RESOLUTION T-14447. LOS ANGELES CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE LOS ANGELES CELLULAR GEOGRAPHIC SERVICE AREA.

BY ADVICE LETTER NO. 136, FILED ON MAY 10, 1991.

SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 136, filed on May 10, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Service Area. This Resolution authorizes the construction of the cell site, known as Los Angeles Cellular Site No. 302, located at 7543 Tampa Avenue, Canoga Park, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 136 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

Los Angeles Cellular Site No. 302 represents an additional cellular radiotelephone facility not described in D.84-06-010, granting LACTC a certificate of public convenience and necessity.

LACTC has obtained permits or approvals from the following governmental entity and asserts that this entity is the sole governmental entity that has jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): The City of Los Angeles, Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction will be located at 7543 Tampa Avenue, Canoga Park, CA and is known as Los Angeles Cellular Site No. 302. It will consist of a 45 foot monopole antenna structure with 12 antel panel antennas (1 set of 4 antel types) affixed to the top of the monopole, plus a 24-inch microwave dish for emergency link located within the area to be used with equipment located in an existing building. The monopole will be enclosed within a 6-foot high wrought iron security fence. The existing 1141 square foot, 16.5 foot high stucco commercial building will house cellular communication equipment including radio receivers, transmitters, associated electrical equipment and power supply.

Los Angeles Cellular Site No. 302 will become part of LACTC's cellular system serving the Los Angeles Cellular geographic Service Area.
