EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE
IN THE REDDING METROPOLITAN STATISTICAL AREA.

BY ADVICE LETTER NO. 21, FILED ON AUGUST 21, 1991.

SUMMARY

REDDING CELLULAR PARTNERSHIP (RCP), by Advice Letter No. 21, filed on August 21, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Redding Metropolitan Statistical Area. This Resolution authorizes the construction of the cell site, known as the Whiskeytown Lake Enhancer site, located at South Fork Mountain in Shasta County, Longitude 122-31-32, Latitude 40-39-06. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 21 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Whiskeytown Lake Enhancer site represents an additional cellular radiotelephone facility not described in Decision 89-03-56, granting RCP a certificate of public convenience and necessity.
