BY ADVICE LETTER NO. 110, FILED ON JULY 29, 1991.

SUMMARY

LOS ANGELES SMSA LIMITED PARTNERSHIP (LASLP), by Advice Letter No. 110, filed on July 29, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add 4 new cellular radiotelephone cell sites to its existing cellular system serving the LOS ANGELES METROPOLITAN AREA. This Resolution authorizes the construction of 4 new cell sites, known as the Westlake, Palms, Jamboree, and Westminster sites, located at 611 Carondelet Street, Los Angeles, 2999 Overland Avenue, Los Angeles, 4041 Macarthur Blvd., Newport Beach, 7422 Garden Grove Blvd., Westminster, respectively. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 110 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The proposed construction for the 4 new cell sites will be located at 611 Carondelet Street, Los Angeles, 2999 Overland Avenue, Los Angeles, 4041 Macarthur Blvd., Newport Beach, and 7422 Garden Grove Blvd., Westminster and are known as the Westlake, Palms, Jamboree, and Westminster sites, respectively. The sites will consist of a 432 square foot cellular communications facility on the first floor of an existing six story parking garage, radio and power equipment, and microwave and cellular antennas on the face of the building (West Lake); a 600 square foot cellular communications facility on the second floor of an existing two story building, radio and power equipment, and microwave and cellular antennas attached to the penthouse of the building (Palms); a 510 square foot cellular communications facility on the second floor of an existing two story building, radio and power equipment, and cellular and microwave antennas on the penthouse (Jamboree); and an 8 x 35 foot equipment shelter, housing radio and power equipment and microwave and cellular antennas on a 60 foot monopole (Westminster).

The 4 new cell sites, Westlake, Palms, Jamboree, and Westminster, will become part of LASLP's cellular system serving the LOS ANGELES METROPOLITAN AREA.
