RESOLUTION T-14570. SACRAMENTO CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE YUBA CITY METROPOLITAN STATISTICAL AREA.

BY ADVICE LETTER NO. 61, FILED ON JULY 10, 1991.

SUMMARY

SACRAMENTO CELLULAR TELEPHONE COMPANY (SCTC), by Advice Letter No. 61, filed on July 10, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a new cellular radiotelephone cell site to its existing cellular system serving the Yuba City Metropolitan Statistical Area. This Resolution authorizes the construction of the cell site, known as the Wheatland site, located at 5393 Waltz Road, Sutter County. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 61 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Wheatland site represents an additional cellular radiotelephone facility not described in D.87-10-037, granting SCTC a certificate of public convenience and necessity.

SCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise

all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): County of Sutter, Federal Aviation Administration, Federal Communications Commission.

The proposed construction will be located at 5393 Waltz Road, Sutter County and is known as the Wheatland site. It will consist of a 185' lattice tower with FAA prescribed lighting and painting, supporting twelve cellular antennas and two microwave dishes. A 12' x 28' x 10' concrete and steel modular building will house cellular radiotelephone equipment, a DC Power Plant and an emergency generator.

The Wheatland site will become part of SCTC's cellular system serving the Yuba City Metropolitan Statistical Area.
