTC's Advice Letter No. 90 were mailed in accordance with the Commission's General Order No. 96-A, Section III.
