RESOLUTION T-14611. SACRAMENTO VALLEY LIMITED PARTNERSHIP. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF TWO (2) NEW CELL SITES IN THE SACRAMENTO METROPOLITAN STATISTICAL AREA.

BY ADVICE LETTER NO. 64, FILED ON AUGUST 21, 1991.

SUMMARY

SACRAMENTO VALLEY LIMITED PARTNERSHIP (SVLP), by Advice Letter No. 64, filed on August 21, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add two (2) new cellular radiotelephone cell sites to its existing cellular system serving the Sacramento Metropolitan Statistical Area. This Resolution authorizes the construction of two (2) new cell sites, known as the Consumnes and Patterson sites, located at 8401 Center Parkway, Sacramento, California, and 2789 Eucalyptus Avenue, Patterson, California, respectively. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (Decision 90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 64 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The two (2) new sites, Consumnes and Patterson, represent additional cellular radiotelephone facilities not described in Decision 85-05-041, granting SVLP a certificate of public convenience and necessity.

Resolution T-14611
Effective September 23, 1991
SVLP/A.L. No. 64/WSM

SVLP has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission); the Federal Aviation Administration, the Federal Communications Commission, the City of Sacramento, and the County of Stanislaus.

The proposed construction for the two (2) new cell sites will be located at 8401 Center Parkway, Sacramento, California, and 2789 Eucalyptus Avenue, Patterson, California and are known as the Consumnes and Patterson sites, respectively. The Consumnes site will consist of a 12 foot by 28 foot prefabricated communications shelter which will house cellular equipment and cellular antennas will be mounted on an existing 100 foot communications tower. The Patterson site will consist of a 12 foot by 28 foot prefabricated communications shelter which will house cellular equipment and cellular antennas will be mounted on a pre-existing monopole.

The two (2) new cell sites, Consumnes and Patterson, will become part of SVLP's cellular system serving the Sacramento Metropolitan Statistical Area.
