RESOLUTION T-14520. LOS ANGELES CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE LOS ANGELES CELLULAR GEOGRAPHIC SERVICE AREA.

BY ADVICE LETTER NO. 150, FILED ON JUNE 19, 1991.

SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 150, filed on June 19, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Service Area. This Resolution authorizes the construction of the cell site, known as Los Angeles Cellular Site No. 326, located at 1642 Westwood Blvd., Los Angeles, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 150 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

Los Angeles Cellular Site No. 326 represents an additional cellular radiotelephone facility not described in D.84-06-010, granting LACTC a certificate of public convenience and necessity.

The proposed construction will be located at 1642 Westwood Blvd., Los Angeles, CA and is known as Los Angeles Cellular Site No. 326. It will consist of a 363 sq.ft. enclosed equipment shelter 7 - 8' high, built in the parking lot of an existing, three-story, 46.5' high building. Three sets of Antel type antennas will be roof mounted on the existing building, two sets on 5' high metal poles and one set on the side wall of a stairwell.

Los Angeles Cellular Site No. 326 will become part of LACTC's cellular system serving the Los Angeles Cellular Geographic Service Area.
