RESOLUTION T-14627
Date: October 4, 1991

R E S O L U T I O N

RESOLUTION T-14627. LOS ANGELES SMSA LIMITED PARTNERSHIP. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF THREE (3) NEW CELL SITES IN THE LOS ANGELES METROPOLITAN STATISTICAL AREA.

BY ADVICE LETTER NO. 113, FILED ON SEPTEMBER 4, 1991.

SUMMARY

LOS ANGELES SMSA LIMITED PARTNERSHIP (LASLP), by Advice Letter No. 113, filed on September 4, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add three (3) new cellular radiotelephone cell sites to its existing cellular system serving the Los Angeles Metropolitan Statistical Area. This Resolution authorizes the construction of three (3) new cell sites, known as the Northridge, Corona Dip, and Beverly Hills sites, located at 10835 Zelzah Avenue, Los Angeles, California; 1851 Delilah Street, Corona, California; and 464 North Rexford Drive, Beverly Hills, California, respectively. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (Decision 90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 113 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

Resolution T-14627
Effective October 4, 1991
LASLP/A.L. No. 113/WSM

The three (3) new sites, Northridge, Corona Dip, and Beverly Hills, represent additional cellular radiotelephone facilities not described in Decision 84-04-014, granting LASLP a certificate of public convenience and necessity.

LASLP has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the Federal Aviation Administration, the Federal Communications Commission, the City of Los Angeles, the City of Corona, and the City of Beverly Hills.

The proposed construction for the three (3) new cell sites is respectively described as follows:

1. The Northridge site, located at 10835 Zelzah Avenue, Los Angeles, California, will consist of the construction and maintenance of a 484 square foot free-standing cellular communications structure which will house electrical, radio, and power equipment. The project also involves the placement of three faces of cellular antennas and microwave antennas attached to a 60 foot monopole.
2. The Corona Dip site, located at 1851 Delilah Street, Corona, California, will consist of the construction and maintenance of a 410 square foot cellular communications facility in an existing single story building. The facility consists of interior space to house electrical, radio, and power equipment. The project also involves the placement of microwave and cellular antennas attached to the roof of the building.
3. The Beverly Hills site, located at 464 North Rexford Drive, Beverly Hills, California, will consist of the construction and maintenance of a 733 square foot cellular communications facility in the basement of an existing three story building. The facility will consist of interior space to house electrical, radio, and power equipment. The project also involves the placement of four faces of cellular antennas and two microwave antennas attached to the wall of the penthouse.

The three (3) new cell sites, Northridge, Corona Dip, and Beverly Hills, will become part of LASLP's cellular system serving the Los Angeles Metropolitan Statistical Area.

Resolution T-14627
Effective October 4, 1991
LASLP/A.L. No. 113/WSM

NOTICE

Public notice that LOS ANGELES SMSA LIMITED PARTNERSHIP filed Advice Letter No. 113 requesting authority to construct three (3) new cell sites, Northridge, Corona Dip, and Beverly Hills appeared in the California Public Utilities Commission's September 9, 1991 Daily Calendar. In addition, copies of LASLP's Advice Letter No. 113 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.

PROTESTS

No protests have been filed on LASLP's Advice Letter No. 113.

FINDINGS

1. On September 4, 1991, LOS ANGELES SMSA LIMITED PARTNERSHIP filed Advice Letter No. 113 requesting Executive authorization to construct three (3) new cell sites, Northridge, Corona Dip, and Beverly Hills, located at 10835 Zelzah Avenue, Los Angeles, California; 1851 Delilah Street, Corona, California; and 464 North Rexford Drive, Beverly Hills, California, respectively.
2. The Northridge, Corona Dip, and Beverly Hills sites represent additional cellular radiotelephone facilities not described in Decision 84-04-014, granting LASLP a certificate of public convenience and necessity.
3. Decision 90-03-080 adopts G.O. 159 which sets forth certain requirements for the filing of advice letters requesting authorization to construct cellular radiotelephone facilities not described in a utility's certificate of public convenience and necessity.
4. Advice Letter No. 113 conforms to the requirements of Decision 90-03-080 and G.O. 159.
5. A LASLP officer signed a declaration which states that LASLP has received all necessary permits or approvals from the governmental entities listed in Advice Letter No. 113.
6. Advice Letter No. 113 lists the following entities which have jurisdiction over the proposed construction of the Northridge, Corona Dip, and Beverly Hills cell sites: the Federal Aviation Administration, the Federal Communications Commission, the City of Los Angeles, the City of Corona, and the City of Beverly Hills.

Resolution T-14627
Effective October 4, 1991
LASLP/A.L. No. 113/WSM

7. No protests to Advice Letter No. 113 have been received.

THEREFORE, IT IS ORDERED that:

- (1) LOS ANGELES SMSA LIMITED PARTNERSHIP's request for authority to construct three (3) new cell sites, Northridge, Corona Dip, and Beverly Hills, is granted.
- (2) The effective date of this resolution is October 4, 1991.
