RESOLUTION T-14449
Date: June 6, 1991

R E S O L U T I O N

RESOLUTION T-14449. SACRAMENTO CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE Sacramento Metropolitan Statistical Area.

BY ADVICE LETTER NO. 57, FILED ON May 6, 1991.

SUMMARY

SACRAMENTO CELLULAR TELEPHONE COMPANY (SCTC), by Advice Letter No. 57, filed on May 6, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Sacramento Metropolitan Statistical Area. This Resolution authorizes the construction of the cell site, known as the Roseville site, located at 451 Berry Street, Roseville, California. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 57 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Roseville site represents an additional cellular radiotelephone facility not described in Decision 87-10-037, granting SCTC a certificate of public convenience and necessity.

SCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise

SCTC/A.L. No. 57/WSM

all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission); the Federal Aviation Administration, the Federal Communications Commission, and the City of Roseville.

The proposed construction will be located at 451 Berry Street, Roseville, California and is known as the Roseville site. It will consist of twelve cellular antennas, one DC power plant, radio transmitting and receiving equipment, one 100-foot lattice tower, and a 12' x 28' x 10' concrete and steel modular building.

The Roseville site will become part of SCTC's cellular system serving the Sacramento Metropolitan Statistical Area.

NOTICE

Public notice that SACRAMENTO CELLULAR TELEPHONE COMPANY filed Advice Letter No. 57 requesting authority to construct the Roseville site appeared in the California Public Utilities Commission's May 10, 1991 Daily Calendar. In addition, copies of SCTC's Advice Letter No. 57 were mailed in accordance with the Commission's General Order No. 96-A, Section III, G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.

PROTESTS

No protests have been received to SCTC's Advice Letter No. 57.
