RESOLUTION T-14488. LOS ANGELES CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE LOS ANGELES CELLULAR GEOGRAPHIC SERVICE AREA.

BY ADVICE LETTER NO. 141, FILED ON MAY 22, 1991.

SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 141, filed on May 22, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Service Area. This Resolution authorizes the construction of the cell site, known as Los Angeles Cellular Site No. 264, located at the KCDZ transmitting tower at T1N, R7E; Sec. 24: N.5, SE.25, San Bernardino Meridian, California. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 141 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

Los Angeles Cellular Site No. 264 represents an additional cellular radiotelephone facility not described in D.84-06-010,

LACTC has obtained permits or approvals from the following governmental entity and asserts that this entity is the sole governmental entity that has jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): The Bureau of Land Management of the United States Department of the Interior.

The proposed construction will be located at the KCDZ transmitting tower at T1N, R7E; Sec. 24; N.5, SE.25, San Bernardino Meridian, California and is known as Los Angeles Cellular Site No. 264. LACTC's 3-16' omni sticks will be installed at 80' height on an existing 130' tower. The associated communications equipment will be placed in the lessor's wooden building, about 8 feet high and 240 square feet in area.

Los Angeles Cellular Site No. 264 will become part of LACTC's cellular system serving the Los Angeles Cellular Geographic Service Area.
