EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE  
IN THE VENTURA METROPOLITAN STATISTICAL AREA.

BY ADVICE LETTER NO. 33, FILED ON AUGUST 1, 1991.

---

SUMMARY

VENTURA CELLULAR TELEPHONE COMPANY (VCTC), by Advice Letter No. 33, filed on AUGUST 1, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Ventura Metropolitan Statistical Area. This Resolution authorizes the construction of the cell site, known as the Route 23 site, located at 2101 E. Olsen Rd., Thousand Oaks, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 33 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Route 23 site represents an additional cellular radiotelephone facility not described in D.87-06-012, granting VCTC a certificate of public convenience and necessity.

It will consist of a 12 x 28 foot equipment shelter, an emergency generator, a DC power plant, radio equipment, and 4 cellular antennas that are pipe mounted atop the equipment shelter.

The Route 23 site will become part of VCTC's cellular system serving the Ventura Metropolitan Statistical Area.
