BY ADVICE LETTER NO. 38, FILED ON APRIL 3, 1991.

SUMMARY

STOCKTON CELLULAR TELEPHONE COMPANY (SKTC), by Advice Letter No. 38, filed on April 3, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Modesto Metropolitan Statistical Area. This Resolution authorizes the construction of the cell site, known as the Patterson site, located at 2789 Eucalyptus Avenue, Patterson, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 38 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Patterson site represents an additional cellular radiotelephone facility not described in D.87-11-061, granting SKTC a certificate of public convenience and necessity.

The proposed construction will be located at 2789 Eucalyptus Avenue, Patterson, CA and is known as the Patterson site. It will consist of 12 antennas and 2 microwave dishes mounted on a 138-foot monopole and an equipment shelter.

The Patterson site will become part of SKTC's cellular system serving the Modesto Metropolitan Statistical Area.
