SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 131, filed on May 10, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular geographic Service Area. This Resolution authorizes the construction of the cell site, known as Los Angeles Cellular Site No. 115, located at 1515 South Coast Drive, Costa Mesa, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 131 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

Los Angeles Cellular Site No. 115 represents an additional cellular radiotelephone facility not described in D.84-06-010, granting LACTC a certificate of public convenience and necessity.

LACTC has obtained permits or approvals from the following governmental entity and asserts that this entity is the sole governmental entity that has jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): The City of Costa Mesa.

It will consist of a 360 square-foot, steel and concrete equipment shelter with an associated 45 foot monopole antenna structure, both located in a commercial site. A set of 4 antel type antennas will be mounted at the top of the monopole. The pole will be about 6 feet from the shelter and both will be enclosed by a chainlink fence.
