R E S O L U T I O N

RESOLUTION T-14501. LOS ANGELES SMSA LIMITED.  
EXECUTIVE ORDER AUTHORIZING THE ADDITION OF FIVE CELL  
SITES IN THE LOS ANGELES METROPOLITAN AREA.

BY ADVICE LETTER NO. 104, FILED ON MAY 22, 1991.

---

SUMMARY

LOS ANGELES SMSA LIMITED (LASLP), by Advice Letter No. 104, filed on May 22, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add five cellular radiotelephone cell sites to its existing cellular system serving the Los Angeles Metropolitan Area. This Resolution authorizes the construction of five cell sites, known as the Coast, Sunnyslope, Trinity Center, Weir Canyon, and Frazier Mountain sites, located at 20422 Beach Boulevard, Huntington Beach, CA, 7087 Mission Boulevard, Riverside, CA, 1719 South Santee Street, Los Angeles, CA, 180 North Riverview, Suite 215, Anaheim, CA, and Summit Frazier Mountain, Ventura County, respectively. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

Resolution T-14501  
Effective June 24, 1991  
LASLP/A.L. No. 104/JGB

### DISCUSSION

Advice Letter No. 104 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The five sites, Coast, Sunnyslope, Trinity Center, Weir Canyon, and Frazier Mountain, represent additional cellular radiotelephone facilities not described in D.84-04-014, granting LASLP a certificate of public convenience and necessity.

LASLP has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the City of Huntington Beach, the County of Riverside, the City of Los Angeles, the City of Anaheim, the County of Ventura, the United States Department of Agriculture - Forest Service, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction for the five cell sites will be located at 20422 Beach Boulevard, Huntington Beach, CA, 7087 Mission Boulevard, Riverside, CA, 1719 South Santee Street, Los Angeles, CA, 180 North Riverview, Suite 215, Anaheim, CA, and Summit Frazier Mountain, Ventura County and are known as the Coast, Sunnyslope, Trinity Center, Weir Canyon, and Frazier Mountain sites respectively. The Coast site will consist of microwave and cellular antennas attached to an existing building and an equipment shelter on the fourth floor of that building. The Sunnyslope site consists of microwave and cellular antennas mounted to a 90-foot monopole and an equipment shelter. The Trinity Center site consists of microwave and cellular antennas mounted to a 60-foot monopole and an equipment shelter. The Weir Canyon site consists of microwave and cellular antennas mounted to the roof of an existing building and an equipment shelter on the second floor of that building. Finally, the Ventura site consists of cellular antennas mounted to an existing tower and installation of a cell enhancer in an existing equipment shelter.

The five cell sites, Coast, Sunnyslope, Trinity Center, Weir Canyon, and Frazier Mountain, will become part of LASLP's cellular system serving the Los Angeles Metropolitan Area.

NOTICE

Public notice that LOS ANGELES SMSA LIMITED filed Advice Letter No. 104 requesting authority to construct five cell sites, Coast, Sunnyslope, Trinity Center, Weir Canyon, and Frazier Mountain appeared in the California Public Utilities Commission's May 24, 1991 Daily Calendar. In addition, copies of LASLP's Advice Letter No. 104 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.
