SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 139, filed on May 22, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Service Area. This Resolution authorizes the construction of the cell site, known as Los Angeles Cellular Site No. 208, located at 8409 West 8th Avenue, Inglewood, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 139 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

Los Angeles Cellular Site No. 208 represents an additional cellular radiotelephone facility not described in D.84-06-010, granting LACTC a certificate of public convenience and necessity.

The proposed construction will be located at 8409 West 8th Avenue, Inglewood, CA and is known as Los Angeles Cellular Site No. 208. It will consist of a retail store area within a stucco commercial building that will contain a 16' x 50' cellular communications equipment space with radio receivers, a transmitter, and a power supply. A 60 foot monopole with three sets of antel antennas and two 24-inch dish antennas will be set in a ten foot square area connected to the building by a five-foot-wide cable and utility easement.
