R E S O L U T I O N

RESOLUTION T-14483. SACRAMENTO-VALLEY LIMITED PARTNERSHIP. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE SACRAMENTO-VALLEY METROPOLITAN AREA.

BY ADVICE LETTER NO. 55, FILED ON APRIL 30, 1991.

SUMMARY

SACRAMENTO-VALLEY LIMITED PARTNERSHIP (SVLP), by Advice Letter No. 55, filed on April 30, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Sacramento-Valley Metropolitan Area. This Resolution authorizes the construction of the cell site, known as the Southgate site, located at 3815 Florin Road, Sacramento, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

Resolution T-14483
Effective May 30, 1991
SVLP/A.L. No. 55/JGB

DISCUSSION

Advice Letter No. 55 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Southgate site represents an additional cellular radiotelephone facility not described in D.85-05-041, granting SVLP a certificate of public convenience and necessity.

SVLP has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the City of Sacramento, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction will be located at 3815 Florin Road, Sacramento, CA and is known as the Southgate site. It will consist of a 79-foot self-supporting monopole tower to support antennas and an equipment shelter.

The Southgate site will become part of SVLP's cellular system serving the Sacramento-Valley Metropolitan Area.

NOTICE

Public notice that SACRAMENTO-VALLEY LIMITED PARTNERSHIP filed Advice Letter No. 55 requesting authority to construct the Southgate site appeared in the California Public Utilities Commission's May 3, 1991 Daily Calendar. In addition, copies of SVLP's Advice Letter No. 55 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.

PROTESTS

No protests have been received to SVLP's Advice Letter No. 55.
