RESOLUTION T-14609. SACRAMENTO CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE SACRAMENTO CELLULAR GEOGRAPHIC SERVICE AREA.

BY ADVICE LETTER NO. 65, FILED ON AUGUST 21, 1991.

SUMMARY

SACRAMENTO CELLULAR TELEPHONE COMPANY (SCTC), by Advice Letter No. 65, filed on August 21, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Sacramento Cellular Geographic Service Area. This Resolution authorizes the construction of the cell site, known as the Yuba City site, located at 3800 Live Oak Boulevard, Yuba City, California. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 65 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Yuba City site represents an additional cellular radiotelephone facility not described in Decision 87-10-037, granting SCTC a certificate of public convenience and necessity.

Resolution T-14609
Effective September 23, 1991
SCTC/A.L. No. 65/WSM

SCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission); the Federal Aviation Administration, the Federal Communications Commission, and the County of Sutter.

The proposed construction will be located at 3800 Live Oak Boulevard, Yuba City, California and is known as the Yuba City site. It will consist of twelve cellular antennas, eight microwave antennas, one DC power plant, radio transmitting/receiving equipment, a 147 foot self-supporting lattice tower, and a 12 feet high by 28 feet long by 10 feet wide concrete and steel modular building.

The Yuba City site will become part of SCTC's cellular system serving the Sacramento Cellular Geographic Service Area.

NOTICE
