RESOLUTION T-14492
Date: May 27, 1991

R E S O L U T I O N

RESOLUTION T-14492. BAY AREA CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE SAN FRANCISCO/SAN JOSE CELLULAR GEOGRAPHIC SERVICE AREA.

BY ADVICE LETTER NO. 91, FILED ON APRIL 26, 1991.

SUMMARY

Bay Area Cellular Telephone Company (BACTC), by Advice Letter No. 91, filed on April 26, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the San Francisco/San Jose Cellular Geographic Service Area. This Resolution authorizes the construction of the cell site, known as the Crow Canyon Road site, located at 10410 Crow Canyon Rd., Castro Valley, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 91 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Crow Canyon Road site represents an additional cellular radiotelephone facility not described in D.86-05-010, granting BACTC a certificate of public convenience and necessity.

Resolution T-14492
Effective May 27, 1991
BACTC/A.L. No. 91/GMD

BACTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission); the County of Alameda, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction will be located at 10410 Crow Canyon Rd., Castro Valley, CA and is known as the Crow Canyon Road site. It will consist of three directional cellular antennas, mounted on three 14-foot poles. The poles will be secured to a 320 square-foot premanufactured equipment shelter. Power will be supplied through 1300 feet of overhead feed extending from a PG&E pole and BACTC transformer to the equipment shelter.

The Crow Canyon Road site will become part of BACTC's cellular system serving the San Francisco/San Jose Cellular Geographic Service Area.

NOTICE

Public notice that Bay Area Cellular Telephone Company filed Advice Letter No. 91 requesting authority to construct the Crow Canyon Road site appeared in the California Public Utilities Commission's April 11, 1991 Daily Calendar. In addition, copies of BACTC's Advice Letter No. 91 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.

PROTESTS

No protests have been received to BACTC's Advice Letter No. 91.
