BY ADVICE LETTER NO. 158, FILED ON AUGUST 12, 1991.

SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 158, filed on AUGUST 12, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Statistical Area. This Resolution authorizes the construction of the cell site, known as the site number 239, located at 1555 Newport Blvd., Costa Mesa CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 158 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The site number 239 represents an additional cellular radiotelephone facility not described in D.84-06-010, granting LACTC a certificate of public convenience and necessity.
