BY ADVICE LETTER NO. 59, FILED ON JULY 3, 1991.

SUMMARY

SACRAMENTO CELLULAR TELEPHONE COMPANY (SCTC), by Advice Letter No. 59, filed on July 3, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Yuba City Metropolitan Statistical Area. This Resolution authorizes the construction of the cell site, known as the Nicolaus site, located on the south side of Everglade Rd., Yuba City, Long. 121 39'40", Lat. 38 58'51". No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 59 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Nicolaus site represents an additional cellular radiotelephone facility not described in D.87-10-037, granting SCTC a certificate of public convenience and necessity.

The proposed construction will be located on the south side of Everglade Rd., Yuba City, Long. 121 39'40", Lat. 38 58'51" and is known as the Nicolaus site. It will consist of a 195 foot lattice tower equipped with FAA prescribed lighting and painting, supporting twelve cellular antennas and two dish antennas. A 12' x 28' x 10' concrete and steel modular building will hold the DC powerplant and cellular radiotelephone transmitting and receiving equipment.

The Nicolaus site will become part of SCTC's cellular system serving the Yuba City Metropolitan Statistical Area.
